SECTION 4: FIRST AID MEASURES

Eye contact: Rinse immediately with plenty of water for at least 15 minutes. If eye irritation persists consult a specialist..

Skin contact: Wash off with soap and plenty of water while removing contaminated clothes and shoes. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.

Inhalation: Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. In case of shortness of breath, give oxygen./ Call a physician immediately.

Ingestion: If swallowed, call a poison control center or doctor immediately. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person.

SECTION 5: FIREFIGHTING MEASURES

FLAMMABLE PROPERTIES

Fire / explosion	Spontaneous combustion can occur should the product come into contact with hot fiber glass or mineral fiber insulation, especially when exposed to atmospheric oxygen. NFPA Class IIIB combustible liquid
Suitable extinguishing media	Water spray or fog, foam, dry chemical, CO2
Protective equipment and Precautions for firefighters	In the event of fire and/or explosion do not breath fumes. Wear self - contained breathing apparatus for fire - fighting if necessary.
Further information	Keep containers and surroundings cool with water spray. Do not use a solid water stream as it may scatter and spread fore. Collect contaminated fore extinguishing water separately. This must not be discharged into drains..

SECTION 6: ACCIDENTAL RELEASE MEASURES

Methods and materials for containment and clean-up	Ventilate the area. Contain spillage, and then collect with non-combustible absorbent material, (sand, earth, diatomaceous earth vermiculite) and place in container for disposal according to local / national regulations (see section 13). Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.

SECTION 7: HANDLING AND STORAGE

Safe handling advice:	Ensure all equipment is electrically grounded before beginning transfer operations. Keep away from sources of ignition – No smoking. Keep container tightly closed. The use of foam glass as an insulation material can reduce the risk of such spontaneous combustion. Insulation material soaked with the product must be replaced with new insulation material as soon as possible.
Storage / Transport pressure Load / Unload temperature	Ambient Ambient

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING MEASURES	Air contaminant levels should be controlled below the PEL or TLV for this product (see exposure guidelines). Provide adequate ventilation. Use explosion-proof electrical /ventilation/ lighting equipment.
Skin	Wear suitable protective clothing, gloves and eye / face protection
Inhalation	Respiratory protection is normally not required except in emergencies or when conditions cause excessive airborne levels of mists or vapors. Use NIOSH approved respiratory protection.
EXPOSURE GUIDELINES	Contains no substances with occupational exposure limit values.
