brownells.com

World's Largest Supplier of Firearms Accessories and Gunsmithing Tools™

Dear Folks:

It's darned hard to believe that 2011 is here already and marks the 100th year anniversary of the 1911! We couldn't think of a better way to celebrate than with our 7th 1911 Catalog dedicated to America's favorite pistol. The gang's been working overtime to bring you the latest and greatest...and inside you'll find almost 350 new items since last time you received this book. But if you blew right past the cover already, back up for a moment and savor the scenery before getting too wrapped up in all the gun goodies.

As you'll see on the covers, we're delighted to support the American Pistolsmiths Guild and extremely proud to show-off their masterfully crafted 3-gun set on the front cover, and stunning custom compact pistol on the back – all of these wonderfully attractive APG Raffle guns are dedicated to the 1911 Centennial and are available for you to win. Just go to page 60 and read more about the incredibly talented artists who built them and how to get your chance to win them. Ticket sales for these beauties are the Guild's primary means of financial support and help with funding for the APG Gunsmithing Scholarship Program. It's a great group of artisans and a great cause, so don't wait too long to get your crack at owning these one-of-a-kind, custom pistols.

When we started out with this catalog, and a couple of the other "specialty" books more than a few years back, we were awfully excited and hoped you would be, too...well, the responses you all have sent in told us to keep making more – they've gone over like gangbusters. It seems as though there's a big bunch of 1911 enthusiasts out there. I know I'm one and darn near everyone I know is, too. A great thing with our Catalog is you can get a head full of ideas about the 1911 you want to build...then actually go out and build it. That's pretty darn nifty and a whole lot of fun to do.

This time around we have all new dream guns to check out – each one is courtesy of some of the biggest names in the 1911 game. These great pistols give the pro or tabletop hobbyist some very different and exciting new ideas for restoring or customizing that "old favorite" or building that next project gun from the ground up. All the parts and tools you need are packed into this remarkable catalog. Plus, if you get stuck along the way, and need a helping hand, our expert Gun Techs are just a simple phone call or email away.

And that's not all...the folks in our video studio are busier than ever filming how-to and product videos to help you along the way. Just go to brownells.com or YouTube to view them and stay up-to-date on all the latest new gun goodies or get even more great ideas and technical info – we're all fans of the 1911. With all that going on, don't forget you can use our mobile website – it's set up to know you're on a phone (seems like magic to me!) – to see what's going on or to shop conveniently wherever you're at. And, keep in mind Sinclair International now serves you out of our state-of-the-art Montezuma, IA facility. Just give them a call or go to sinclairintl.com or reloading.com for all your ammo, reloading, and precision shooting needs.

With all of these wonderful changes going on, you can always trust one thing never to change – our long-standing commitment to provide you the absolute very finest **Selection, Service, and Satisfaction**. That's who we are and what we're all about. Pete and I, along with the rest of the gang, hope that you like this new catalog just as much as we do. Enjoy.

Very best,

Frank B. Pete

Frank & Pete Brownnell

Congratulations to our president, Pete Brownnell, for his election to the NRA Board of Directors!

Old John Still Has The Right Idea

"It's unwise to pay too much . . . but it's worse to pay too little. When you pay too much, you lose a little money . . . that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do.

The common law of business balance prohibits paying a little and getting a lot. It can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run. And if you do that, you will have enough to pay for something better."

– JOHN RUSKIN

At BROWNELLS, The Customer Is Always

#1

Your Satisfaction Guaranteed-Period! - Here's our pledge to you - which has never changed: If you aren't completely, 100% satisfied with any purchase you receive from Brownells, for any reason, at any time, return it for a full refund or exchange. No hassle, no problem. We don't bog you down in endless paperwork. Your complete satisfaction with each and every product we sell is what's most important to us.

We do not artificially mark up our prices to cover potential increases from the manufacturers. When notified of a price adjustment, we change our price at that time. As a result, prices are subject to change without notice.

Products marked with this symbol have passed a rigorous test of function and quality, and have been awarded the American Pistolsmiths Guild "Seal of Approval."

GSA pricing available on products marked with the GSA star. Contract #: GS-07F-0139T

Stock numbers shown in red indicate the product is made in the U.S.A.

This information is not available for all items at time of catalog production; nor does it imply that foreign merchandise is of lesser quality. We will keep our website current with the latest information.

CASPIAN 1911 AUTO RECEIVER

NEW Item
Top-quality, single-stack receivers to suit the needs of any custom project. Precision cast from stainless or carbon steel, CNC machined to final dimensions. Heat treated to Rc 22-24 for strength. Oversize frame rails allow the gunsmith to achieve an exceptionally tight slide-to-frame fit for more consistent accuracy. Available with smooth front strap or with crisp CNC machine-cut checkering. Front strap on all models except Standard is undercut at the triggerguard to ensure the shooter an extra-secure, high-grip hold. **Standard** model offers a robust, economical foundation for a great, all-around shooter. Available with standard feed ramp or pre-cut to accept barrels with Nowlin/Wilson style feed ramp. **Race-Ready** features integral, flared magazine well for lightning fast magazine changes. Smooth contours and absence of unsightly seams give your pistol a streamlined look. **Recon** model has the strength and compactness that combat and action shooters require, with an integral accessory rail that accepts laser sights and tactical lights. **Race-Ready Recon** model includes all the features of the Recon with the addition of an integral, flared, 360° magazine well for high speed reloads. **Commander (Comm.)** and **Officers** models come with 25 lpi checkered front strap and are pre-cut to accept barrels with Nowlin/Wilson-style feed ramp. Officers also available in a plain, unchecked configuration that accepts standard, unrammed barrels. **SPECS:** 4140 carbon steel (CS), in-the-white, or 416 stainless steel (SS). **Race-Ready** and **Race-Ready Recon** include mainspring housing. Gunsmith fitting required. **FFL required for purchase.**

Choose The Built-In Features You Need; Save Time & Money

CASPIAN 1911 AUTO HIGH CAPACITY RECEIVER KIT

Build Your Own, Custom, High Capacity Competition Pistol

Kit includes everything you need to convert an existing 1911 to a high capacity 9mm, .38 Super, or .40 S&W 1911 pistol—or build a new one from the ground up with additional parts available separately. Receiver has integral plunger tube, squared trigger guard, and flared, 360° magazine well. Precision cast from 4140 carbon steel and fully CNC machined to tight tolerances for highly accurate rail specs and pin hole locations. Heat treated to Rc 22-24 for optimum performance and durability. Oversize frame rails allow the gunsmith to achieve an exceptionally tight slide-to-frame fit for more consistent accuracy. Grip safety, mainspring housing, magazine catch, and ambidextrous safety are CNC-machined from carbon steel castings. Gunsmith fitting required. Magazines available below. **SPECS:** 4140 carbon steel, in-the-white. Gunsmith fitting required. Kit includes receiver, ambidextrous safety, grip safety, magazine catch, trigger, mainspring housing, and die-cut stick-on grips. **FFL required for purchase of receiver kit.**

CASPIAN 1911 AUTO SLIDES

Superb Strength & Precise Tolerances For The Ultimate Combat Pistol

Custom-quality slides from Caspian, ready to be fitted to the frame of your choice. They start as high-quality forgings for extra strength, then are heat-treated to Rc 38-41 before machining for exceptional dimensional stability. Slides are polished, while the rest of the surface is bead-blasted for a non-glare, matte finish. Deep-cut, forward-angled rear cocking serrations prevent slippage when racking, even with a wet hand. Available in 4340 carbon steel (CS) and 416 stainless steel (SS) with .45 ACP, .40 S&W, and 9mm breechfaces. Commander and Officers models in .45 ACP only. Choose a slide without sight cuts (NC), or between two pre-cut dovetail options: a **Novak Lo-Mount** or **Bo-Mar BMCS** rear cut, both coupled with a Novak front cut. All slides require the use of a 9mm/.38 Super firing pin. **SPECS:** 4340 carbon steel, in-the-white, or 416 stainless steel, natural finish. **Government** model accepts 5" barrel. **Commander** accepts 4.25" barrel. **Officers** model accepts 3.5" barrel. All Caspian slides require the use of a 9mm/.38 Super firing pin.

DOUBLESTAR 1911 AUTO CUSTOM RECEIVER

High-Quality Forging With Popular Custom Features

NEW
Full-size carbon steel receiver comes with custom features already done to help you complete your 1911 project faster. Frontstrap has clean, 25 lpi machine-cut checkering, the magwell is fully beveled, and the rear of the frame is cut with a .250" radius for an extended beavertail grip safety. The squared-off dust cover has an integral three-slot Picatinny rail for mounting a laser or tactical weapon light. Precision machined from a 4140 steel forging to tight tolerances for hole placement and rail specs. Heat treated to Rc 22-24 for optimum strength. Requires fitting of slide to frame. **SPECS:** 4140 chrome moly steel, in-the-white, bead-blasted. Gunsmith fitting required. **FFL required for purchase.**

STI 1911 AUTO SINGLE STACK RECEIVER

Precise Dimensions
For A Match-Grade
Fit That Gives
Superb Accuracy

Fully machined single stack receiver is ready for the slide, barrel, and fire-control components of your choice to build a rugged, precision-shooting competition, combat, or carry pistol. Gives you the high quality of STI's 2011 competition frames in a traditional, all-metal package with the popular enhancements you expect on high-performance custom 1911s. Machined to precise tolerances from high-quality 4140 carbon steel, then heat-treated to Rc 28-32 for exceptional wear resistance. Bead blasted to produce a smooth, non-reflective surface ready for the finish of your choice. Rails are cut slightly oversized, ready for honing to a tight, smooth, slop-free slide-to-frame fit to help ensure best accuracy. Holes for all pins and controls are precisely located, with a .250" tang radius to accommodate a beavertail grip safety. Available in two models, both with a standard dust cover. **Standard** model is machined from a high-grade investment casting and has a smooth, plain, front strap with a rounded, undercut triggerguard, and a Wilson/Nowlin-style feed ramp. **Forged** model is machined from a forged billet and has a straight, rounded triggerguard, and a standard ramp. Available with a plain, unchecked front strap, or with 30 lpi checkering. **Master** model is investment cast and features a squared, undercut triggerguard, a cut to accept a barrel with Wilson/Nowlin feedramp, and a squared-off dustcover that extends the full length of a 5" slide for extra weight up front. **SPECS:** 4140 carbon steel, in-the-white. Hardened to Rc 28-32. **FFL required for purchase.**

STI 1911 AUTO 2011 LONG SLIDE & FRAME

Stable Sighting Platform;
Enhanced Recoil Reduction

6 inch Slide/Frame combination adds 3.5 oz. of forward weight to help reduce recoil and muzzle rise. Bar stock slide has full contact rails, lowered ejection port, matte finished top, front and rear cocking serrations and no sight cuts. Gunsmith fitting is required. Lightweight, nylon polymer, composite double stack grip frame is checkered for a secure grip with an undercut triggerguard. **SPECS:** Slide and rails, 4140 steel, in-the-white. Grip, fiber-filled nylon polymer. Frame includes nylon mainspring housing, titanium composite trigger and mag catch. Slide is 8 1/2" (21.5 cm) long, accepts 6" (15.2cm) long, Nowlin/Wilson ramped barrels. **Frame: FFL required for purchase.**

STI 1911 AUTO 2011 MODULAR FRAME

Ready-to-build, high-tech, double stack frame can be fashioned into your customer's dream, competition or self-defense pistol. The 2011's modular grip frame is made from fiber-filled, nylon composite that's married to a CNC machined, 4140 steel

Composite & Steel
Frame Kit For
Building Lightweight
Pistols

upper, for the very best combination of durability, precision fit and lighter weight. Features: 20 lpi checkering on the front strap and triggerguard; heavy-duty dust cover for scope mounting; pre-contoured to accept high-ride beavertails and aftermarket grip safeties with .250" radius; integral magazine well, oversized rails. Ready for gunsmith fitting. Frames are available in two models: **Standard** - Features a Govt. length dust cover. **Long/Wide** - Dust cover is approximately the same width and length as a Govt. length slide for increased weight. Both models are available either **Non-Ramp** - with standard, non-caliber-specific feed ramp or **Ramped** - pre-machined to accept the Nowlin/Wilson-style ramped barrels. **Tactical Rail** - Features the long/wide dust cover with a tactical rail milled into the underside that accepts all industry standard light mounts. Available in Ramped configuration only. **SPECS:** **Grip Frame** - Fiber-filled polymer composite, black. **Upper Frame** - 4140 steel, in-the-white, matte finish. Kit includes checkered, nylon mainspring housing and pin; titanium/composite trigger (long) and blued mag catch (complete). Frames accept most 1911 Auto slide/barrel assemblies. **FFL required for purchase.**

STI 1911 AUTO 2011 MODULAR GRIPS

Lightweight Composite Or Aluminum Provides Match-Winning Performance

Lightweight, one-piece, fiber-filled nylon composite or high-grade aluminum grip assemblies provide a drop-in fit on all STI 2011 modular frames. **Composite** model, available in black, keeps overall pistol weight to an absolute minimum. Checkering on the side panels, front strap, and triggerguard ensures a positive gripping surface when hands get sweaty. Includes a factory-installed, checkered composite mainspring housing. **Aluminum** grips are precision-machined from a single block of aero-space grade aluminum, then abrasive-blasted matte, and left un-anodized in-the-white for custom checkering, painting, or the addition of grip tape or other texturing compounds. Offers added rigidity and a slight weight increase over composite models for improved recoil control and balance, plus gives that "feel" of an all-metal gun preferred by many shooters. **Basic (B)** size offers approximately the same grip circumference as the traditional Composite grip; **Slim (S)** size is milled down to provide a thin profile for shooter's with smaller hands or those who prefer the slimmest grip contour possible. Mainspring housing not included. Both Composite and Aluminum models accept add-on magazine wells designed to fit STI/Infinity. Grip screw kit not included. 

SPECS: **Composite** - Fiber-filled nylon polymer, Black. 2.8 oz. (79.4g) wt. **Aluminum** - High grade aluminum alloy, unfinished in-the-white. Size B: 4.6 oz. (130.4g) wt. Size S: 3.6 oz. (102.1g) wt.

STI 2011 SHORT BLOCK KIT

Pre-Fitted Slide,
Frame & Barrel
For Zero-Tolerance Fit

STI does the major component fitting, you add the fire control parts, sights and final finish. CNC machined slide has full contact, parallel rails that are carefully matched to the grip frame for superior fit and reliability. Air gauged, stainless steel, button-rifled bull barrel, with link, pin and slide stop is carefully fitted to ensure consistent lockup. Short chambered for .38 Super. Full-length recoil spring guide improves reliability. Double-stack frames feature Wilson/Nowlin ramp cut, checkered front strap, triggerguard and mainspring housing. Includes composite/titanium match trigger and complete magazine catch. Slides

STI 1911 AUTO 2011 BAR STOCK SLIDE

CNC Machined From Bar Stock With Most Wanted Custom Features

Ready-to-fit, premium-grade slides improve function, reliability and accuracy on any 1911 Auto. Precision CNC machined from solid 4140 steel bar stock, featuring an ultra-smooth wire EDM cut breech face for improved feeding, a lowered and flared ejection port, full-contact rails, and a pre-smoothed barrel bore. These slides are machined for collar reverse plugs and all edges are radiused. All models must be used with a .38 Super/9mm firing pin and require gunsmith fitting. **Classic Slides** feature relief cuts above the recoil spring plug housing and either rear (R) or front and rear (F/R) serrations. Also available in Commander (.45 ACP only) and extended 6" (.38 Super/9mm only) lengths, both with smooth sides (NS) ready for milling custom cocking serrations. **Unique** slides are straight cut with 1/2 oz. more weight forward for better recoil control, and have rear cocking serrations only. Also available in extended 6" length, no serrations, .38 Super/9mm only. 

SPECS: 4140 steel, in the white. Semi-polished sides, matte finish top. 7 1/2" (19cm) long, accepts 5" barrels, unless otherwise indicated, and collar reverse plugs. All models must be used with .38 Super/9mm firing pin. Available with no sight cuts (NC) or with a 60° x .300" x .060" front dovetail and Bo-Mar BMCS (BMC) rear cut. **Classic Commander** - 6 1/16" (17cm) long. Accepts 4.25" barrel. .45 ACP only. **Classic 6"** and **Unique 6"** - 8 1/16" (24cm) long. Accepts 6" barrel. .38 Super/9mm only.

WILSON COMBAT 1911 AUTO CHECKERED RECEIVER

Precision-Machined From Forgings With Popular Custom-Pistol Performance Features

The same receiver that Wilson's legendary full-size custom 1911s are built on, with popular performance features that combat and competition shooters want. Precision machined from hardened steel forgings to ensure maximum strength and precise dimensions, including slide rails that allow a slide-to-frame fit as tight as .004" or less. Custom features include deep-cut, 30 lpi checkering on the frontstrap for a superb, non-slip grip and outstanding recoil control; deeply undercut triggerguard for a hand position high up on the receiver that also promotes fast recovery between shots; integral feed ramp; and a beveled mag well for fast magazine changes under stress. Pre-cut to accept a Wilson extended beavertail grip safety, available separately. Requires Wilson Heavy Duty Extended Ejector, also available separately. Available in high-grade carbon steel, ready for the tactical finish of your choice, or naturally corrosion-resistant stainless steel.

SPECS: 4140 carbon steel, in-the-white, or stainless steel, natural finish. **FFL required for purchase.**

WILSON COMBAT 1911 AUTO PRE-FIT SLIDE/FRAME/BARREL KIT

For A Head Start In Building A High-Grade Pistol

Hand-selected 1911 slide and frame with a match grade, .45 ACP match stainless steel barrel are a great start in building a premium custom pistol. Components are precision CNC machined from high-quality carbon steel, stainless steel, or aluminum, then hand fitted by Wilson's professional gunsmiths. Exterior surfaces are prepped to receive any kind of finish from traditional bluing to the latest, high-tech finish. Features on the frame include crisp 30 lpi checkering on the frontstrap, a rounded, deeply undercut triggerguard, integral feed ramp, and beveled magazine well. Comes with a Wilson 298 grip safety, and the slide is machined to accept a Wilson 463 Combat Pyramid Sight set (available separately). **Full-Size** sets feature a Government model frame and slide with front and rear cocking serrations, plus a 5" barrel. The **Compact** model features a shortened slide with 4" barrel. Officer-size grip, and rear cocking serrations only. All kits are .45 ACP and require a .38 Super/9mm firing pin.

SPECS: Carbon steel (CS), stainless steel (SS), or aluminum (Alum) frame/slide. Stainless steel barrel, barrel bushing, barrel link, link pin. Caliber: .45 ACP only. Slides have a Novak .500 x 65° rear sight dovetail and a .300" x 60° front dovetail. Each kit includes a checkered frame, slide, match grade barrel, barrel bushing, barrel link, link pin, grip safety, and Wilson Bullet Proof® slide stop. **FFL required for purchase.**

WILSON COMBAT 1911 AUTO SLIDE

Comes With Popular Custom Features To Save Time & Money; Available In Carbon Or Stainless Steel

The same premium-quality slide used in Wilson's legendary custom 1911s now available separately to form the top end of your own custom tactical, self-defense, or competition pistol. Precision machined using the latest CNC equipment from hardened steel forgings for superb strength and precise dimensions that allow a slide-to-frame fit of as little as .004". Available in unfinished carbon steel or stainless steel, these unmarked, round-top slides come with deep-cut, diagonal front and rear cocking serrations, plus a lowered, flared ejection port to minimize risk of stovepiping or other jams and help ensure spent cases are completely ejected. Also includes .300" x 60° dovetail cut for front sight; rear of slide is plain, without dovetail, so you can install the rear sight that best suits your requirements. Requires use with .38 Super/9mm firing pin, not included. 

SPECS: Carbon steel (CS), in the white, or stainless steel (SS), natural finish. Fits full-size, .45 ACP Government model frame and 5" barrel. Accepts .38 Super/9mm firing pin only. **#965-000-079DH CS Govt Model Slide 5F00XCH... \$ 300.00**

WILSON COMBAT 1911 AUTO GUNSMITH FRAME & SLIDE KIT

Custom-Matched Set With Popular Performance Features Saves Time & Money

Matched, full-size, .45 ACP set comes with much of the labor-intensive, slide-to-frame fitting already done, so you get down to final fitting and adding the custom parts right away. Both components are machined on the latest CNC equipment from high-quality carbon steel forgings before the preliminary pre-fitting fitting is done by Wilson's gunsmiths. Popular custom features on the frame include a rounded, deeply undercut triggerguard, integral feed ramp, and beveled magazine well. It's pre-cut to accept a Wilson extended beavertail grip safety and the new Heavy Duty Extended Ejector (both available separately). Unmarked, round-top slide has wide, deep-cut front and rear cocking serrations, a lowered and flared ejection port, and a .300" x 60° front sight dovetail cut. The top rear of slide is smooth, so you can mill the correct dovetail for any rear sight you choose. Exterior surfaces are bead-blast prepped to receive any kind of finish from traditional bluing to the latest, high-tech tactical treatment.

SPECS: 4140 carbon steel, in-the-white. Accepts standard 5" .45 ACP barrel. Requires .38 Super/9mm firing pin and Wilson Heavy Duty Extended Ejector, available separately. Some final fitting required. **FFL required for purchase.**

TACTICAL SOLUTIONS 1911 AUTO 2211 CONVERSION KIT

Hone Critical
Shooting Skills
Using Economical
.22 LR Ammo

Complete .22 LR

conversion system comes fully assembled and ready to install on your 1911 Government model or Commander to help you practice critical shooting skills with economical rimfire ammo. Concentrate on improving grip, sight alignment, trigger pull, breath control, and other skills without burning up expensive, full-power ammo. Simply remove the slide as if you're field stripping, and replace with the 2211 slide/barrel assembly and 10-round rimfire magazine. With the 2211 installed, the gun functions normally—the slide even locks open after the last round is fired. Precision machined entirely from high-grade steel to the same high standards of workmanship as a custom-quality competition pistol, with a lustrous, matte blued finish. Custom features include wide, crisply milled front and rear cocking serrations, 4½" bull barrel with integral feed ramp, full-length steel guide rod, and a "flattop" sight rail with front and rear competition sights already installed. Champion rear target sight is fully click adjustable for windage and elevation, with an easy-to-acquire .110" wide square notch and flat, serrated rear face. Plain black front sight has glare-inhibiting serrations on front and rear faces. Lightweight milled aluminum 10-round magazine has flared baseplate to aid positive seating in oversized magwells; base removes easily for cleaning.

SPECS: Slide/Barrel—Steel, blued, matte finish. Magazine—Aluminum, black, 7¼" (18.4cm) overall length, 23.1 oz. (655g) total weight. Fits 1911 Govt/Commander and clones chambered in .45 ACP, .40 S&W, .38 Super, and 9mm. Also fits STI 2011 with standard-width slide and 4½" or 5" barrel; double stack magazine required, available below. Conversion kit's ejector may require fitting to ensure proper clearance of frame-mounted ejector on some pistols.

KIMBER 1911 AUTO RIMFIRE TARGET CONVERSION KIT

Train With
Economical .22 LR
Ammo In Your
Full-Size Pistol

Blowback-operated sub-caliber conversion unit lets you shoot less expensive .22 LR

ammunition in any mil-spec 1911 Government model, so you can afford to practice more. Preserves pistol's weight, balance, and overall feel to help you develop specific skills and "muscle memory" to shoot better with full-power ammo. Simply remove the factory slide and barrel, replace them with the conversion unit, and load up the included .22 magazine with premium-grade high-velocity ammunition. Manufactured to the same rigorous quality standards as Kimber's full-power 1911 pistols; slide is precision machined from aluminum billet, with wide front and rear cocking serrations and Kimber's tough, scratch-resistant, KimPro II™ finish. Comes with plain black target sights installed; rear sight is click adjustable for windage and elevation, with flat, finely serrated rear face and a square notch. Includes ramped, match-grade 5" barrel with a 1:16" left-hand twist and stainless steel match-grade bushing. Reinforced polymer 10-round magazine is designed for a secure fit in a standard .45 ACP mag well, and has an anti-tilt polymer follower to ensure smooth feeding of rounds. Slide does not lock open after last shot; pistol may be dry fired with kit installed.

SPECS: Aluminum slide, steel barrel, polymer magazine. Available with matte black or silver slide. Fits 1911 Govt model pistols chambered in .45 ACP with 4" or 5" non-ramped barrels and dimensional tolerances that meet U.S. Government specs, including Series 70 and 80 Colt pistols and clones. Requires high-velocity ammunition for proper operation.

BROWNELLS 1911 AUTO RIMFIRE CONVERSION CASE

Protects Pistol & Conversion
Unit From Nicks, Dings &
Shock During Transport

Good-looking, premium-quality pistol case protects your favorite 1911 pistol and its .22LR conversion kit from bumps, nicks, and scratches during the trip to and from the range. The generously-proportioned, fully padded rear compartment has plenty of room for the pistol, while the separate front compartment features a padded internal sleeve with a hook-and-loop closure to secure the conversion slide/barrel unit. Four separate sleeves each hold a single-stack .22 or .45 ACP magazine, and there's even room for a few boxes of .22 ammo. This case is built like our Signature Series gun cases with a tough outer shell of water-repelling 1000 denier nylon, heavy-duty YKK nylon zippers with easy-to-grasp metal pulls, a brass D-ring that lets you lock the rear compartment (padlock not included), and a double-stitched ballistic nylon carry strap that fully supports the case by looping all the way around the main compartment. A soft, nylon tricot lining in the rear compartment ensures your pistol comes out looking just like it did when it went in. Leather pocket stitched on the front holds a business card or luggage ID tag.

SPECS: 1000 denier nylon shell, black or Coyote. 13½" (34.3cm) long, 10" (25.4cm) high, 3" (7.6cm) thick when zipped.

BRILEY .45 BARREL & SPHERICAL BUSHING

Superb, Match-Grade Quality Stainless Steel; With Or Without A Pre-Fit Bushing

Chamber, lands and grooves are Electro-Cathode machined for closest tolerances and maximum accuracy. Precision bore is concentric with chamber and completely seals expanding gases behind the bullet for higher velocities with lower pressures. Exclusive **Spherical Bushing** with titanium nitrided insert fits perfectly to the barrel for less friction and increased accuracy. **US**

SPECS: Barrel - Stainless steel, 5" (12.7cm) or 6" (15.2cm) long, .583" ± .001" O.D. ramped (R) or non-ramped (N/R). All are .45 ACP caliber. **Bushing** - Stainless steel, gold, titanium-nitrided steel insert, O.D. must be turned to fit slide. Barrels require gunsmith fitting. Ramped barrels require machining of frame.

CLARK CUSTOM 1911 AUTO .460 ROWLAND CONVERSION KIT

Gives .44 Mag Power To Your 1911 Auto

Drop-in kit contains everything you need to convert a standard 1911 into a high-performance hunting pistol chambered for the hard-hitting .460 Rowland cartridge. Requires no permanent alterations to the gun, and you retain its existing trigger, hammer, firing pin, extractor, and other parts—even your standard .45 ACP magazines. Comes with a stainless steel barrel with integral dual port compensator that helps control recoil and muzzle flip. Also includes a match grade bushing that fits most slides tightly for excellent accuracy, full-length guide rod, Wolff 20 lb. and 24 lb. recoil springs, extra-power firing pin spring, recoil plug, guide rod hex wrench, bushing wrench, and installation instructions. **US**
SPECS: Barrel - Stainless steel, natural finish, with matte black finish on compensator. 7" (17.8cm) OAL, including compensator. Comp adds 1 1/2" (3.8cm) to pistol length. May require minor fitting. Factory recommends installation on full-size Colt, Kimber, Springfield Armory, Smith & Wesson, Dan Wesson, Essex, and Caspian pistols. Should not be installed on AMT, Auto-Ordnance, Charles Daly, IAI, Llama, or original USGI pistols.

#181-100-460DH Rowland Conversion Kit, 1H261U77 \$ 326.99

CLARK CUSTOM MATCH-GRADE BARREL

Superb Clark Accuracy In Both Ramped & Standard

Hardened, heat-treated and fully machined from long-wearing, solid billet, chrome-moly steel. (Jimmy's favorite for continuous, long-wearing accuracy from full power and mid-range ammo). These are the same barrels the Clarks use to build super accurate bullseye and full-house IPSC pistols for top shooters everywhere. **Ramped** models feature an extended, integral ramp that fully supports the case head to end head separations and bulged cases. Rounds feed directly onto the ramp, no frame-to-barrel gap for bullet noses to hang up on. **US**

SPECS: 4150 CM steel, blued, Rc 34-38. 6" (15.2cm) long can be cut to fit most slide lengths. Available **Threaded and Plain, Ramped (R) and Non-Ramped (NR). Threaded .575"-40 tpi to a length of 2 1/2" from tip of muzzle to fit most cone-style compensators and bushings. Oversized hood, top lugs and bottom feet require gunsmith fitting.**

NIGHTHAWK CUSTOM 1911 AUTO MATCH GRADE BARREL & BUSHING

Custom-Quality Set Ready For Fitting To Deliver Outstanding Accuracy

Premium-quality, .45 ACP barrel is precision machined from solid 416 stainless steel barstock to tolerances +/- .001" or less in critical areas. Heat treated to Rc 40-42 to maintain those dimensions, even under the battering of hard competition. These unramped barrels are broach rifled with a left-hand 1-16" twist. Some fitting required, so you can produce a tight, no-play fit for maximum accuracy from your gun. The match grade bushing is machined from the same premium-grade stainless steel, with I.D. and O.D. left slightly oversized to allow custom fitting to your barrel, further ensuring precise lockup and excellent accuracy. **US**

SPECS: 416 stainless steel. Rc 40-42. .45 ACP, 1-16" twist, left hand. Govt - Barrel: 5" (12.7cm) long. Bushing: .829" long (21.1mm) long, .573" (14.6mm) I.D., .698" (17.7mm) O.D. **Commander** - 4 1/2" (10.8cm). Bushing: .515" (13.1mm) long, .573" I.D., .698" O.D. Gunsmith fitting required.

NOWLIN MFG. 1911 AUTO MATCH-GRADE ECM BARREL

Ultra-Smooth Rifling Gives Superb Accuracy

Triple heat-treated, non-ramped, match-grade barrel delivers maximum accuracy. ECM machining holds groove and bore tolerances held to an amazing .0002". Unique, pre-cut design of the top lugs requires only minor fitting to achieve maximum lug engagement. Rifling is ultra-smooth, uniform, and precise. Angled edge on the driving band increases gas seal for reduced fouling with all bullet types and promotes long barrel life. Short chamber requires reaming (.4405" pilot diameter) to achieve correct headspace.

SPECS: 416 stainless steel, hardened to Rc 40. 5" (12.7cm) long, .581" (14.7mm) O.D. .45 ACP Non-ramped. Oversize hood and feet require gunsmith fitting.

CLARK CUSTOM 1911 AUTO BARREL BUSHING

Improve Accuracy, Eliminate Excess Play

Two sizes: **Standard** fits most barrels with only minor polishing/fitting; **Oversize** especially made to give you enough metal to custom-fit it to a barrel that is undersized due to wear, G.I. barrel, etc. Fully machined. Favorite bushing of experienced pistolsmiths. Requires gunsmith fitting.

SPECS: .875" (22.22mm) long, .714" (18.13mm) O.D. **Std** - .575" (14.55mm) I.D., **Oversize** - .553" (14.05mm) I.D. Blued steel.

BRILEY SPHERICAL BUSHING

Maximum Accuracy;
Drop-In Convenience

Separate, ultra-hard, spherical, internal ring pivots on its horizontal axis inside the unique, precision-machined bushing. Absolutely prevents barrel spring. Provides the easiest, longest wearing, closest fitting barrel bushing setup available. Models available to fit full-size Government or Commander pistols, in two configurations: **Drop-In Bushing/Ring** requires no fitting on the O.D. **Oversized Bushing/Ring** has an oversized skirt that requires turning to fit most slides. I.D.'s of Govt. Oversize Bushing skirts are threaded to accept the exclusive Briley **Bushing Mandrel** that makes turning the O.D. in a lathe simple and fast. Commander Oversize Bushings are not threaded for use with the mandrel.

SPECS: Bushing - 17-4 stainless steel. **Ring** - 17-4 stainless steel, titanium nitrided to Rc 60. Drop-in - .698" (17mm) O.D. **Oversized** - .703" (178mm) O.D. **Bushing Mandrel** - Stainless steel, 2" (5cm) long. To select correct bushing, measure barrel O.D. and select **Bushing/Ring** .001" larger than barrel O.D.

NOWLIN MFG. 1911 AUTO STAINLESS STEEL BARREL BUSHINGS

Improves Slide/Barrel Fit
For Better Accuracy;
Pre-Fit & Oversized Models

Premium-grade, machined stainless steel bushings ensure a close slide-to-barrel fit for the tight lockup that helps produce consistent accuracy. Heat treated and hardened to stay in spec through thousands of firing cycles. Pre-Fit requires little or no fitting on most 1911 Autos. Quick and easy way to obtain optimum accuracy and proper lock-up. Fits Nowlin, Wilson, and other .581" O.D. barrels. Oversized requires turning of O.D. and reaming of I.D. to achieve a true, match-grade fit for maximum accuracy and secure lock-up. Gunsmith fitting required.

SPECS: 416 stainless steel, heat treated, natural finish. Pre-Fit — .701" (178mm) O.D., .581" (14.8mm) I.D. Oversized — .703" (17.9mm) O.D., .576" (14.6mm) I.D. Fits Government and Commander.

EMC 1911 AUTO "200 PIN" SLIDE STOP

Machined To Maximum Dimensions For Tight Lockup

Hardened stainless steel slide stop features a perfectly round, machined pin with .200" ± .0005 outside diameter to ensure tight barrel-to-slide lockup for improved accuracy. Square-cut checkering on top of the thumb pad provides a unique custom look and helps provide positive contact for "no-slip" disengagement. Underside of pad is finished smooth with and upswept contour to prevent snagging during presentation or re-holstering. Polished surface finish requires little to no work to match the finish of your gun's stainless steel frame. 

SPECS: Stainless steel, polished finish. OAL - 1 5/16" (3.3cm). Thumb Pad - 1/2" (12.7mm) long x 1/8" (3.2mm) wide. Fits single stack and high capacity .45 ACP.

EGW 1911 AUTO HEAVY DUTY SLIDE STOP

Machined From Hardened Steel For Maximum Strength & Durability; Standard & Oversized Pins Available

Heavy duty slide stop is precision machined from steel bar stock, then heat-treated for superb hardness and durability. Ensures a precise fit to frame for secure, consistent lockup; prevents slop or "play" that can compromise accuracy. Available with standard .200" diameter pin or oversized .203" pin for custom fitting to ensure the tightest possible lockup for maximum accuracy. Both sizes available in blued 4140 carbon steel or stainless steel, both with a fine bead-blasted matte finish. Fine-line serrations on pad give your finger secure purchase to release the slide on the first pass. 

SPECS: Carbon steel, matte blued (BL), or stainless steel (SS), matte finish. Pin diameter: .200" (5.1mm) or .203" (5.2mm). Calibers listed in table.

NIGHTHAWK CUSTOM 1911 AUTO TACTICAL SLIDE STOP

Fast, No-Slip Engagement & Low-Profile

Standard-length replacement for factory slide stop gives you the benefit of an oversized stop without the added bulk. The low, deeply serrated thumb pad sits at a 90° angle to the frame for fast, solid, fumble-free engagement. Rounded edges won't snag on holster or clothing during a fast draw. Cut from a solid, carbon steel forging, then precision machined to exact dimensions and hardened for maximum strength before receiving Nighthawk's tough Perma Kote™ finish for outstanding wear resistance. Pin is machined to maximum .200" (5.1mm) diameter to give a tight barrel-to-slide lockup for better accuracy. 

SPECS: Steel, blued, matte finish. Thumb pad is .650" (16.5mm) long, .125" (3.2mm) wide.

#100-003-239DH Tactical Slide Stop 2B42Y36 \$ 52.95

2011 pistols. Hard, black oxide finish adds surface strength to resist wear and corrosion. 

SPECS: 4140 steel, matte black oxide finish. Thumb pad is .600" (15.2mm) long x .200" (5.1mm) wide. Pin diameter .199" (5.1mm). Fits STI 1911 and 2011 pistols in all calibers; stop tab may require minor trimming for proper function in .45 ACP pistols. May be installed on non-STI frames with additional fitting.

EGW 1911 AUTO HEAVY DUTY EXTRACTOR

Updated Design For Reliable Extraction & Long Service Life

Redesigned, ruggedly built extractor uses the tighter tolerances and improved geometry possible with 21st century materials and manufacturing technology to deliver outstanding reliability, strength, and durability. Proprietary steel alloy is precision machined with the latest CNC equipment, then vacuum heat-treated to Rc 49-51 for superb strength and tension-retaining properties. All inside corners are radiused to eliminate the sharp 90° corners where failures often occur. Claw is wider than factory specification and undercut and positioned closer to the bolt face for a tighter grip on the case rim. Body is longer, so it can be custom fitted to your slide, and nearly three times as thick as factory original for greater strength. 

SPECS: Steel, heat-treated, blued. Fits Series 70 1911 Auto pistols, .45 ACP or .38 Super/9mm.

EGW 1911 AUTO EXTENDED EJECTOR

Oversized At Both Ends
For Precise Fitting

Hardened, competition-grade ejector is left long at both ends so you can custom fit it to your gun. Extra long at the front, so you can cut, fit, and contour the nose to achieve the precise ejection angle and eliminate ejection-related failures. Additional metal at the rear can be ground off flush with the slide after barrel fitting, so there's no unsightly gap between the ejector and the slide. Gunsmith fitting required.

SPECS: Carbon steel, blued. Hardened to Rc 40-42. Fits 1911 Auto, standard and high-capacity frames.

#296-100-038DH 9mm/.38S Ext. Ejector 6B19T20 . . . \$25.20

#296-100-045DH .45 ACP Extended Ejector, 6B19T20 25.20

HEAVY DUTY EJECTOR - Precision machined from solid carbon steel barstock, with plenty of extra metal for exceptional strength and precise fitting. Extra width and extra-long posts mean this ejector won't budge under the pounding of thousands of rounds in hard competition and tactical operations. Longer at the front and rear, just like EGW's standard extended ejectors, to allow custom-fitting to your gun. Gunsmith fitting required.

SPECS: Steel, heat-treated, blued. Fits .45 ACP 1911 Auto, standard and high-capacity frames.

#296-000-134DH .45 ACP HD Ejector 6B19Y20 \$23.99

NIGHTHAWK CUSTOM 1911 AUTO EXTENDED EJECTOR

Extra Length For Reliable Ejection;
Tough, Hardened Steel
Construction

High quality replacement for your gun's factory ejector has an extended nose to ensure solid contact that consistently boots the spent case clear of the ejection port. Helps prevent jamming, smokestacking, and other ejection-related problems that compromise reliability. Cut from solid bar stock then hardened before bluing, so it'll stand up to a pounding. Part may need minor fitting; does not require modifications to frame.

SPECS: Steel, blued. Fits 1911 Auto. Separate models for .45 ACP and 9mm/.38 Super/.40 S&W.

#100-003-245DH .45 ACP Extended Ejector, 2B22Y91 \$29.99

#965-000-023DH .45 ACP Ext. Combat Ejector, SS, 5F27U83 32.95

HEAVY-DUTY EXTENDED EJECTOR - Instead of traditional mounting stakes, a generous .560" long stud anchors this ejector in the frame like a rock, so even the constant pounding of the hottest +P loads won't budge it. Correct factory part for new-model Wilson Combat frames; installation on non-Wilson frames requires milling of frame.

AMERICAN SHOOTING CENTER 1911 AUTO SWENSON THUMB SHIELD SAFETY

Extra-High Shield Prevents
Thumb-To-Slide Contact

Ambidextrous thumb safety with extra-high shield ensures a safe "high thumb" position. Prevents even the slightest thumb-to-slide contact for more consistent cycling and less chance of jams. Large, oversized thumb contact area is comfortably curved to match the natural shape of the thumb; provides increased leverage for better recoil control.

SPECS: Stainless steel. Serrated contact pad .950" (24mm) long x .315" (8mm) wide. Fits 1911 Auto only, gunsmith fitting required.

#136-102-002DH Ambi Thumb Shield Safety, 6C74U26 \$91.99

CASPIAN 1911 AUTO EXTENDED THUMB SAFETIES

Long Pads For Positive Thumb
Contact; Single & Ambi Models

Extended thumb paddle provides a large contact surface for fast, positive safety operation under stress. Beveled edges won't abrade the finger, snag the holster on the draw, or grab clothing during concealed carry. Deeply-grooved top surface ensures no-slip operation. **Single** model gives concealed carry and tactical pistols the benefit of an extended safety with minimal protrusion out from the receiver. **Ambi** - A solid, full-length lock pin extends the width of the frame, eliminating the weak, traditional "screwdriver-style" slot usually used in ambi safeties. Integrated hammer pin fits into a captive slot machined in the right side paddle to prevent over-rotation and keep the paddle from breaking. If one lever breaks, the other will continue to function.

SPECS: Carbon steel, blued, or stainless steel (SS), natural silver, matte finish. Thumb pads are 1" (2.5cm) long, .220" (5.5mm) wide. **Ambi** models fit Caspian double-stack receivers.

NIGHTHAWK CUSTOM 1911 AUTO EXTENDED THUMB SAFETY

Generous Thumb Pad
For Easy Engagement;
Blended, No-Snag Contours

Extended, single-side safety lever has a curved, serrated thumb pad with plenty of surface area that ensures fast, positive operation. Pad is positioned to provide maximum leverage, even for the shooter who prefers a high-thumb hold, and it can be reshaped to a custom contour by a gunsmith. All edges are beveled or rounded to eliminate sharp spots that could snag on clothing or other gear—excellent for concealed carry, tactical, or competition guns. The side plate is thicker at the front to prevent the safety lock plunger from riding over it, and tapers toward the rear to reduce bulk. Finished in Nighthawk's proprietary ceramic-based, self-lubricating Perma Kote™ finish that has been tested to stay rust-free even after 5,000 hours in a salt spray.

SPECS: Steel, matte black finish. Contact pad 7/32" (5.6mm) wide, 15/16" (2.38cm) long. Some fitting required.

High Ride Comfort For Colts,
Without Frame Cutting

Install the comfort and convenience of a high ride beavertail safety on your Colt 1911 Auto without cutting or altering the frame. Deeply curved shape lets the pistol sink farther into the web of your hand for improved recoil control and shooting comfort. Raised pad at the base ensures positive safety engagement even with a high-thumb hold. Wide beavertail eliminates painful hammer bite. All models must be used with Commander-style or bobbed hammers only. Minor fitting of trigger engagement area may be required for proper operation. **USA**

SPECS: CM steel, blue or stainless steel, matte finish. Fits Colt Series 70 and 80 1911 Auto only. **Commander** also fits Officers ACP.

WILSON COMBAT 1911 AUTO BULLET PROOF® GRIP SAFETY

Allows High Grip For Better
Control & To Prevent Hammer Bite

Generously proportioned and machined from high-grade steel barstock for an exceptionally precise fit and consistent operation. Builds on Wilson's popular High Ride design with a wide, heavily upswept beavertail that allows the shooter to maintain a high, straight grip, with total protection from hammer bite. Distributes recoil over a large area of the hand for excellent control and fast follow-up shots. Raised palm pad with a pronounced ridge helps ensure complete safety disengagement and gives positive, tactile feedback for consistent hand placement every time. All exposed edges are rounded to prevent snagging. Flowing Wilson/Clark compound radius blends smoothly into the frame; installation requires alteration of frame. Available in carbon steel with a uniform, matte blued finish or stainless steel natural finish. **USA**

SPECS: Carbon steel, blued, matte finish, or stainless steel, satin finish. Fits Colt Series 70, 80, and 90 pistols and clones. Wilson/Clark compound radius requires alteration of frame; also matches Caspian radius.

WILSON COMBAT 1911 AUTO BULLET PROOF® CONCEALMENT GRIP SAFETY

For Easy Carry & Snag-Free Presentation

Low-profile grip safety is designed to create a smooth, streamlined package for comfortable concealed carry and fast, no-snag presentation. Extra-wide beavertail fits comfortably in the web of the hand for excellent protection from hammer bite, improved control, and less felt recoil. Positive Release tab helps ensure positive safety disengagement and provides a repeatable anchor point for consistent shooting each time you present the pistol. Precision machined from high-grade stainless steel billet for strength and long service life. Proper function requires installation of a Wilson Bullet Proof hammer, available separately.

SPECS: Machined stainless steel, polished, natural finish. Fits full-size Government model and Commander. Requires installation of Wilson Bullet Proof hammer, available separately.

CYLINDER & SLIDE 1911 AUTO MIL-SPEC RECOIL SPRING PLUG

Screws Onto Recoil Spring To Prevent
Loss Of Plug During Disassembly

Machined steel recoil plug has mil-spec flange punched into the side so the recoil spring can be wound into the plug before seating in the slide. Prevents the plug from flying off spring during field stripping and getting lost or hitting the operator, possibly causing injury. Precision-turned for proper fit in full-size Government model pistols, with flat, diamond-pattern knurling on the front. If you lose the plug, your gun can't operate, and you're done for the day. Keep one or two of these in your range box or field maintenance kit for backup. **USA**

SPECS: Steel, blued. 1 1/2" (3.8cm) long, .495" (12.6mm) O.D. Fits mil-spec Government model.

EFK FIRE DRAGON 1911 AUTO DUAL ACTION BUFFER SPRING SYSTEM

Softens Felt
Recoil, Tames
Muzzle Rise
& Reduces
Frame Wear

Dual action, captive-spring system cushions the recoil impulse to reduce gun wear and tame muzzle jump for fast follow-up shots and accurate shot placement. Full-length, stainless steel guide rod fully supports the recoil spring through the entire compression/expansion cycle to provide smoother cycling and improved function. A second, fully enclosed spring in the guide rod acts like a car shock absorber to slow slide velocity and reduce frame impact. Prolongs the life of frame and slide without compromising reliability. Available with recoil springs calibrated for Government model in .45 ACP, .38 Super/9mm, and .40 S&W/10mm. Easy, drop-in installation requires no alterations to gun.

SPECS: 416 stainless steel, natural matte finish. Fits full-size Government model with 5" barrel and clones. Instructions included.

EGW 1911 AUTO ONE-PIECE GUIDE ROD

Simple, Robust Design For
Smooth Function & Reliability

Simple, strong, one-piece guide rods provide smooth function and outstanding reliability on competition and carry guns. Machined from solid bar stock without through hole for extra strength and resistance to battering. Additional weight up front improves recoil control, and flat face helps recoil buffers fit securely. Short, **G.I. Style** has rounded front end that resists snagging the recoil spring. Available in Government and Commander sizes in stainless and blued carbon steel. **Full Length** stainless steel rod guards against recoil spring bind for improved feeding and extraction. True, one-piece design with takedown hole has no threads to loosen or wear. Fits Government models with 5" barrels.

SPECS: **G.I. Style** - Carbon steel, blued (**BL**), or stainless, natu-

STI 1911 AUTO RECOIL MASTER

Softens Felt Recoil For Smooth Cycling,
Reliable Feeding & Fast Sight Recovery

Dual-spring, guide rod system gives smooth, gentle slide movement to significantly reduce muzzle flip and felt recoil. Proprietary, tuned springs help control muzzle rise to get you back on target faster. Primary recoil spring absorbs initial slide movement as the secondary spring gently slows and stops the slide. Softens initial chambering impulse to gently strip rounds from magazine. Improves feeding reliability, reduces sensitivity to magazine lip style. **Twin-Pack** contains one light system and one heavy system. Shooter preference and experience will help determine choice of heavy or light system.
SPECS: Steel, blue finish. Fits 5" barrel guns. Includes full length guide rod, main and secondary springs, recoil plug and take down tool. **Light** - Comp guns and 9mm, plus guns with lightened slides require light system. .40/.45 caliber guns, with a loose-fit slide, can use the light system. **Heavy** - New, tightly-fitted guns and .40/.45 caliber use heavy system. Factory recommends not trimming or replacing springs.

WILSON COMBAT 1911 AUTO "GROUP GRIPPER" GUIDE ROD & PLUG

Easy, Drop-In Kit Squeezes Maximum Accuracy
From Standard Barrels

Exclusive Dwyer "Group Gripper" acts like an instant accurizing job for standard or factory barreled guns. Full-length guide rod with heavy, internal spring forces barrel top lugs upward into the slide. Gives maximum lug engagement, positive lockup and far more consistent shot-to-shot repeatability.

SPECS: Stainless steel. Kit includes two-piece, full-length guide rod, guide plug, barrel link and instructions. Available for Govt./Gold Cup (**G/GC**) and Commander (**CM**) length slides.

WILSON COMBAT 1911 AUTO SHOK-BUFF RECOIL SYSTEM

Improves Accuracy, Functioning;
Eliminates Frame Cracking From Recoil

Easy-to-install kit instantly improves cycling, reliability and accuracy without modifying the frame or the slide. Exclusive, injection-molded, polyfiber buffers slip onto the guide rod between the head and spring and keep the slide from hitting the frame. Prevents expensive frame damage and softens the felt recoil of high power competition loads. Full-length guide rod keeps the recoil spring straight for smoother functioning and longer spring life. Together they provide consistent barrel lockup and increased accuracy.

SPECS: Kit includes stainless steel full length guide rod and plug, 6 **Shok-Buff** washers, 1 light recoil spring, 1 heavy recoil spring, 1 extra power firing pin return spring. Fits 1911 Auto models and calibers listed only.

WILSON COMBAT 1911 AUTO SHOK-BUFF RECOIL KIT

Improves Functioning Reduces
Recoil Sharpness & Frame Battering

Balanced kit comes with two buffers and one steel recoil spring to help reduce frame cracking and battering. Buffers should be replaced every 1,000 rounds, and spring should be replaced every 2,000 rounds. When buffers are gone, replace the spring – an easy way to remember to replace the spring.

SPECS: Steel spring, plastic buffers. Fits Govt. model only.

#965-002-001DH SHOK-BUFF Recoil Kit,
5F05C95 \$ 6.95

BUFFERTECHNOLOGIES 1911 AUTO RECOIL BUFFER™

Softens Felt Recoil, Stops Frame Battering

Polyurethane spacer fits on the recoil spring guide to cushion slide impact against the frame. Gently slows the slide; helps prevent the constant frame battering that causes premature wear or cracking. Extends the service life of competition and carry pistols. Softens felt recoil, reduces muzzle rise for faster follow-up shots. Change every 1000 rounds for best results.

SPECS: Polyurethane, gray. 1 per pack. **1911 Auto**, polyurethane, yellow. 8 per pack.

#071-000-005DH 1911 Auto Recoil Buffer
1G06X97 \$ 9.95

CP BULLETS 1911 AUTO SUPERTUFF RECOIL BUFFERS

Eliminates Frame Damage From Recoil

Prevents the slide from contacting the frame and causing serious damage during recoil. An absolute must for any shooter using major power factor ammunition in their 1911 Auto. Long-wearing, hard, nylon washers absorb the shock but won't flatten out and cause cycling problems as they begin to wear. Fits easily over full length or short, factory guide rods. Replace every 1,000 rounds for best results.

SPECS: Hard nylon. Fits 1911 Auto only. 5 per pak.

#169-001-000DH CP Super Tuff Recoil Buffers,
9F03C91 \$ 6.95

ED BROWN 1911 AUTO SLIDE BUFFERS

Prevent Slide-To-Frame
Contact & Damage

Eliminates frame damage caused by slide/frame battering during the recoil cycle. A single, extra-defense, polyurethane; completely prevents the slide from contacting the frame. Precisely molded so they won't drag on the frame and cause malfunctions. For best results, change every 1,000 rounds.

buffer fits between the guide rod head and the recoil spring; **SPECS:** Polyurethane. Fits 1911 Auto only. 6 per pak.

#087-805-006DH Slide Buffers
7H05D06 \$ 6.33

WILSON COMBAT 1911 AUTO SHOK-BUFFS®

Softens The Blow Of Recoil;
Helps Prevent Frame Damage

Prevents expensive frame damage when shooting high-pressure, major power factor loads. Replaceable, poly-fiber washer installs behind the recoil spring on any length guide rod. The shock absorbing action stops the slide from battering the frame. Injection molded for the optimum balance between shock absorption and longevity. Replace every 1,000 rounds.

SPECS: Poly-fiber, blue. 6 Shok-Buffs per pak. Not for use in Officer's ACP Models.

BLUE FORCE GEAR 1911 AUTO VICKERS IGNITION COMPONENTS

High-Grade,
Precision-Fit
Parts For An
Ultra-Smooth
Trigger Pull &
Crisp Letoff

High-performance ignition parts deliver an

ultra-smooth trigger pull and a crisp, clean letoff without sacrificing reliability. Larry Vickers, noted American Pistolsmiths Guild member and retired 20-year veteran of the U.S. Army Special Forces, designed each component with improved geometry to provide a precise, reliable trigger job with minimal fitting. All parts are wire-EDM cut to exacting tolerances from hardened tool steel, with hand-polished sear engagement hooks, precision-milled pin holes, beveled no-sag edges, and a mirror polished surface for ultra-smooth operation. Available as complete kits with either classic Commander-type ring hammer or slotted style with a large, elongated relief hole, plus Larry's Tactical Sear and Disconnector. Hammers, sear, and disconnector also available separately.

SPECS: Hardened tool steel, in-the-white. Some fitting required. Gunsmith installation recommended.

CYLINDER & SLIDE 1911 AUTO SAFETY FAST SHOOTING SYSTEM

Get Your Pistol Into Action
Faster Without
Compromising Safety

Easy-to-install kit replaces some of your 1911's fire control components to allow cocked-and-locked Condition 1 carry with the hammer lowered. Makes pistol function like a decocker-equipped double-action pistol without altering single-action function, trigger pull, reliability, or speed from draw to first shot. Two-part hammer system leaves an internal hammer cocked while the traditional-looking external hammer rests in the "down" position. Reduces risk of hammer snagging on clothing when drawing from concealment, and eliminates visual distraction for bystanders caused by a "dangerous"-looking cocked weapon carried by uniformed law enforcement officers or other personnel authorized for visible carry. Minimal retraining required; weapon deployment from holster is the same as a non-SFS 1911. To operate SFS, insert a loaded magazine and rack the slide. Then push the hammer forward toward the traditional hammer down position. The ambi safety levers will pop up into "safe" position. The gun is completely safe. Slide is locked closed, trigger will not depress, internal hammer is physically blocked from reaching the firing pin, and the external hammer cannot be pulled back. Grip safety and passive Series 80 firing pin block (if your pistol has one) function normally. To shoot, simply depress the thumb safety, and the external hammer springs back to the visibly cocked position, ready to fire. If a live round remains in the chamber after shooting, the slide must be released and hammer pressed forward to

CYLINDER & SLIDE 1911 AUTO 1911 AUTO TRIGGER PULL KIT

Match Quality
Trigger Pull
In A Drop-In Kit

Kits are tested on a Series 70-style frame to make certain they will produce the specified pull weight with little or no fitting. Parts are wire EDM cut from bar stock, honed and polished, then heat

treated for years of service life. All profiles and through-holes are mechanically correct to function without hand fitting. Sear nose has correct relief angle, sear spring is narrowed to reduce pull weight. Each kit contains a hammer, sear, disconnector, sear spring and hammer spring. Professional kit has 5 lb. of pull weight and is designed for military and police shooters. Gives complete trigger control in high-stress situations.

SPECS: Billet alloy steel, in-the-white. Hammer, Rc 50-54, .5 oz. (14.1 g) weight. Sear, 2 oz. (5.6 g) weight. Disconnector, 2 oz. (5.6 g) weight. 23 lb. hammer spring, tactical sear spring included.

CLYINDER & SLIDE 1911 AUTO 3-PIECE DROP-IN TRIGGER PULL SET

Available In
Two Configurations
To Fit Your
Specific Shooting Needs

Commander-style hammer, Tactical sear, and Ultra Match disconnector drop-in to deliver reliable ignition and improved trigger function on any 1911 auto. Each component is precision EDM cut to ±.0005" tolerances from Cylinder & Slide's Special Tool Steel. All parts are honed and polished, then heat-treated to Rc 50-53 for long service life. **Tactical II Set** features the popular Tactical II chamfered hammer in-the-white with standard .018" long hammer hooks for a match-grade trigger pull. **MARSOC Set** includes a blued Tactical II-style hammer with longer .023" hammer hooks for added sear engagement and maximum reliability. Used in the U.S. Marine Corps MARSOC service pistols. Added material on the hooks allows fitting by the pistolsmith to achieve a truly custom trigger pull.

SPECS: Special billet alloy steel. Hardened to Rc 50-53. Includes hammer, sear, and disconnector. **Tactical II** – All parts in-the-white. .018" long hammer hooks. **MARSOC** – Hammer blued, disconnector and sear in-the-white. .023" long hammer hooks.

CYLINDER & SLIDE 1911 AUTO TRIGGER PULL KIT

Match Quality Trigger Pull In A Drop-In Kit

Each kit is tested on a Series 70-style frame to make certain it will produce the specified pull weight with little or no fitting. Parts are wire EDM cut from bar stock, honed and polished, then heat treated for years of service life. All profiles and through-holes are mechanically correct to function without hand fitting. Sear nose has correct relief angle, sear spring is narrowed to reduce pull weight. Exposed hammer edges on Ultra-Light, Super Match and Tactical II are chamfered to minimize slide drag and clothing wear. Each kit contains a hammer, sear, disconnect, sear spring and hammer spring. **ULTRA LIGHT KIT** - 3.5 lb. pull weight. Ultra light, skeletonized, hammer; relieved to prevent frame rub. Ultra light match sear and disconnect. Lightened sear spring, 18 lb. hammer spring. **ULTRA LIGHT SPEED II KIT** - 3 lb. pull weight. Low-profile, skeletonized hammer relieved to prevent frame rub; ultra-light weight cuts lock time to a minimum. Deep, crisp serrations ensure secure thumb contact for fast, positive cocking. Properly matched spring weights give the specified pull weight and ensure positive ignition. **SUPER MATCH KIT** - 3.5 lb. pull weight. Ultra match, lightened hammer. Relieved to prevent frame rub. Ultra light match sear and disconnect. Light pull sear spring, 18 lb. hammer spring. **TACTICAL II KIT** - 4 lb. pull weight. Tactical II hammer with relieved sides, ultra match sear and disconnect; light sear spring, 18 lb. hammer spring. **TACTICAL MATCH KIT** - 4.5 lb. pull weight. Tactical hammer, sear, disconnect, light pull sear spring, 18 lb. hammer spring. Great for carry guns. **WARP SPEED KIT** - 3 lb. pull weight. Very low mass hammer, relieved to prevent frame rub. Low mass sear and disconnect, 18 lb. hammer spring, light pull sear spring. **DUTY/CARRY KIT** - 4½ lb. pull weight for duty or carry pistols. Comes with classic, military-style spur hammer, for those who prefer that style or are required to have it on duty weapons. Includes sear, disconnect, 23 lb. hammer spring, and sear spring. **PROFESSIONAL KIT** - 5 lb. of pull weight and is designed for military and police shooters. Gives complete trigger control in high-stress situations. Contains hammer, sear, disconnect, 23 lb. hammer spring and tactical sear spring.

EMC 1911 AUTO HAMMERS

Precision-Machined, Hardened Steel For Durability; Gives Pistol A Distinctive Look

Distinctive-looking, U.S.-made hammers are precision-machined from solid steel to ensure this critical ignition component is as reliable as it is attractive. Available in blued, high-carbon tool steel or stainless, both heat-treated to Rc 46-52 for exceptional strength and wear-resistance. Deep, crisply cut serrations on the thumb pad ensure a secure, non-slip purchase during cocking. Available in stainless or two-tone blued tool steel with sides left in-the-white. **Web model** provides much of the weight-reduction and reduced lock time of a skeletonized hammer, with a checkered, reinforcing web that adds extra rigidity and gives your pistol a unique appearance. **Ring model** is a well-executed copy of the original Colt Commander hammer, machined from high-grade stainless steel. **Wide Spur** model is machined to dimensions close to original National Bureau of Standards specifications and gives your pistol the look of an early production military 1911. Top of spur is checkered for a positive grip and sides are tapered for proper clearance. 

SPECS: High-carbon tool steel, blued, or stainless steel, natural finish. Gunsmith installation recommended. *Wide Spur* - Pad: ¾" (9.5mm) wide x ¾" (19mm) long.

HARRISON DESIGN 1911 AUTO EXTREME SERVICE IGNITION COMPONENTS

Hardened Tool Steel Components For Durability, Reliability & Precise Fit

Critical ignition parts are machined from high-grade tool steel for precise fit and reliable, consistent function under the most demanding operating conditions. 

Each component is wire-EDM cut, CNC machined and honed to final dimensions with +/- .005" tolerances for drop-in fit on many 1911s, then heat-treated to Rc 53-56 to maintain those dimensions through thousands of firing cycles. Hammer hooks are pre-prepped and sear nose polished for precise contact and crisp, clean letoff. **Commander-style** hammer has elongated spur with deep serrations to provide extra-secure thumb purchase. Beveled edges resist snagging on clothing and protect the thumb from abrasion, and slightly narrower hammer body prevents unwanted slide contact. **Set** includes hammer, sear, and disconnect. Each component also available separately. 
SPECS: Hardened tool steel, in-the-white. Hardened to Rc 53-56. Some fitting may be required.

All products marked with this symbol have passed a rigorous test of function and quality, and have been awarded the American Pistolsmiths Guild "Seal of Approval."

WILSON COMBAT 1911 AUTO BULLET PROOF® HAMMERS

**"Skeletonized" Design, Low-Profile,
Long-Wearing Steel**

Skeletonized hammer offers a snag-resistant holster profile, with the last bit of extra weight stripped away for fast lock time to help improve accuracy. Machined from bullet steel and heat-hardened to Rc 48-52 for superior strength and

long life. Sear engagement hooks pre-cut to .020" height and ground; ready to polish. Rebated width on half-cock prevents sear nose damage. Combat-style spur is serrated for fast, easy thumb grip. Narrowed body can't interfere with slide travel. **Ultralight** hammer is available in matte finish stainless or ultra-hard S7 tool steel, matte blued, with advanced RMS 8 silver finish on spur sides for a unique two-tone appearance. **Concealment** model has an even lower spur profile that makes it ideal for all-day concealed carry; stainless only.

SPECS: Stainless steel (**SS**) or S7 steel, blued/RMS 8 finish. Heat treated to Rc 48-52. Fits Series 70/80 type 1911s with a Wilson/Clark compound radius on the frame. Gunsmith fitting required.

WILSON COMBAT 1911 AUTO VALUE LINE HAMMER & SEAR

**Reliable Performance;
Affordable Price**

Ready to install, fully finished parts give a crisp, clean trigger pull. All engagement surfaces are correctly ground for positive hammer/sear engagement. Hammer has low-mass oval cut spur that reduces lock time. Narrowed sides improve function by reducing drag. Sear primary angle is cut; just polish it and stone the relief angle for a super clean breaking trigger.

SPECS: MIM 4340 steel, Rc 47-52. Matte black finish.

WILSON COMBAT 1911 AUTO DELUXE COMMANDER HAMMER

**Light, Narrowed;
Full-Width, Half-Cock Notch**

Grooved, fully relieved and lightened spur gives positive, no-slip thumb grip. Gold Cup-style, repositioned hammer strut hole reduces full cock spring pressure for a crisp, lighter feeling trigger pull. Hammer hooks are precision ground to .020", squared, ready for light stoning/ final polish. Narrowed half-cock notch prevents sear nose damage.

SPECS: EDM from carbon steel, bar stock. Fits Series 70 and 80. Gunsmithing required.

#965-299-001DH Commander Hammer, 5F40Z85 ... \$ 47.95

POWER CUSTOM 1911 AUTO HAMMER, SEAR & GRIP SAFETY SHIMS

**Eliminates Unwanted "Play" For A
Smooth, Consistent Trigger Pull**

Insert these precision-manufactured shims between the frame and the fire control parts on your 1911 Auto for a smoother, more consistent-feeling trigger pull without replacing components. Removes unwanted side-to-side movement and provides a quick fix for out-of-tolerance hammers, sears, grip safeties, and frames. Machined from stainless steel, fully hardened and tempered for long wear. Sold in 10 packs.

SPECS: Machined stainless steel, silver finish. .002" (.0051mm) thick. Fits Colt 1911 Auto and clones.

ED BROWN 1911 AUTO PERFECTION DISCONNECTOR

Precise Fit, Perfect Functioning In 1911 Triggers

Designed to work with Ed Brown's Perfection Sear and Hardcore Hammer for crisp, high performance trigger jobs. Heat treated for super durability in rugged service. All machined surfaces are finished and dimensionally precise to ensure perfect fit and smooth functioning. Gunsmith installation required. 

SPECS: Steel, blued. Fits all 1911 pistols including hi-capacity models.

#087-000-040DH Perfection Disconnector 7H16P96. \$ 21.20

INFINITY 1911 AUTO TRI-GLIDE DISCONNECTOR

Reduced Mass & Friction,
Improves Trigger Performance

Reduced weight resets faster on guns with very light trigger pulls. Low friction head has reduced bearing area, gives trigger a smooth feel with a crisp, clean break. CNC machined from bar stock for greater strength. 

SPECS: 4140 steel, blue.

#823-109-000DH Tri-Glide Disconnector, 3B32H11. \$ 40.13

NIGHTHAWK CUSTOM 1911 AUTO BAR STOCK DISCONNECTOR

Polished Engagement Surfaces
For A Precise, Clean-Breaking Trigger

Match grade replacement for your pistol's factory disconnector has precision ground engagement surfaces to ensure a crisp trigger without creep or mushiness. Fully machined from solid steel bar stock, then hardened to maintain precise dimensions and finished with Nighthawk's proprietary Perma Kote™ process before final polishing of slide notch and sear spring contact surfaces. 

SPECS: Hardened steel, blued. Gunsmith fitting required.

#100-003-261DH Bar Stock Disconnector 2B16T46. \$ 19.99

NOWLIN MFG. 1911 AUTO PRO IMPROVED DISCONNECTOR

Pre-Fit & Polished For Smooth,
Dependable Function

Slide notch and sear spring surface are fully-polished after hardening to maintain the correct overall length; no further fitting required. Nowlin's exclusive, long-wearing, fully-machined, hardened disconnector made even better with pre-polished engagement surfaces for achieving that "breaking-glass" trigger pull so sought after by experienced shooters. Drops right in to any 1911 Auto for improved function or make it a part of your next trigger job. 

SPECS: 4140 steel, blue, matte-finish. 1.3" (3.3cm) long.

#654-000-048DH Pro Improved Disconnector, 4E17P81. \$ 22.27

STI 1911 AUTO DISCONNECTOR

Precisely Dimensioned
For A Smooth, Reliable Trigger Pull

A malfunctioning disconnector can cause your 1911 to unexpectedly double or even go full auto, risking your safety and those of others around you. Replace a worn or damaged disconnector with this replacement precision formed from exceptionally strong FN 0205 nickel-steel alloy. Heat-treated to Rc 61 to resist surface wear, and given a tough, long-lasting black oxide finish. Factory original part for STI pistols; will also fit most other 1911s. Gunsmith fitting may be required. 

SPECS: Steel, blued. 1.304" (33.1mm) OAL. Fits all 1911 pistols.

#791-000-072DH STI 1911 Disconnector 1G12X29. \$ 15.37

WILSON COMBAT 1911 AUTO BULLET PROOF® DISCONNECTOR

Machined To Tight Specs &
Polished For Smooth Trigger Pull

Designed to meet or exceed factory specifications, with lapped and polished engagement surfaces to reduce friction for a smooth, clean trigger pull. CNC machined from solid billet steel and heat-treated for hardness to help ensure precise contact between critical parts. For building custom pistols or just getting a good pistol back to original specs. Gunsmith installation recommended. 

SPECS: 1045 carbon steel, in-the-white.

Durable, Steel Construction; Unique Texturing For A Secure Grip

Flat mainspring housing is fully machined from steel bar stock for exceptional strength, with a uniquely textured surface that provides a superb, non-slip grip. A combination of horizontal serrations on the outer edges, plus deep 20 lpi vertical serrations in the center with shallower 20 lpi cross-cuts, gives you a solid purchase while minimizing the risk of snagging on clothing during concealed carry. Matte blued finish matches many tactical pistol finishes. **USA**

SPECS: Steel, matte blued finish. Fits full-size Government model. **#100-004-691DH Mainspring Housing 2Z31U82 \$ 39.99**

EMC 1911 AUTO MAINSRING HOUSING

Flat Contour With Vertical Grooves For Ease Of Concealed Carry

Simple and effective mainspring housing design benefits both the competition shooter, as well as those who carry a Government or Commander model for personal protection. Features a flat, low-profile contour to help minimize "printing," while maintaining the extra-secure "feel" you get when the frame sets lower in your grip. Deep, smooth, vertical grooves help reduce lint collection during daily carry, plus won't catch on clothing and slow down your draw. Cleanly machined inner surfaces ensure free movement of the mainspring and plunger (not included). Available in matte blue or natural stainless finishes. Gunsmith installation recommended.

SPECS: Steel, blued, matte finish, or natural stainless steel (SS), matte finish. Fits Govt./Commander 1911 Auto.

#100-004-488DH Mainspring Housing, Blue, 7A17D78	\$ 22.49
#100-004-489DH Mainspring Housing, SS 7A17D78	\$ 22.49

ED BROWN 1911 AUTO BOBTAIL MAINSRING HOUSING

Reduced Bulk For Concealed Carry Guns

Eliminates the sharp profile at the rear of the grip that can "print" when carrying a concealed 1911 Auto. Reduces bulk without reducing magazine capacity or performance. Removes nearly 1/2" of material from the butt while maintaining correct grip position. Also requires modification of grip panels. Choose from **Smooth, Checkered** (25 lpi), **Snakeskin**, or **Chainlink** patterns. **Installation Jig** gives precise location of mainspring hole. **USA**

SPECS: Steel, blued (Blue), or stainless (SS). Mainspring Housing (MH). Installation Jig includes instructions.

LES BAER CUSTOM 1911 AUTO MAINSRING HOUSING

Machined After Casting For A Tight, Wobble-Free Fit

Puts an end to the unsightly gap between the mainspring housing and the frame. These are the same flat, serrated housings Les uses on his own custom 1911 Auto pistols. Cast oversized, then finish machined for a tight, gap-free fit on all commercially-available 1911 Auto frames. **USA**

SPECS: Steel, blued or stainless steel (SS), matte finish. **#124-153-100DH Blue Mainspring Housing, 4B30P67 \$ 38.35**

#124-153-101DH SS Mainspring Housing, 4B30P67	\$ 38.35
---	----------

ED BROWN 1911 AUTO MAINSRING HOUSING

Traditional Shapes, Plus Different Surfaces Let Every Shooter Get Their Favorite Grip Feel

Classic and contemporary looking mainspring housings combine form and function, so there is no compromise in grip control even though they look great. Flat shaped housings are available with popular **25 lpi** checkering preferred by many shooters, as well as the latest **Snakeskin** and **Chainlink** patterns that provide a secure gripping surface without the "sharpness" of machine cut checkering. Because they won't abrade your hand or clothing, they make the perfect addition to competition, carry, and tactical guns. Chainlink model also available with integral lanyard loop for attaching a weapon retention device. Traditional, **Arched** housing rides high in the heel of the hand to keep it close to the bore for minimal muzzle rise and excellent recoil control, and is available with a **Grooved** surface to provide a firm grip with little drag on clothing. **Blank** models are completely smooth to allow custom checkering or engraving, and are available with flat shape only. **USA**

SPECS: Steel, blued or stainless steel (SS) natural finish. Fits Govt./Comm./Para-Ordnance P14, P15, P16.

NIGHTHAWK CUSTOM 1911 AUTO MAINSRING HOUSINGS

Fully
Checkered
For A Firm,
Nonslip Grip

Get a solid grip on your Govt. or Officers Model with the crisp, clean 25 lpi machine-cut checkering on these all-steel mainspring housings. Helps improved accuracy by keeping the pistol correctly positioned in the shooting hand for a consistent hold and improves recoil control. Great for combat or competition pistols. **Flat (FL)** model offers a clean, low profile that lets you get a good, solid grip. **Arched (AR)** has the bump or rounded swell toward the bottom of the housing that aids in maintaining a higher grip. **Magwell (MW)** model combines the flat housing with a separate, enlarged magazine well that helps speed magazine changes. Magwell removes easily for carry or other times when a low profile is required. Ball bearing detent eliminates play for solid contact between magwell and housing. **SPECS:** Steel, blued, matte finish.

SMITH & ALEXANDER 1911 AUTO LANYARD LOOP MAINSRING HOUSING

Provides Additional Weapon
Security & Retention

Military-type lanyard loop gives extra security, and peace of mind, that your handgun will not be accidentally dropped or lost during extreme tactical situations. Excellent for use in military re-enactments or anytime the handgun must be secured to your body or equipment. Checkered models feature non-slip, 20 LPI checkering; improves grasp and helps counter the effects of recoil. **SPECS:** Steel, blue finish. Fits 1911 Auto.

VZ GRIPS 1911 AUTO LIGHTWEIGHT MAINSRING HOUSING

Shaves Weight For A Fast Handling,
Easy-To-Carry Pistol

Flat mainspring housing machined from 6082-T6 aluminum helps achieve maximum weight reduction for shooters who want the advantages of a light, custom carry or competition gun. Weighs only 17 grams – over 2 1/2 times lighter than similar flat housings made of steel. **Checkered** model is bead-blasted, then treated with a proprietary, black or silver hardcoat anodized finish that's denser and more abrasion-resistant than traditional sulfuric anodizing; 20 lpi checkering improves grip and is less prone to snagging on clothing than extra-fine line patterns. **Plain** model is smooth without anodizing to allow custom checkering and finishing by the gunsmith. **SPECS:** 6082-T6 aluminum, **Checkered** - hardcoat anodized, matte Black or Silver. **Plain** - in-the-white, unanodized. **Govt** - Fits Government and Commander models. **Off** - Fits Officers model.

ED BROWN 1911 AUTO DROP-IN MAXI-WELL

Easier, Faster Reloads;
Improves The Grip;
No Gunsmithing Required

Drops right onto 1911 Auto frames without gunsmithing, and the separate magazine well can be removed without disassembling the pistol. Enlarged magwell greatly increases frame opening for faster and easier magazine changes. Flat housing increases grip surface area to help keep the pistol from riding up during rapid fire. Available in blue or stainless steel with 25 lpi machined checkering that helps keep the pistol centered in your grip. Also available with the exclusive **Snakeskin** and **Chainlink** designs. Both machined-in patterns provide a very secure, non-slip gripping surface, without the "sharpness" of conventional checkering that can sometimes abrade your hand or grab at your clothing during a concealed carry draw. **SPECS:** Steel, blued (BL) or stainless steel (SS). Available with 25 lpi checkering or with snakeskin or chainlink patterns. Fits Government or Commander length frames.

SMITH & ALEXANDER MAG GUIDE

Extra-Wide Opening For Fast Reloads; No Alterations To Frame

Drop-in, one-piece mag well and mainspring housing makes the mag well opening 100% bigger for easier magazine insertion and faster, "can't-miss" mag changes. Increases grip length by 1/4" for additional leverage and greater recoil control. **Checked** models feature extra-defined, 20 lpi checkering on the mainspring housing for a no-slip, no-shift grip. **Smooth** models have unchecked mainspring housing. **Grooved** model has full-length vertical grooves on the mainspring housing.

SPECS: Steel. Available in **blued (BL)** or **stainless steel (SS)** with flat (**FL**) or arched (**AR**) mainspring housing to fit: 1911 Govt./Commander (**GM**); Officers Model (**OM**); Para-Ordnance P-14/P-16 (**PO**). Para-Ordnance models require minor modification of frame with hand tools; instructions included.

STAN CHEN CUSTOMS 1911 AUTO MAGWELL/MAINSRING HOUSING KITS

Easier, Faster Reloads & Improved Grip

Matched magazine well and mainspring housing aid in fast, positive mag changes without adding bulk. Cutout on the front of the magwell speeds removal of stuck mags. Arched mainspring housing lets the web of the hand rest comfortably on the grip safety without pinching, and the smooth surface won't snag clothing or holster. Machined from chrome-moly or stainless steel bar stock, and heat treated to Rc 28-32 for extra strength. BevelBlock™ mainspring housing has an angled rear bevel for a gap-free fit with the magwell. Kits available in easy-to-install **Bolt-On** configuration or, for an even more streamlined installation, a **Weld/Solder** model. Installation requires machining the pistol frame and minor modification to standard grip panels. **MaxBevel** mainspring housing provides a longer magwell opening for easy reloading without adding bulk. Extra metal at the rear bevel allows shaping to a seamless fit in the factory magwell. Helps the shooter hit the "sweet spot" at the rear of the magwell during combat reloads.

SPECS: Chrome-moly steel, in-the-white (**CM**), or stainless steel (**SS**), natural finish, matte. Fits all single-stack 1911 Government and Commander pistols. Includes instructions. Gunsmith installation recommended.

HOGUE 1911 AUTO EXTREME SERIES MAGRIP KIT

Integral Magwell Ensures Fast, Fumble-Free Reloads Without Adding Bulk Or Extra Weight

Three-piece kit, machined from aerospace grade aluminum, installs without fitting to form an integrated magwell with no added bulk and minimal weight increase. Bottom of each grip panel features an integral 1/8" extension that tapers up and inward at the frame's magazine well opening; a specially cut, custom mainspring housing completes the contours to form an integrated magwell. Sharp, precision-cut checkering on the grips and housing provide a positive gripping surface. Eliminates the bulk and excessive weight of oversized magazine wells used in competition, yet enlarges the surrounding magazine well opening enough to speed magazine changes in high-stress situations. An extremely low profile makes this system especially adaptable to carry guns. Models for Government/Commander and Officers frames, available with **Flat** or **Arched** mainspring housing.

SPECS: High-grade aluminum alloy, black, matte finish. Grips - 1/4" (6.4mm) thick. Weight (Grips & Housing) - 3 oz. (85g). Includes (2) grip panels with mainspring housing. Fits 1911 Auto Government and Commander.

TECHWELL USA 1911 AUTO EXTENDED MAGWELL/GRIP KITS

Lightning-Fast Mag Changes; Drop-In Installation; No Permanent Alterations To Pistol

Rugged, machined aluminum components enhance shooter's grip and aid in fast, positive magazine changes for an edge in competition or combat. IDPA- and USPSA-legal extended magwell helps guide the magazine for fumble-free changes when seconds count, and requires no permanent alterations to pistol frame. Full-length grips provide secure retention of the magwell, yet allow return of pistol to stock configuration simply by reinstalling the original grips. Grips have precision-cut 16 lpi full-surface checkering to help you maintain a firm hold even in the heat of competition. Excess metal is machined away from the panel interior to reduce weight without sacrificing strength. Cut for ambi safeties; panels conceal the mainspring housing pin. All models are designed to let the gun fit in the USPSA/IDPA "Box"; pistols with oversized frames or unusually high sights may need a small amount of material removed from the magwell or magazine base pad. **SP** - Designed for use with 8-round magazines with standard or extended base pads and 10-round magazines. **Carry** - Highly versatile, designed for carry or competition, with smoothly flowing exterior contours to minimize bulk and risk of snagging on clothing during the draw. Accepts same magazines as SP. **XT** - Wide, smooth opening gives the competitor maximum advantage in making fast mag changes with 10-round or extended-pad 8-round magazines. Used by USPSA champion Rob Leatham in 2007 Limited 10 National Championship. **TGO** - Designed by Rob Leatham with a wide, streamlined magwell opening that's nearly impossible to miss in competition, with a cutout at the front for fast access to clear stuck magazines. Used by Leatham to help him win back-to-back USPSA Single Stack Nationals in 2008 and 2009. Accepts 8-round magazines with standard or extended base pad, and extra-capacity 10-round magazines.

10-8 PERFORMANCE 1911 AUTO EXTENDED MAGAZINE CATCH

Fast, Positive Release Without Extra Bulk

Drop-in replacement for factory magazine catch has a unique, convex button surface to ensure positive finger contact for fast magazine changes under pressure. Crisp, 30 lpi serrations further aid in fumble-free engagement; .045" longer than factory part for extra leverage without creating an unwanted protrusion that snags on clothing, holster, or other gear. Tumbled and bead-blasted for a uniform, matte finish with rounded "dehorned" edges. Interior of the catch is relieved to enable instant magazine free-fall when you hit the button. Available in **Carbon Steel (CS)** with black manganese phosphate finish or natural finish **Stainless Steel (SS)**.

SPECS: Carbon steel, black, or stainless steel, natural silver, both matte finish. Gunsmith fitting may be required.

EGW 1911 AUTO HEAVY DUTY MAGAZINE CATCH

Extended Button & Tweaked Geometry For Extra-Secure Mag Retention

Tactical magazine catch aids in fast mag changes and secure retention to help reduce feed-related failures. Redesigned geometry ensures this catch will fit standard frame holes, while it retains a loose-fitting magazine higher in the magwell than the original catch for more reliable feeding, especially with hollow point ammo. The finely checkered, extended button is .040" higher than the original 1911A1 factory button to ensure fast positive magazine release on the first try. Precision machined on a state-of-the-art, four-axis CNC cutting station from high-grade steel barstock to ensure exact dimensions and superb strength. Available in satin blued carbon steel or natural-finish stainless for extra corrosion resistance.

SPECS: Carbon steel, blued, or stainless steel, natural finish. Includes magazine catch only, no lock or spring.

#296-000-127DH **HD Magazine Catch**, Blued, 6B26Y00 \$ 34.95 #296-000-128DH **HD Magazine Catch**, Stainless, 6B26Y00 34.95

HEX-HEAD MAG CATCH LOCK - Hex head accepts a 1/16" Allen wrench for better control during installation and to help eliminate damage caused by screwdriver slippage. Ideal for use with EGW Heavy Duty Magazine Catch. Choose **Blued** carbon steel or natural-finish **Stainless** steel. Both are heat treated for extra strength, smooth performance, and durability.

SPECS: 4140 carbon steel, blued, or 17-4 stainless steel, natural silver finish. .503" (12.7 cm) long. Installs with 1/16" Allen wrench.

CLYINDER & SLIDE 1911 AUTO MAGAZINE CATCH LOCK

Replaces This
Commonly Marred Part
So Pistol Looks New Again

A small, but never overlooked part on any 1911 pistol. Restores the look and function of the magazine release after years of field stripping has caused unsightly damage to the screw slot. A must-have part whenever installing a new magazine catch that does not include this critical part. Machined from hardened steel, then polished for smooth function, and given a hot blue finish. 

SPECS: Hardened steel, blue. .512" (1.3 cm) long.

ED BROWN 1911 AUTO MAGAZINE

Precision Engineered With Premium Materials
For Exceptional Reliability

Premium-quality magazine is engineered and manufactured to the highest standards to deliver outstanding reliability and smoothness in competition or combat. Virtually seamless body of heat-treated stainless steel and rounded, self-leveling all-steel follower and heavy duty spring further enhance reliability. **7-Round** - Has six witness holes, natural matte gray finish, and extended bumper pad that protects magazine if dropped on a hard surface and increases overall length to ensure positive seating. **8-Round** - Full-featured, "8-Pack"™ model has extended body designed to provide sufficient room for the extra round and maintain proper spring compression. Seven witness holes, with extra-large, easy-to-see round count numbers are crisply laser etched on both sides. Hydro-finish process gives body and follower an extra-slick surface that repels dirt, dust, and burned powder to eliminate unnecessary friction against the follower for consistent feeding and easier seating in magwell. Flared bumper pad of tough, impact-absorbing polymer gives a secure grip during mag changes and protects the magazine when dropped. "88" number template—like numbers on a digital clock—on the bottom of the pad lets you create any number from 00 to 99 with a dab of paint to track usage history of individual magazines. Depress the large, easy-to-operate release button to remove the pad for cleaning. 

INFINITY MAGAZINE COMPONENTS

Replacement Tube Gives Original Capacity

TIG welded, stainless steel, flat-panel wall design gives long-wearing durability. Replacement tube allows you to repair or refurbish an existing .38/9mm high-capacity magazine. Base pad, spring and follower not included. *It is a violation of the law in some states to use replacement tubes to assemble a new, high-cap magazine.*

METALFORM MAGAZINE

Traditional & Increased-Capacity Magazines
For 1911 Colts & Copies

Robust, high-quality U.S. made magazines in blue carbon steel and stainless steel for 1911 Auto pistols chambered in a variety of calibers. Choose from round or flat steel followers, both designed to give positive last-round feeding with all bullet types, including wadcutters. Safety orange nylon follower is concave to hold an additional round. Three floorplate configurations available: **Welded** - Flat, steel plate permanently welded to magazine body, with screw holes to accept Metalform Bumper Pads (available below). **Removable** - Steel plate detaches for easy internal 

cleaning of mag; also accepts Bumper Pads. **Ultramag** - Removable base pad of tough Delrin™ polymer is contoured for a neat, flush fit in extended magwells. **.40 S&W/Govt. 10-Round** meets the 140mm, practical-shooting regulations. 

SPECS: Blue carbon steel or natural-finish stainless steel (Stnls). Approximately 5" (12.7cm) long. **.40 S&W/Govt. 10-Round Mag - 5.4" (136mm)** meets 140mm practical shooting regulations. Followers - Stainless steel, natural silver or black finish, flat or round contour. Some magazines have concave safety orange nylon follower.

METALFORM 1911 AUTO ELITE 8 MAGAZINE

Smooth-Running, Premium Fit & Finish,
Plus An Extra Round With No Added Bulk

Superb fit and finish ensure exceptionally smooth feeding and outstanding reliability. Full 8-round capacity in the same size package as a standard 7-round magazine. Heat-treated stainless steel body has an ultra-smooth weld seam and micro-polished interior to guarantee reliable, no-drag follower movement. Curved, non-tilt stainless steel follower and extra-power Wolffspring work together to ensure fast, positive feeding of all bullet types, including wadcutters. Tough, Delrin™ base pad removes easily for cleaning and is contoured for a neat, snug fit in the mag well. Witness holes with high-visibility stamped and painted numbers give instant verification of round count. Available in a polished or non-reflective Hydro-Matte natural silver finish, or non-scratch IonBond® black. Includes nylon magazine pouch with flap closure and belt loops. 

SPECS: Stainless steel, natural silver or IonBond black finish. Black Delrin base pad, 8-rd capacity. Fits .45 ACP 1911 Auto only.

ASK ABOUT **OVERNIGHT** DELIVERY!

Kits McCORMICK 1911 AUTO POWER MAGAZINE

Premium, No-Fail Features
Plus Additional Rounds

Built to the very highest standards for the no-fail performance competitive and self-defense shooters demand. Feed lips are roll-formed and polished, not die cut, for added strength, and Chip's proprietary follower design provides flawless feeding with semi-wadcutters and hollow points. Powerful spring of proprietary, heat-treated Rocket Wire further ensures reliable feeding, even when left fully loaded and seated in a pistol for extended periods. Removable plastic base pad with full, front-to-back engagement, is built to withstand continual use, and numbered witness holes on both sides of the body provide a fast, visible round count. Available in 8-round capacity with slightly extended base pad that adds about 1/4" to magazine length; long-body 10-round model has base pad that wraps around exposed portion of magazine that extends beyond mag well. **Power Plus** models have an advanced anti-tilt follower for even more stable support of the round stack—extra insurance that every round feeds, first to last. Replacement **Power Mag Followers** (standard model only) and **Springs** available. 

SPECS: Stainless steel body and follower, plastic base pad. Available in 8- and 10-round capacities. Fits .45 ACP 1911 Auto single stack only.

#207-000-016DH Concealment Base Pad 7B03U96 . . . 4.99

MAGAZINES THAT WON'T HOLD ADVERTISED NUMBER OF ROUNDS

New magazines, and/or magazines with new springs, may not let you load them with the maximum number of rounds they should hold. Here's the solution: load them up with the maximum number of rounds you can and let them set for a few days. The new spring will take its normal "set" and allow the rest of the rounds to be loaded.

NIGHTHAWK CUSTOM 1911 AUTO STAINLESS STEEL MAGAZINE

Built To Feed Flawlessly

Extra-thick, stainless steel magazine body is formed to tight tolerances with a smooth-welded seam that's carefully polished to eliminate any rough spots or burrs that could snag the follower. Polished exterior finish eases insertion into the mag well, while the precision-formed feed lips are engineered to resist deformation even after storing the magazine fully loaded for extended periods. Numbered witness holes let you know exactly how many rounds are loaded. Smooth-moving, polymer/fiberglass composite follower is specifically contoured to keep the last round from feeding too fast and causing a jam; extra-strong spring delivers consistent force to ensure reliable feeding in all shooting conditions. **Standard** model features a .360" thick, removable, polymer composite base pad that extends .310" below the mag body for added protection when dropped. **Low Profile** version has a carbon steel, removable base pad that extends only .090" below the mag body, perfect for concealed carry. Both versions available for Government and Officers model. 

SPECS: Body - Stainless steel, natural finish. Follower - Polymer/fiberglass composite. Base Pad - Polymer or steel. **Govt.** - 8-round capacity. OAL - Standard: 5 5/8" (13.1cm); Low Profile: 5" (12.7cm). **Officers** - 7-round capacity. OAL - Standard: 4 21/32" (11.8cm); Low Profile: 4 1/2" (11.4cm).

NIGHTHAWK CUSTOM 1911 AUTO MAGAZINES

Precision Mags Exceed Factory Specs
For Correct Fit & Superb Reliability

Premium-quality, magazine is produced using state-of-the-art manufacturing techniques to run as flawlessly as the best custom-tuned pistol. Extra-thick, tempered steel mag body is formed to small tolerances, with a smooth-welded seam carefully polished to eliminate any rough spots or burrs that might snag the rigid, stainless steel follower. The hard, high-polish finish eases insertion into the mag well and resists attracting dust and dirt. Precision-

NOVAK EXTREME DUTY .45 CALIBER MAGAZINES

Specially-Engineered Feed Lips
Ensure Maximum Feeding Efficiency

Durable, heat-treated, steel magazines provide flawless operation for consistent and reliable feeding. Carbonized steel body and feed lips resist misshaping for a long service life. Spring is made of Type-D music wire for consistent performance. Numbered holes let you see how many rounds are in the magazine. Select from polished blue, matte Parkerized, or rust-resistant, electroless nickel finishes. **6- and 7-Round** magazines are drilled and tapped for rubber base pads; available with or without pad. **7-Round Officers and 8-Round Govt** magazines have a low-profile base pad of chip-resistant polymer that protects your magazine from damage during tactical reloads.

SPECS: Steel, blue, Parkerized, or nickel finish. .45 caliber. **8-Round 1911** - 4 1/8" (12.4cm) high, 1 3/8" (4cm) long, 1 1/2" (14mm) wide. Size of others will vary.

STI 1911 AUTO MAGAZINES, TUBES & REBUILD COMPONENTS

Mags & Components For Rebuilding
High Capacity Magazines

Complete high capacity magazines and components to rebuild your damaged magazines so they work just like new. TIG welded, heat-treated, stainless steel bodies hold up to competition use without cracking or failure. All springs are tempered music wire and fit STI bodies without trimming. Complete mags come with polymer base pad and nylon follower for flawless feeding.

SPECS: 410 stainless steel tubes. Fits STI, SVI, and McCormick high-cap frames only. Base pads on carry mags and 170mm mags can be used on both 140mm and 170mm tubes and still be legal for USPSA competition. Replacement tubes do not include Mag base pads. **140mm Spring** is caliber specific, **170mm Spring** is universal. Capacity shown for all models is with non-extended magazine pads.

WILSON COMBAT 1911 AUTO ELITETACTICAL MAGAZINE

Ultra-Reliable, Smooth Feeding
Of All The Rounds;
Extra-Capacity Models Available

Wilson Combat applied 30 years of experience building high-performance 1911 magazines to develop this ultra-reliable magazine for combat, competition, or self-defense. Made with state-of-the-art materials using the latest manufacturing technology, these single-stack magazines are built tough to keep running in unforgiving, real-world conditions. The body formed from extra-thick stainless steel, with the radius of each curve engineered to minimize stress points, virtually eliminates feed lip cracking and stress fatigue. Even the position of the witness slots toward the rear is designed to enhance structural integrity. A proprietary welding, deburring, and polishing process provides an unusually strong, super-smooth seam to ensure snag-free follower movement and easy insertion in the mag well. The non-tilt follower of self-lubricating polymer fully supports the ammo stack to prevent nose-dives, double feeds, and other hang-ups. The mag body design puts less tension on the spring than standard magazines, increasing spring life and making it easy to seat a fully loaded magazine with the slide closed. The polymer base pad adds minimal bulk yet ensures a firm purchase even when your hands are wet; removes easily for cleaning. Numbers 1 through 10 stamped on the bottom help you mark each of your magazines to track usage and performance. **.45 ACP** - 8 round capacity; round-count numbers stamped on body next to witness holes. Available in natural Silver or Black Oxide finish. **9mm** - Available in 10-round capacity or low-profile, 8-round model ideal for compact carry pistols. No round count numbers; silver finish only.

SPECS: 17-7 stainless steel, natural silver or black oxide, finish, with black polymer follower and base pad. **.45 ACP** - 8-round capacity. **9mm 8-Rd** - 4 3/8" (11.1cm) OAL. **9mm 10-Rd** - 5" (12.7cm) OAL.

CLASSIC PISTOL 1911 LOW PROFILE MAG PAD

Low Profile Design
That's Perfect For Concealment

Extra-tough plastic pad protects the 1911 magazine bases from damage when you drop them during competition or tactical exercises. Low-profile design and black color are perfect for weapon concealment. Added length makes it easy to slam a fresh magazine home. Smooth surface allows for quick, smooth draw without the hassle of snagging on clothes.

SPECS: Plastic, black. 1/4" (6.4mm) thick. Sold in 3 Paks.

FREED DESIGNS 1911 AUTO X-GRIP™ MAGAZINE ADAPTER

Adapts Full-Size 8-Round
Magazines To Officers Model
For Increased Firepower

Snap-on adapter converts 8-round Government model Novak, Act-Mag, and Mec-Gar magazines for use in an Officers model pistol. Gives your Officers model the capacity of a full-size pistol, so you have more ammo available when you need it. Two-piece, closed-bottom unit snaps tightly around the floorplate, but removes easily if you want to use the magazine with a full-size grip frame. Streamlined contours provide a nearly seamless mate to the grip frame. Gives added support for your little finger to improve weapon control, and offers extra cushion to protect the floorplate when dropping the mag during reloads. Made of rugged, impact-resistant polymer, so it takes a beating, yet weighs only half an ounce.

SPECS: Polymer, matte black. 2 1/2" (6.4cm) long, 1 1/4" (3cm) wide, 13/16" (2.1cm) high, 1/2 oz. (14g) weight. Adapts Novak, Act-Mag, and Mec-Gar 8-round .45 ACP Govt. model magazines for use in Officers ACP

MHA CUSTOM KIMBER 1911 AUTO .22 LR MAGAZINE BASE PAD

Lengthens Mag For Proper Fit In
Pistols With Extended Magwell

Extended base pad lengthens the plastic Kimber .22 LR conversion magazine to ensure it can be fully inserted and locked in a pistol with an extended magwell by Kimber or other manufacturers. Precision machined from aluminum for strength and durability. Heavy duty retaining detent keeps base pad in place. Simply remove the factory base plate as for cleaning, and replace with MHA Custom pad. Unblended magwells may cause interference and prevent use of this pad. **SPECS:** 7075 T6 aluminum, natural silver finish. Fits plastic magazines for the Kimber .22 LR 1911 Auto Conversion.

#100-004-924DH .22 LR Magazine Pad 1C22H07 . . . \$ 25.99

STI 1911 AUTO BUMPER PAD

For Repair Or Replacement

Tough, black nylon polymer magazine pad. 170mm is legal for USPSA competition on 140mm and 170mm magazine tubes. **SPECS:** Nylon polymer, black.

CYLINDER & SLIDE 1911 AUTO SERIES 80 TRIGGER PULL REDUCTION KIT

Super-Slick Parts Lighten Series 80 Pull

Titanium-nitrided parts, with an exclusive moly-disulfide coating, reduce trigger pull weight without risky modifications to Series 80 Colt's firing pin safety system. Reduces the creep and jump in the takeup that's inherent in these guns. When used with custom, after-market parts, trigger pulls as low as 2 1/2 lbs. can be safely achieved. **SPECS:** Steel, TiN and moly coated, gold color. Kit includes hammer pin, sear pin, trigger lever, plunger lever, firing pin plunger.

#206-080-000DH Trigger Pull Reduction Kit, 6K38Z40 \$ 48.00

10-8 PERFORMANCE LLC SPRINGFIELD EMP EMP TRIGGER

Staked Bow For High Strength
& Reliable Performance

Full width, stainless steel bow eliminates flex and is permanently staked to the trigger shoe for added strength, making this trigger a top choice for carry guns. Stainless steel overtravel stop screw is mounted in the rear of the shoe and requires no staking or threadlocker to keep it in place – once it's set, it won't shoot loose. Aluminum, serrated shoe provides a non-slip grip and positive control. Oversized shoe and overtravel stop require gunsmith fitting. **Long Curved** allows a different length-of-pull depending on index finger position; ideal for larger hands. **Long Flat** trigger features a flat, square face for uniform length-of-pull regardless of index finger position. Length-of-pull is equal to the shortest point on a traditional, "long" curved trigger. **SPECS:** Bow - Stainless steel, polished finish. Shoe - Aluminum, silver, anodized finish. **Long Curved** - 2.28" (5.8cm) OAL. **Flat** - 2.13" (5.4cm) OAL. .3 oz. (8.6g) wt. Fits Springfield EMP in 9mm and .40 S&W.

#100-003-712DH Long Curved Trigger, 1B19Z95 \$ 24.95

#100-003-713DH Long Flat Trigger, 1B19Z95 24.95

10-8 PERFORMANCE 1911 AUTO FLAT TRIGGER

Delivers Consistent
Length-Of-Pull Regardless
Of Finger Placement

Lightweight, aluminum trigger shoe features a flat, serrated face for uniform length-of-pull regardless of index finger placement. Full width, stainless steel bow eliminates flex and is permanently staked to the shoe for added strength, making this trigger a top choice for duty and self defense guns. Stainless steel overtravel stop screw is mounted in the rear of the shoe and requires no staking or threadlocker to keep it in place – once it's set, it won't shoot loose. **SPECS:** Bow - Stainless steel, polished finish. Shoe - Aluminum, silver, anodized finish. 2.2" (5.6cm) OAL. .3 oz. (8.6g) wt.

CYLINDER & SLIDE 1911 AUTO SOLID ALUMINUM MATCH TRIGGER

Replaces Sloppy-Fitting
Factory Trigger;
Smooth, Rounded Face
For Comfort

Match-grade replacement trigger improves control and increases shooting comfort for greater accuracy. Solid, aluminum alloy trigger shoe is oversized for precise fitting to your frame. Smooth, rounded face eliminates "tender finger" caused by abrasions from sharply serrated trigger faces during long shooting sessions. Transmits the actual trigger action more effectively for a better "feel" of actual pull weight and improved control of letoff. Stainless steel trigger bow is longer than factory length to reduce take up. Overtravel screw helps eliminate trigger overtravel. Available with **Short, Medium, and Long** trigger shoe. Gunsmith fitting required. **SPECS:** Aluminum shoe, stainless steel bow. **Short** - 2.25" (5.72cm), **Medium** - 2.35" (5.97cm), **Long** - 2.40" (6.1cm).

CLYINDER & SLIDE 1911 AUTO LONG ALUMINUM TRIGGER

Helps Ensure Correct
Finger Placement
For Best Accuracy

Long, aluminum, trigger shoe helps ensure proper placement of the index finger so pull force is directed straight rearward, preventing disturbance to sight alignment for improved accuracy. Shoe is permanently staked and drilled in a 3-hole configuration to keep weight to a minimum. Fine line serrations on the face provide a positive "feel" and help improve overall trigger control. Highly polished, stainless steel bow prevents trigger-flex and eliminates drag. Overtravel stop screw allows adjustments for creep. Gunsmith fitting required. **SPECS:** Shoe - Aluminum, silver, anodized finish. Bow - Stainless steel, polished finish. 2.40" (6.1cm) OAL.

HARRISON DESIGN & CONSULTING 1911 AUTO EXTREME SERVICE TRIGGER

Delivers A Precise,
Comfortable Trigger Pull,
Plus Strength & Reliability

High-performance trigger is built for shooters who run their guns hard, yet want a precise, smooth, consistent trigger pull. Solid aluminum shoe gives a comfortable, natural finger position to help prevent uneven pressure that can compromise accuracy. Smooth, curved face with radiused edges won't abrade the finger, and a choice of shoe lengths lets you set a length of pull that concentrates the pull force on the centerline of the trigger. Shoe is permanently staked to a non-flex bow of hardened stainless steel with a mirror-polished surface that eliminates friction with the frame. Fixed, internal overtravel stop lets you set the precise amount of overtravel when you install the trigger, and won't back out over time. Simply file the tip of the stop until it allows the sear nose to clear the hammer hooks and half-cock notch. Models available for full-size 1911 Government Model and Springfield Armory EMP in natural silver finish or wear-resistant, black IonBond DLC, an exceptionally hard coating used in high-stress industrial applications like race car engines. 

SPECS: Stainless steel bow, aluminum shoe, natural silver or black IonBond DLC finish. Shoe - .25" (6.4mm) wide. Length measured from middle of curve to back of bow. **1911** - Short: 2.1" (5.3cm) long. Medium: 2.2" (5.6cm) long. Long: 2.25" (5.7cm) long. **Springfield EMP** - Short: 1.95" (4.9cm) long. Long: 2.14" (5.4cm) long.

CC-454 FOR COLT COMBAT COMMANDER - Includes 1 each factory standard weight, 18 lb., variable power recoil spring and 23 lb. hammer spring, plus (1) 19 lb. RP hammer spring and (1) XP firing pin spring. **#080-665-454DH Kit CC-454 6K10V49** \$ 15.73
OM-456 FOR .45 ACP CALIBER OFFICERS ACP - Single recoil spring replaces the factory double spring to give crisp, reliable functioning; reduced power mainspring (hammer spring) helps reduce trigger pull. Kit includes both 20 lb. reduced power recoil spring and 24 lb. extra power recoil spring, plus an extra power firing pin spring and a 21 lb. reduced power mainspring (hammer spring). Fits guns with factory guide rod, will not fit aftermarket .330" diameter, full-length guide rods. **#080-665-046DH Kit OM-456 6K09U44** \$ 15.72

CLARK CUSTOM 1911 AUTO CUSTOM SEAR SPRING

Effective, Easy-To-Install Cure - Saves Carefully
Stoned Sear & Hammer Notches

Exclusive, "split" center leg of spring keeps constant forward pressure on trigger to prevent hammer/sear notch damage (which can cause dangerous "hammer follow") on guns equipped with lightened or "traditional", custom trigger jobs. Allows hammer to stand cocked under most normal conditions and will not affect trigger break or pull. Can be used with lightweight triggers or Gold Cup-style hammers. 
SPECS: Blued steel, 2 1/16" (7.1cm) long, 1/2" (12.7mm) wide. Fits all models of Colt-style 1911 Auto pistols.
#181-130-001DH Custom Sear Spring 1H05A19. . . . \$ 6.99
#181-130-003DH 3 Custom Sear Springs 1H14A24 . . 18.99

INFINITY 1911 AUTO TRI-GLIDE TITANIUM SEAR SPRING

Smooth, Reliable Pull With Light Triggers

Reduced tension rate compared to steel makes pull weights as low as 1 1/2 pounds possible. Non-stacking, linear movement reduces sear loading to allow a 1 pound reset weight without sear bounce. Steel ball bearing, inset into center leaf, reduces contact area with disconnector; provides a very smooth trigger takeup. 
SPECS: Titanium. Both springs require minor fitting. 1911 fits single stack, 1911 autos. **Hi-Cap** fits STI/Infinity and Para-Ordnance.
#823-111-000DH 1911 Tri-Glide Sear Spring, 3B23D73. \$ 29.99

ED BROWN
COMMANDER RECOIL SPRING

Constant Rate Design
For Improved Ejection & Dependable Cycling

Premium-quality replacement for old, tired factory recoil springs in the 1911 Commander improves function and reliability. Constant rate design along the entire length to help keep the slide closed longer when shooting heavy loads. Reduces wear from battering and shortens the distance spent casings are ejected. High tensile strength, round wire, spring steel ensures years of reliable service. **18 lb.** is the correct, factory weight and an excellent choice for restoring your pistol to its original specs. **20 lb.** Extra power spring holds the slide closed a little longer to help solve the problem of brass ejecting too far (more than 15 feet). 

SPECS: Round-wire spring steel. Approximately 5 1/8" (13cm) long uncompressed. Fits Commander-length 1911 pistols.

NIGHTHAWK CUSTOM 1911 AUTO

SPRING KITS

High Quality Springs
For Smooth,
Reliable Function

High-quality replacement springs ensure reliable performance from your pistol, including proper feeding, positive ejection, and minimal battering of frame and slide. Replace fatigued springs to return a gun to consistent, dependable function or use as components in a custom build. Pistolsmiths recommend changing springs regularly as part of a positive preventive maintenance program. Kits include two standard weight recoil springs, an extra power recoil spring for hot or +P loads, extra power firing pin spring for positive ignition, and reduced power hammer spring. 

SPECS: Spring steel. **Govt.** contains two 17 lb. recoil springs, 20 lb. extra power recoil spring, reduced power hammer spring, and an extra power firing pin spring. **Commander** contains two 20 lb. recoil springs, 22 lb. extra power recoil spring, 21 lb. reduced power hammer spring, and an extra power firing pin spring.

TACTICAL SPRINGS 1911 AUTO
RECOIL SPRINGS

Consistent Performance For High-Stress,
High-Volume Shooting

Premium-quality recoil spring helps ensure consistent, dependable operation for tens of thousands of compression cycles. Perfect for the high-volume tactical or competition shooter who needs a finely tuned spring that delivers its rated power as reliably on the 50,000th shot as it did on the first. Made from chromium-silicon steel alloy selected specifically for its hardness, heat resistance, and ability to withstand high stresses—the same alloy used for valve springs on automobile engines. Cryogenically treated to relieve internal stress, and surface impregnated with Sprinco's proprietary Plate+ molybdenum disulfide lubricating coating. Available in factory standard 16-lb. weight, as well as extra-power 17- and 18-lb. weights to reduce slide and frame battering with hot loads and shorten the distance spent brass is ejected from gun. 

SPECS: Cryo-treated chrome silicon alloy. Fits full-size 1911 Auto Govt. Model.

WOLFF 1911 AUTO CHROME SILICON RECOIL SPRING

Resists Taking A Set; Choice Of Three Weights
To Match Your Gun

Chrome silicon steel recoil spring resists taking a set even after thousands of compression cycles for improved performance and reliability. Available in three power ratings, so you can match spring weight to your specific gun and the type of load you shoot. Use **Reduced Power** 14 lb. spring for target loads with lighter than standard bullets or powder charges, **Factory Standard** 16 lb. spring for all-around reliability with the widest range of ammo, and **Extra Power** 18½ lb. spring for smoother cycling and less slide battering with heavy loads. Each spring comes with an extra power firing pin spring to ensure positive ignition and an extra margin of safety in preventing accidental discharges.

SPECS: Chrome silicon spring steel. Available in 14, 16 & 18½ lb. weights. Fits 1911 Auto Government Model.

#969-000-189DH	Reduced Power 14 lb. CS Recoil Spring, 9F05X31 \$ 7.99

WOLFF RECOIL SPRING

Fine Tune For Light, Standard Or Heavy Loads

Like all Wolff springs, these for the 1911 Auto in .45, .38 Super or 9mm are the finest, most reliable, longest lasting ones available. The springs of choice for most of the nation's top builders. Except where noted, all recoil springs are supplied with an extra power firing pin spring that keeps the firing pin stop in place and prevents firing pin "float"; an addition recommended by pistolsmith Bill Wilson.

TYPE A - FOR TARGET (SOFTBALL) LOADS - These were originally recommended to us by Major F. B. Conway, U.S.A. - M.T.U. Whenever lighter than standard bullets or powder charges are being used, a lighter recoil spring is a must for correct functioning; however, they MUST NOT BE USED WITH STANDARD (HARDBALL) LOADS. The 10 lb. Type A spring is the old favorite (for reduced loads) and for that reason we also make it available as a single item (without the extra power firing pin spring).

STOCK #	LB.	STOCK #	LB.	STOCK #	LB.

#969-000-188DH	18 lb. Commander Recoil Spring, 9F05X45 7.99

TYPE C - EXTRA POWER FOR HARDBALL AND HEAVIER LOADS IN GOV'T./GOLD CUP - For these guns in both .45 ACP and .38 Super. Allows more precise tuning of individual guns for better stripping, smoother cycling. Factory weight is 16 lb. Extra power firing pin spring included.

#969-419-180DH	18½ lb. Recoil Spring 9F05C26 \$ 7.89
#969-419-181DH	18½ lb. Spring, 10-pak 9F40C14 66.90
#969-419-200DH	20 lb. Recoil Spring 9F05C26 7.89
#969-419-220DH	22 lb. Recoil Spring 9F05C54 7.99
#969-419-240DH	24 lb. Recoil Spring 9F05C26 7.89
#969-419-260DH	26 lb. Recoil Spring 9F05C26 7.89
#969-000-034DH	28 lb. Recoil Spring 9F05X26 7.89

EXTRA POWER FUNCTION PAK - Consists of 5 recoil springs: 16 lb. factory standard, 18½ lb., 20 lb., 22 lb. and 24 lb., plus 3 extra power firing pin retraction springs.

#969-131-110DH	X-Power Function Pak, 9F21Y00 \$ 31.49
----------------	--

TYPED - EXTRA POWER FOR HARDBALL AND HEAVIER LOADS IN COMMANDER - Provides same benefits as Type C springs, but for the shorter Commander which comes standard with an 18 lb. spring. Includes extra power firing pin spring.

#969-422-200DH	20 lb. Recoil Spring 9F05C26 \$ 7.89
#969-422-220DH	22 lb. Recoil Spring 9F05C26 7.89
#969-422-240DH	24 lb. Recoil Spring 9F05C26 7.89

LONG SLIDE FUNCTION PAK - Consists of 5 recoil springs #1 through #5, plus 3 extra power firing pin springs. Wolff does not specify a power rating, #1 is strongest, #5 the lightest. Fitting required.

#969-000-020DH	Long Slide Function Pak, 9F24B00 \$ 35.99
----------------	---

KIMBER® EXTRA POWER RECOIL & FIRING PIN SPRING - Fine-tunes recoil for smooth cycling in Kimber Compact and Pro-Carry 4" pistols. Includes extra-power firing pin spring to keep the firing pin stop in place, prevent firing pin "float", and to offset the increased slide thrust.

SPECS: Steel spring, 20 lb. Factory original spring averages 18 lb.	
#969-000-137DH	X-Power Recoil & Firing Pin Spring, 9F05Z27 \$ 7.89

CASPIAN 1911 AUTO PARTS

Upgrade Your Current 1911 Or Build A High-Quality Custom Pistol

High-quality, precision-machined parts from the name that means "custom quality" to serious pistol shooters. Build the ultimate custom 1911 Auto for target, action-pistol, or tactical applications. Repair or return an existing gun to factory specs or assemble a racegun that fits your exact needs. Choose from parts in blued carbon steel or natural-finish stainless.

SPECS: Fits 1911 Auto. Carbon steel, blue (B), in-the-white (W), or stainless steel (SS) natural-finish. **Trick Trigger** has stainless steel bow and skeletonized aluminum shoe. Gunsmith fitting required. Caliber-specific parts are .45 ACP unless otherwise noted. (SP) indicates Speed Bump-style.

BROWNELLS 1911 AUTO MAINSRING HOUSING REBUILD KIT

Helps Keep Your Pistol
Running Reliably

Handy kit contains all the parts you need to mount a new mainspring housing on your 1911, or refurbish the internal components to factory-new condition. Includes standard, factory weight (23 lb.) hammer spring to help ensure positive ignition and restore your pistol's reliability by replacing an old, weak spring. Also includes mainspring cap, cap pin, and retaining pin, so you don't ruin a good-looking new housing's appearance with old, dinged hardware. Kit available with blued or stainless external components to match your pistol's finish. Installation instructions included.

SPECS: Kit contains factory weight hammer spring, mainspring cap, cap pin, mainspring housing retainer pin, and instructions. Fits full-size 1911 Government Model, Commander, and clones.

#080-000-549DH	Mainspring Housing Rebuild Kit, Blued, 8K07Y25	\$ 8.99
#080-000-550DH	Mainspring Housing Rebuild Kit, Stainless 8K09Y27	12.99

ment Model frame so it's fully functional and ready to receive the slide of your choice. Saves time and money—no need to hunt down each item individually—and the Wilson name ensures superb fit, finish, and reliability. Perfect for a custom build, or rebuild an old frame to like-new condition. Available in matte blued **Carbon Steel (CS)** or natural finish **Stainless Steel (SS)**. Kit contains: mainspring housing, mainspring, mainspring cap, mainspring retainer, trigger, hammer, hammer strut, sear, sear spring, disconnector, grip safety, thumb safety, magazine catch, magazine catch lock, slide stop, plunger tube, safety lock plunger, slide stop plunger, grip bushings and screws, and all the other necessary retaining pins. Includes many performance features preferred by experienced tactical pistol shooters. Skeletonized, ultralight hammer and trigger deliver exceptionally quick lock time and reset. Low-profile hammer spur minimizes risk of snagging during carry or draw from concealment, and match-grade trigger features machined aluminum shoe with deeply serrated face and hardened stainless steel bow that's brightly polished to minimize friction on frame. Deluxe sear is wire-EDM cut from S-7 tool steel bar stock and heat treated for maximum hardness before contact surfaces are precision ground for ultracrisp letoff. Narrow-profile thumb safety's deeply grooved pad is contoured for natural thumb placement to ensure quick, instinctive disengagement, yet is low enough to resist accidental release. High-ride beavertail grip safety allows a high hand position close to the bore axis for better recoil control. Raised "Posi-Release" tab at the base helps you locate your hand properly for positive safety disengagement, while hammer pocket surrounds the hammer spur when cocked to protect against hammer bite. Mainspring housing is fully machined from steel bar stock with deeply cut 30 lpi checking for a secure grip and maximum recoil control. Extended, tactical magazine release with deeply serrated face extends an extra 1/8" farther than factory release to aid in fast, positive magazine changes. ■

SPECS: Carbon steel or stainless steel. Fits full-size .45 ACP 1911 Auto frame. Some parts require minor fitting. Wilson compound radius on grip safety requires alteration to frame.

AHREND'S 1911 AUTO EXOTIC WOOD GRIPS

Handsome & Functional,
For Combat, Carry, Or Display

Handsome, distinctive, exotic wood 1911 Auto grip panels, precision shaped and carefully matched. Top quality hardwoods become even more beautiful with age, and these slabs are aged for more than a year before shaping. Inletted for ambi safeties, with cutouts for mainspring housing pin, and beveled bottom edges give a neat, finished appearance. Durable polyurethane finish. **Cocobolo** is an overall reddish-brown with distinct grain stripes of dark red-brown. Dense-grained **Gaboon Ebony** is some of the finest, almost pure black ebony we've seen and just plain feels "right." Choose from four attractive styles: **Smooth** - Grain patterns show up best on smooth grips. **Combat Checkered** has full coverage, 18 lpi checkering for superb grip and control. **Diamond Checkered**, 18 lpi checkering, broken by smooth diamonds at the grip screw holes. **Skip Checkered** features a pattern of smooth diamonds separated by 18 lpi checkering.

SPECS: Approximately 1/4" (6.4mm) thick. Weight 1 1/2 oz. (42g) per pair. Natural wood color and grain patterns will vary.

STOCK #	STYLE	PRICE
#052-003-102DH	Cocobolo Smooth	2E25X00 \$ 36.00
#052-001-102DH	Cocobolo Combat	2E25B00 \$ 36.00
#052-002-102DH	Cocobolo Diamond	2E34B95 \$ 50.00
#052-000-005DH	Cocobolo Skip	2E25U00 \$ 36.00
#052-003-104DH	Ebony Smooth	2E32X50 \$ 46.00
#052-001-104DH	Ebony Combat	2E32B50 \$ 46.00
#052-002-104DH	Ebony Diamond	2E43B50 \$ 60.00

TACTICAL GRIPS - Dual-purpose grips with a unique, highly functional, combination checkered/smooth surface. Smooth top section allows your hand to slide into place for a fast, unimpeded grip and a smoother draw. 18 lpi cut checkering on the bottom section gives you a solid, secure grip the instant your fingers curve around the front strap. Available in **Cocobolo**, **Gaboon Ebony**, and **Rosewood**.

SPECS: Approximately 1/4" (6.4mm) thick. Weight 1 1/2 oz. (42g) per pair. Notched for ambi safety. Natural wood color and grain patterns will vary.

STOCK #	STYLE	PRICE
#052-004-102DH	Cocobolo Tactical Grips	2E34X95 \$ 50.00

#052-004-104DH	Ebony Tactical Grips	2E43X50 \$ 60.00

SQUARE BOTTOM GRIPS - Squared bottom edge looks "right" on guns equipped with add-on magwells. Covers the unsightly gap between the bottom edge of the frame and the magwell, so the magwell looks like it's part of the frame. Hardwood panels are thicker than factory slabs to provide a hand-filling grip and better recoil control for more comfortable combat-style shooting. Available in **Cocobolo**, **Gaboon Ebony**, and **Rosewood**. **Combat Checkered** has full coverage 18 lpi cut checkering. **Diamond Checkered** has 18 lpi checkering broken by smooth diamonds at the grip screw holes. **Pin Covered (PC)** models do not have cutout for mainspring housing pin.

SPECS: Approximately 9/32" (7.1mm) thick. Weight 1.7oz. (46g) per pair. Notched for ambi safety. Natural wood color and grain patterns will vary.

ALUMAGRIP 1911 AUTO ALUMINUM GRIPS

Precision Machined For Style,
Endurance, Function

Tough, machined aluminum creates exceptionally durable grips that withstand years of hard, tactical use. Faultless border-pattern checkering features unique, smooth-top diamonds with square edges for a very comfortable and secure grip that won't abrade clothing. CNC'd with all curves, angles and cutouts true and exact; cut for ambi safeties. Models available to fit full-size Govt.

ernment, Officers, and single-action Para-Ordinance P14/16/18. Para available with checkered or smooth surface. **SPECS:** Aluminum, anodized, satin finish, black. Approx. 1/4" (6.7mm) thick. Para grips fit single-action P14, P16, and P18; available in checkered or smooth.

#100-000-507DH	1911 Auto Grips	5K44X54	\$ 55.99

SLIMLINE GRIPS - Very thin aluminum grips help shooters with small hands maintain a good hold on the gun. CNC-machined checkering is cut to full depth for a superb, no-slip grip, with smooth-top diamonds that won't damage clothing. Not cut for ambi safety.

SPECS: Aluminum, anodized, satin finish, black. 153" (3.9mm) thick nominal. Not cut for ambi safety. **#100-001-356DH** Slimline 1911 Grips, 5K43H96 \$ 54.95 **#100-001-360DH** Slimline Officers Grips, 5K43H96 \$ 54.95

ALUMAGRIP 1911 AUTO TACTICAL ALUMINUM GRIPS

CNC Machined For
Tactical & Competition Applications

Sturdy, machined aluminum creates extra strong, long-lasting grips that withstand years of tactical use. Checkering features smooth-top diamonds with square edges that won't drag on clothing. Provides a firm grip for a positive draw in tactical and competition situations. Half grip pattern creates a distinctive look that is fully functional and comfortable. Overall dimensions as well as screw holes, and safety cutout are CNC precision machined.

SPECS: Aluminum, anodized, black. Full Size grips fit Govt/Commander. 4 1/8" (10.5cm) long, approx. 1/4" (6.7mm) thick. Compact grips fit Officers model. 3 1/8" (7.9cm) long, approx. 1/4" thick.

CYLINDER & SLIDE 1911 AUTO TACTICAL GRIPS

Practical, Durable &
Good-Looking Grips For
Hard Daily Use

Textured grips made from durable engineered materials stand up to the abuse of tactical operations or competition where traditional wood grips fail—and still look good. Flat bottom eliminates the gap between the grip and extended magazine wells, and all models have a cutout for an ambi safety. **G10** - Made from layers of tough G10 fiberglass/epoxy resin laminate that's incredibly strong and almost impervious to impact, moisture, temperature extremes, and chemicals. Covers the mainspring housing pin for a neat look. Available with coarse **Rhino Hide** texturing for shooters who wear gloves or have tough hands, or "320" Pattern irregular texturing that approximates traditional 16 lpi checkering and provides an even more secure grip. Checkered **Dymond-Wood®** grips come with a mainspring housing pin cutout and are available in black or a red/black simulated wood grain pattern that looks like traditional Cocobolo wood. Resin-impregnated, laminated hardwood, DymondWood holds the 16 lpi checkering exceptionally well and is extremely resistant to impact, surface wear, and moisture. Available in traditional Double Diamond pattern, full-surface coverage, or with a unique-looking curved, smooth center section.

SPECS: G10 fiberglass composite, dark green/black, or Dymond-Wood, black or red/black Cocobolo-like (RB) finish. DymondWood grips available with double diamond checkering (DD), checkering with curved, smooth center panels (Curve), or full-surface checkering (Full). All models fit Government Model and Commander.

BROWNELL'S PREMIER WOOD GRIPS

Traditional Elegance Of
Beautiful Hardwoods,
Three Distinct Styles

Beautifully crafted, hardwood grip panels enhance the appearance of any 1911 Auto. Premium-grade woods are carefully selected for their natural grain patterns, then properly kiln dried for superior stability, precision shaped, expertly checkered, and carefully paired. All models are inletted

for ambi safeties, with cutouts for the mainspring housing pin and crisply beveled bottom edges. A clear, semi-gloss protective finish seals the pores and protects the grip from moisture and scratches. Choose from one of four distinctive woods: **Cocobolo** is an extremely dense, reddish-brown wood tinged with orange and distinct grain stripes of dark red-brown. **Rosewood** is a richly hued medium dark brown with contrasting, almost black, grain stripes. Strong and heavy, it takes a smooth, even polish. **Walnut**, the traditional American stock wood, is light/medium brown with softly contrasting, slightly darker grain patterns. Three styles are available: **Double Diamond (D/D)** - traditional style with 16 lpi checkering, broken by smooth diamonds at the grip screw holes. **Combat** - full-coverage, 16 lpi checkering, for maximum gripping texture when hands are wet or sweaty. **Smooth** - non-abrasive, no snag surface shows off the grain pattern best.

SPECS: Approx. 1/4" (6.4mm) thick. Natural wood color and figure will vary.

BROOKSTACTICAL AGRIP

Improves Handling & Control,
Secure Grip Helps Increase Accuracy

Pre-cut, wrap around sleeve sticks on easily with an ultra high-tech, pressure-sensitive adhesive. Won't peel off in harsh conditions, even under water. Provides a comfortable, secure grip for competition, law enforcement and tactical firearms. Non-slip and non-abrasive, with a soft feel that's not tacky. Extremely durable, resists splitting, tearing, abrasion, and wear. Flexible, conforms to Glock frames with and without finger grooves. Resistant to most oils and solvents.

SPECS: Black. Soft texture. **#100-001-234DH** AGRIP, for 1911 Auto 5K19Z50 \$ 27.95

CARBON CREATIONS 1911 AUTO CARBON FIBER GRIPS

Lightweight Hi-Tech Grips For 1911's

Strong, lightweight, durable, carbon fiber and kevlar woven together, then resin-impregnated to create a distinctive grip. Weave pattern changes with the viewing angle. Double-diamond, 18 lpi checkering. Hard, clear, synthetic finish resists cleaning solvents.

SPECS: Carbon fiber, black. Approx. 1/4" (6.3mm) thick. Models for Govt/Commander and Officers ACP.

CRIMSONTRACE 1911 AUTO LASER GRIPS

Instant On-Off Aiming Without The Bulk
Of An Accessory Laser Unit

Laser Grips give you an immediate, decisive advantage because 80% of self-defensive shootings occur in low light conditions or complete darkness. Provides an added defensive edge in any light condition. With just a squeeze of your shooting hand the laser grip unit instantly projects a bright red aiming dot on your intended target; even in broad daylight. Makes a great training tool; provides instant feedback to shooting students learning how to achieve a steady trigger pull, consistent follow through, proper sight alignment and instinctive aiming. Grips are made from a rugged but soft, over molded rubber for increased shooting comfort. Laser units are located in the top of the grip. Laser unit on Wrap Around (W/A) models are activated from the pressure sensitive finger pads located on either side. The pressure switch located in the lower front finger groove activates laser unit on Front Activated (F/A) models. Both models include a manually activated on/off switch on the lower left side helps prevent dead batteries and accidental laser activation.  **SPECS:** Injection molded rubber, black, matte. Front Activated 1911 Auto models require shortening of right side thumb safety lever. Includes batteries, installation instructions and training manual.

ED BROWN 1911 AUTO COCOBOLO GRIPS

Classic, Double-Diamond Style
With Precision-Cut
20 Lpi Checkering

Classic, double-diamond checkered Cocobolo grips are the same high quality grips that come with Ed Brown custom pistols. Cocobolo is prized for its rich, varied grain ranging in color from orange to deep red-brown, as well as for durability and hardness so it holds the 20 lpi checkering through years of hard use. Made from premium-grade wood with an excellent natural grain—no added stains or dyes—with a durable, satin-finish clearcoat to protect the wood from moisture and surface wear. Features include a beveled bottom edge, convenient cutout for mainspring housing pin, and a choice of **Standard** or **Bobtail** configuration to fit Ed Brown compact/concealment Bobtail frames. **Slim Grips** are 35% thinner to minimize pistol profile for concealed carry. Requires slim grip screws and bushings, available separately. **Square Bottom** grips give a neat, finished look to pistols with Ed Brown Maxi-Well installed. No cutout for mainspring housing pin. 

SPECS: .26" (6.6mm) thick. Approximately 1.3 oz. (39g) weight per pair. Natural wood color and grain patterns will vary. Fits full-size Government and Commander. Not cut for ambi safety. **Slim** — .17" (4.3mm) thick. Approximately .8 oz. (24g) weight per pair.

FALCON INDUSTRIES 1911 AUTO XT GRIPS

Extremely Tough, Textured Grip Surface

Strong, lightweight, and extremely tough, heavily textured grips provide excellent handling and stability in all conditions. Cut for ambidextrous safeties. Install easily with standard grip screws and bushings. Models available for Government/Commander grip frame, as well as Officers Model. **Beveled** has a neatly beveled bottom edge that allows fast hand clearance during draw and minimizes "printing" through clothing on concealed carry pistols. **Square Bottom** gives a flush, tight fit against magazine guides and chutes that attach to the 1911.  **SPECS:** Injection molded nylon-based rigid polymer. **Govt/Comm** available with beveled bottom edge (**BB**) or square bottom (**SB**) in black or O.D. green. **Officers** in beveled black only.

HALPERNTITANIUM 1911 AUTO ULTRA-SLIM TITANIUM GRIPS

Machined From The
"Space Age Metal" For Highest
Strength-To-Weight Ratio,
Superior Corrosion Resistance &
An Extra Thin Profile

Ultra-slim grip panels of lightweight Titanium are precision CNC machined for a perfect fit and truly custom appearance on any full-size Colt 1911 or clone. Extra low density Ti trims unnecessary weight while maintaining steel-like strength. Corrosion-resistant — even in salt water — to maintain the original, stunning good looks day-after-day with little to no maintenance. Unique texturing pattern gives an aggressive gripping surface that "sticks" to your hand for positive control under heavy recoil. Smooth, radiused edges produce a clean transition from grip-to-frame for added comfort. Countersunk holes provide a flush-fit for the included hex head grip screws. Available with natural silver, bead-blasted finish or heat-anodized to produce a brilliant multi-color scheme of purple, blue, and copper hues.  **SPECS:** Titanium, natural silver, bead-blasted finish or multi-color heat-anodized finish. .101" (2.5mm) thick. 2.3 oz. (65g) wt. Fits 1911 Auto Government and Commander.

HARRISON DESIGN 1911 AUTO CARRY GROOVE GRIPS

Combines A Secure Grasp With
Non-Snag Carry

Durable machined G10 fiberglass grips are almost impervious to solvents, moisture, and expansion/contraction due to temperature extremes. Five, deep, vertical grooves in each panel and fine-line diagonal texturing help you retain a solid grip on the pistol but won't snag like traditional checkering. Still allows a quick shift of grip for reloads, and also easier on clothes and your skin during carry. Beveled bottom 

HOGUE 1911 AUTO PISTOL GRIPS

Hand-Filling, Versatile Designs
In Rubber & Wood

Hand-filling grips help absorb recoil by spreading the shock over a wider area of the hand. Finger groove models tighten the grip upward, into the triggerguard for better recoil control. All wood grips are cut from imported, select grades of hardwood. Molded rubber grips cushion recoil. Non-slip, pebble finish. Checkered grips are Double Diamond pattern. **SPECS:** Select model from chart. Model designations abbreviated as follows. Checkered (**CH**); Finger Grooves (**FG**); Goncalo Alves (**GA**); Pau Ferro (**PF**); Rubber (**RU**); Slabs (**SL**).

NAVIDREX CUSTOM GRIPS

Handcrafted From Genuine Westinghouse
Micarta® & Laminated Dymondwood

Long-wearing, solid, comfortable grips hand crafted and checkered from two of the best handgun grip materials ever invented; genuine Micarta and laminated Dymondwood. The Micarta is available in a gorgeous, jet **Black** that's close to ebony, or **Ivory** that has the looks and warmth of real tusk. The resin-impregnated Dymondwood looks like real **Rosewood** but its synthetic compound is much harder; it never wears, and resists gun solvents and bore cleaners. Double diamond pattern features hand cut, 18 lpi checkering and models to fit either Government/Commander length (**STD**) 1911 Auto or Officers ACP-length frames. Grips marked (**S&A**) are cut longer to fit flush on guns equipped with Smith & Alexander mag guides. **SPECS:** Approximately .246" (6.3mm) thick.

NIGHTHAWK CUSTOM 1911 AUTO GOLFBALL PATTERN G10 GRIPS

Popular "Grippy" Texture Keeps Gun In Your Hand Even When Wet

Tough, long-wearing, all-weather grips of nearly indestructible G10 composite provide an extra secure grip during the draw and tactical maneuvers, and ensure maximum weapon control while firing. Minimizes rotation during recoil for better accuracy and reduced likelihood of having to reposition hand for follow-up shots. Popular golfball pattern, preferred by many shooters, crisply cut into the grip surface ensures a no-slip grip even when hands are sweaty. Hard, non-reflective, glass-fiber reinforced G10 composite is impervious to extremes of heat, cold, moisture, and most solvents. Non-tapered, cut for an ambi safety. Available in **Black**, **Desert Tan** (similar to U.S.

NAVIDREX SLIM GRIPS

Reduces Bulk For Easy-To-Grip
Shooting & Carry Comfort

Black Rosewood
Shown

Extra-thin to reduce bulk for concealed carry and give shooters with small hands a better hold. Available **Checkered** with full coverage checkering or **Double Diamond** checkered to fit 1911 Auto and Officers ACP. All require slim bushings and screws, available separately. Black **Micarta**® gives the appearance of fine ebony. **Black Rosewood** is a deep, reddish brown with contrasting black vertical stripes. **Ebony** is very deep brown/black, almost black, with mild grain pattern.

Mahogany is deep reddish/brown color of varying intensity. **SPECS:** Approx. .165" (4.2mm) thick. **Black Rosewood** and **Ebony** are resin impregnated Dymondwood. **Mahogany** is genuine Philippine mahogany.

MIL-TAC KNIVES & TOOLS 1911 AUTO TACTICAL GRIPS

GB Desert Tan TFB Black/Gray GFB Woodland Camo

Aggressive Patterns
Prevent Slippage;
Made From Nearly
Indestructible G10 &
Micarta Laminates

Fully CNC-machined from G10 fiberglass and Micarta laminates, these grips are impervious to impact, solvents, heat,

sweat, and moisture for non-degrading dimensional stability in all conditions. All models come with cutout for ambi safety. **Government Beveled (GB)** grips are machined from G10 to the standard 1911A1 configuration with beveled bottom and an aggressive diamond pattern that forms an aggressively textured gripping surface. Features a notched thumb ramp on the left panel for fast reach to the magazine release. Cutout allows access to mainspring housing pin without removing the whole grip panel. **Tactical Flat Bottom (TFB)** grips are machined from G10 with a traditional diamond checkering pattern that provides an outstanding gripping surface. Square bottom provides a proper fit for guns equipped with add-on magazine wells; covers mainspring housing pin. Includes notched thumb ramp on left panel. **Government Flat Bottom (GFB)** Micarta grips have square bottom for guns with add-on mag wells, with a cutout notch allowing access to mainspring housing pin. Wide, pronounced vertical grooves and underlying linen-like texture provide a superb grip even with wet hands, yet won't abrade the skin. No thumb ramp.

SPECS: G10 laminate or Micarta, black, black/gray speckled, desert tan, desert camo, or woodland camo. Fits 1911 Govt. model and Commander grip frames. Cut for ambi safety. **GB** - G10 laminate. A1 configuration with cutout for mainspring housing pin. **TFB** - G10 laminate. Square bottom. **GFB** - Micarta. Square bottom with cutout for mainspring housing pin.

STRIDER KNIVES 1911 AUTO SIMONICH GUNNER GRIPS

Extreme Texture For Maximum Weapon Retention In Any Condition

Aggressive, golf-ball-like texture provides maximum grip potential to help you retain your pistol in the most extreme match or tactical situations, even when the grip is wet or oily. Features hundreds of clean-edged dimples that grab like tiny suction cups. You may have seen similar-looking grips elsewhere, but only Strider is producing these high-quality grips to the original specs by agreement with Simonich Knives. Made from tough, maintenance-free, G-10 filament glass cloth/epoxy resin composite matched to the exact colors used by the U.S. armed forces. G-10's superior impact-resistance, low moisture-absorption properties, and dimensional stability over a wide temperature range mean these grips will not fail, even under the worst weather conditions. Non-tapered, cut for ambidextrous safety. 

SPECS: G-10 laminate, Ranger Green, Coyote Brown, or Black. Approximately 1/4" (6.3mm) thick. Fits 1911 Government and Commander frames.

UNIVERSAL OUTFITTERS 1911 AUTO COMBAT GRIPS

Unique Texturing & Materials For An Ultra-Secure Grip & Good Looks

Rugged grips made from advanced materials have unique, aggressive texturing patterns to provide a secure grasp on the weapon for combat or competition. Choose from lightweight, "grabby" G10 fiberglass composite or hard, non-wearing, machined Titanium for the ultimate in durability and strength. **G10** models have square-cut bottom edges, with the right-hand panel cut for an ambi safety. **Titanium** models have the inside of each panel machined out to reduce weight to approximately 3 1/2 oz. without sacrificing strength. Includes cutout for mainspring housing pin, and a cut for ambi safety with a small wall of metal at the edge of the grip. Leave the wall in place on pistols without an ambi for a neat, finished look. Simply grind away the extra metal to provide the necessary clearance for pistols with the safety. Rubber O-rings included to ensure a snug, rattle-free installation. **Lightspeed** - G10 grips with a vertical, downward radiating groove pattern. Smooth surface at the top of the grip, where you need to move your fingers to operate the controls, with a progressively rougher surface toward the bottom where you grasp the grip. **Double Diamond** - Combines modern G10 construction with the classic 1911 checkering pattern for an ultra-secure grip without abrading the hand. **Fandango** - G10 grips cut with large horizontal finger grooves for a very secure hold and an attention-getting appearance. **TiOneOn** - Titanium grips have large horizontal, front-to-back grooves, with an eye-catching holographic silver finish. **Full Checkered** - Titanium grips cut with ultra-aggressive 8 lpi checkering are ideal for operators wearing gloves. Bead-blasted for a uniform, non-reflective gray color. 

SPECS: G10 fiberglass composite, black/gray, or 6A1-4V Titanium, silver finish. Fits Government and Commander grip frames.

VZ GRIPS 1911 AUTO DOUBLE DIAMOND GRIPS

Traditional Checkering Pattern; Sharp Texture For Excellent Hold & Weapon Control

Rugged grip panels made from tough G10 fiberglass are cut with a traditional double-diamond checkering pattern to give you 1911 a classic look with the durability and superior gripping texture of modern composite materials. Prevents hand from shifting and helps maintain strong recoil control for fast, accurate followup shots. Advanced G10 laminate won't absorb moisture, resists impact, and won't expand or contract due to temperature fluctuation—perfect for all-weather operations and extreme conditions. Crisp, 20 lpi checkering and smooth, diamond-shaped raised areas around screw holes are CNC machined into the laminate, then hand-finished to ensure uniform pattern depth. The laminate's hard surface allows the checkering to be cut a little sharper to give more "bite" than traditional checkered wood grips. Features inletting for ambi safety and a square bottom with cutouts to allow access to mainspring housing pin. 

SPECS: G10 fiberglass composite, Tactical Black, Black/Desert Sand, or Brown/Black Tiger Stripe. Approximately .275" (7mm) thick. Fits 1911 Auto Govt. and Commander. Inletted for ambi safety.

VZ GRIPS 1911 AUTO "GATOR-BACK" GRIPS

Comfortable, Non-Slip MICARTA® Grip

Durable Micarta® panels provide a custom look to your 1911. Available in three Micarta® types: **Paper**, which is dense in color and very decorative; **Linen**, medium grade in toughness and durability; **Canvas**, thickest of the three with canvas threads in the milled finish for additional grip texture. All resist temperature changes and have length-wise ridges that resemble alligator back hide for a distinct look and a comfortable, non-slip grip. Available in two thicknesses to fit Government models. **Bobtail** version fits frames with bobtail mainspring housing.

VZ GRIPS 1911 AUTO VZ 320 GRIPS

Extremely Stable In All Weather Conditions; Superior Gripping Texture That Won't Snag On Clothing

Attractive, square bottom warp-proof panels of lightweight canvas Micarta laminate provide an excellent gripping surface that will not abrade or catch on clothing, making these grips the perfect addition to any carry gun. Micro CNC milling, plus a unique texturing process creates a grip texture similar to fine, 320 grit sandpaper. Laminate construction forms a resilient, solvent-resistant panel that's completely stable in all temperature and humidity extremes to maintain a custom fit indefinitely. Grips are not relieved for ambidextrous safety. **Blasted Black Canvas** is a versatile, medium gray color overall, highlighted with light gray strands of canvas. **Desert Blende Canvas** is a medium tan color with contrasting strands of light tan canvas that matches well with desert camo gear. 

SPECS: Canvas Micarta laminate, Blasted Black or Desert Blende. 3/16" (5mm) thick. Fits 1911 Auto Government and Commander models.

VZ GRIPS 1911 AUTO VZ OPERATOR'S GRIPS

Aggressive Texture For Improved Pistol Control

Durable, tactical style grips provide improved pistol control during peak shooting action. Dimensionally stable, CNC machined, square bottom panels feature moderately coarse checkering and diagonal grooving for improved grip traction. Ball-cut grooves increase the available surface area to help you resist grip rotation during recoil. Hard G10 fiberglass composite is non-reflective and meets select military requirements. **Paper Micarta** has a semi-gloss finish. Both models available in black only and are not relieved for ambidextrous safety. 

SPECS: Approximately 1/4" (6.3mm) thick. Fit 1911 Auto Govt. and Commander. **G10** - Fiberglass composite, black, matte finish. **Paper Micarta** - Micarta, black, semi-gloss finish.

BROWNELLS 1911 AUTO STOCK BUSHINGS, SCREWS & TAPS

Made to Original Factory
Specs For Easy
Replacement

The 1911 Government model auto is about as rugged as a mountain mule, but when you take the grips off to polish and rebue the critter or put on another set of grips, chances are that at least one of the stock screws will need replacing, or, worse yet, the stock frame bushing will be stripped. And, when you remove the frame bushings to get the best polishing job on the frame, you'll find yourself looking for new bushings.

STANDARD STOCK BUSHING & SCREWS

Nicely made and finished, these special-sized, blued screws and bushings are packed in sets of 4 Screws or 4 Bushings. We've also had the proper sized taps made up as well.

SPECS: Blued steel. Screws - .150"-50. Bushings - .236"-60. Taps - High speed steel. .150"-50 (screws), .236"-60 (bushings). Use $\frac{3}{32}$ " tap drill for bushing; #31 tap drill for .150"-50 screw.

10-8 PERFORMANCE 1911 AUTO U-NOTCH REAR SIGHT

Rugged Construction For Daily Carry,
Plus A Clear, Easy-To-See
Sight Picture

Fixed rear sight is precision machined from heat-hardened 4140 steel bar stock, so it withstands the wear and tear of daily carry, yet delivers a clear, precise sight picture. Perfect for concealed carry, duty, or combat pistols where a rugged, reliable rear sight is mission critical. Fully "dehorned," with rounded and chamfered edges to prevent snagging on holster, clothing, or other gear that could impede draw. Easy-to-acquire .125" high U-shaped notch aligns quickly with a wide variety of factory-height front sights, including fiber optic, tritium dot, and gold beads. Rear face of the plain black blade has 40 lpi serrations for a glare-free sight picture under almost any light conditions; front of the blade has ledge contour to aid in one-hand cocking. A hard, manganese phosphate parkerized finish that matches many tactical pistol finishes adds strength and surface wear resistance. A hidden setscrew helps anchor the sight in the slide dovetail for extra-secure mounting and resistance to shifting under recoil. **Standard/Tall** are cut to fit the popular Novak Lo-Mount-type dovetail. **Kimber** fits dovetail on fixed-sight Kimber pistols and comes with a matching .200" high front sight. All models come with wrench and instructions. May require minor fitting. **SPECS:** Steel, matte black finish. Fits Novak-style 65° x .500" dovetail. **Standard** - .325" high, available with .125", .140", and .156" wide notches. **Tall** - .375" high, with .125" wide notch, for Officers model and other short-barrel 1911s; a direct replacement for Springfield Armory factory rear sight. **Kimber** - Rear: .360" high, with .135" wide x .125" high notch. Fits Kimber fixed-sight pistols with forward-slanting factory rear sights. Fits the dovetail on pre-Series II and Warrior series pistols that came with rear-slanting sights, but will shoot high on guns with 5" barrels. Will not fit SIS series. Front: .125" wide x .200" high.

#100-004-357DH Kimber U-Notch Sight Set 1B60V79 75.99

NM U-NOTCH REAR SIGHT - National Match style rear sight combines modern features with "retro" looks. Fits the dovetail of GI-pattern 1911 pistols, including current-production Colts—no milling required. Extra-thick blade is tall enough to work with Colt .175" high front sight or same-height aftermarket alternatives. Wide .140" notch aids in easy, fast acquisition of front sight for precise targeting. Ledge on front of blade aids in one-hand slide racking.

SPECS: Steel, matte black finish. .315" high, with .140" wide x .125" high notch. Fits dovetail for GI-pattern 1911 pistols, including current-production Colts with .175" high front sight.

CASPIAN

ADJUSTABLE SIGHT

3 Styles Improve Sight Picture,
Target Acquisition, Visibility

Low profile body with rounded corners helps eliminate snagging. Serrated rear blade prevents glare and helps guide your eye to the sight. **Target** - narrow notch provides precise, open sighting for Bullseye or target competition. **Round Ghost Ring** - gives quick sight alignment for fast target acquisition. **Diamond Ghost Ring** - combines speed and accuracy in bright lighting conditions when used with fiber optic front sights. Fits the **BM-1** sight cut or the **LPA** sight cut found on Springfield, Para-Ord and others. Fully adjustable for windage and elevation.

CASPIAN FIBER OPTIC DOVETAIL SIGHT

Enhanced Sight Picture, Faster Sight Pickup

Light gathering, interchangeable green and red fiber optic rods really stand out against various target backgrounds. Improves front sight visibility, excels with ghost ring rear sights.

SPECS: Steel, matte black finish. Blade .185" high, .125" wide. **60N:** 65° x .330" x .75" dovetail. **60H:** 60° x .300" x .60" dovetail.

ED BROWN 1911 AUTO SIGHTS

Low Profile For Concealed Carry; Outstanding Sight Picture

ADJUSTABLE REAR - Low-profile rear sight replicates the dimensions and function of the proven Bo-Mar adjustable sight. Rugged design withstands the shock of full-power service ammunition—perfect for combat applications—yet provides fine adjustability to meet the needs of the target shooter. Minimal-height sight body hugs the top of the slide for faster sighting and increased accuracy. Precise click detents provide full adjustment for both windage and elevation. Combat-style blade, with fine-line serrations on the rear face, angles backward from the top to help deflect the light for a clear, easy-to-acquire sight picture in all light conditions. Deep, square-cut notch further enhances sight picture; dog-ear cuts on top corners help reduce snagging during draw. Installation requires machining, drilling and tapping of slide. Available with plain black rear blade or night sight configuration with two glowing Tritium dot inserts to aid in precise shot placement even in low-light conditions.

SPECS: Steel, blued. Body - 1.435" (3.6cm). Blade - .765" (19mm) x .425" (11mm) with .115" (plain) or .130" (night sight) wide notch. Both models fit pistols with 60° x .359" x .100" rear sight dovetail.

#087-000-050DH Adjustable Rear Sight, 7H60V84. \$ 73.99

#087-000-063DH Adjustable Rear Night Sight, 7H94V24. 109.99

FIXED - Wedge-shaped rear sight has rounded and beveled edges to reduce the chance of catching on clothing while carrying concealed. Recessed rear notch gives an outstanding sight picture for fast, glare-free sight pickup and instinctive front sight acquisition. Deeply serrated sides provide an aggressive contact area to aid in racking the slide. Available with plain black rear face (**LMC01**) or with two Tritium dots (**LMC03**) with high-visibility white outlines to get on target fast in all lighting conditions. Matching front sight, sold separately, has a single Tritium dot.

SPECS: Machined steel, matte black. **Rear Sights** - 1" (2.5cm) long, .70" (1.8cm) wide, .325" (8.2mm) installed height, .120" (3mm) wide notch. Fits Novak rear sight dovetail. **Front Sight** - .125" (3.2mm) wide, .180" (4.6mm) tall. Fits 65° x .330" x .075" dovetail. Front and rear Tritium sight dots: .100" (2.5mm) diameter, white outline.

CYLINDER & SLIDE "STRONG" FRONT SIGHT

Extra Metal Prevents Front Sight Failure;
Fits Novak Dovetail

Heavy duty front sight is over-engineered with the needs of the tactical operator in mind. Plain, black blade incorporates an integral "gusset" of reinforcing metal between the base and the blade for additional strength that helps prevent breakage. Ideal choice for pistols used during room clearing operations or close quarter battle. Fits in the standard Novak-style front dovetail cut. Pre-drilled for vertical roll pin.

SPECS: Machined steel, matte black finish. Blade - .295" (7.3mm) high, .125" (3.1mm) wide. Fits standard .330" x 65° Novak front dovetail cut. Includes stainless steel roll pin.

#206-000-044DH "Strong" Front Sight 6K22B01 . . . \$ 24.99

EGW FIBER OPTIC FRONT SIGHT

Enhanced Sight Picture In Bright Or Low Light

Interchangeable, red or green, fiber optic insert glows brightly, drawing your eye to the sight for fast pickup and improved shooting performance. Open center gathers lots of light for a bright dot. Three heights match most rear sights. **Kimber** and **Para-Ord** replace factory height blades. Fits factory dovetails.

SPECS: Steel, black, matte finish. Blade - .125" (3.2mm) wide. Models for 65° x .330" x .070", 60° x .330" x .070" dovetails, plus Kimber Classic, and Para-Ord Limited.

HARRISON DESIGN & CONSULTING 1911 AUTO HD-001 REAR SIGHT

Smooth, No-Snag Combat Sight Fits
Standard Bo-Mar Slide Cut

Rugged, solid steel fixed rear sight fits the standard Bo-Mar BMCS slide cut, perfect for converting an existing adjustable-sight 1911 to a tactical or self-defense configuration. Fully radiused edges and corners help eliminate snagging during draw from concealment, and front of blade is squared off to aid one-handed slide racking to clear jams. Deep, .135" wide notch produces a clear sight picture with more light around the front blade for faster target acquisition. Fine, 50 lpi horizontal serrations on blade rear face eliminate glare and the distorting effects of uneven ambient light. Precision machined from steel bar stock, unique two-piece design has separate base that allows mounting in both standard open BMCS cut and the "Deluxe" pocket cut. Two hardened steel screws and a hidden lug join the body to the base to ensure a rock-solid installation that will not shoot loose, even under hard use. Drift adjustable .030" left or right for windage, allowing correction of approximately 3" of error at 20 yards. Installed height is same as many popular aftermarket rear sights, so you may not need to replace your pistol's front sight. Gunsmith installation recommended.

SPECS: Steel, blued, matte finish. Body - 1.420" (3.6cm) OAL, .690" (1.8cm) wide, .500" (1.3cm) high. Notch - .135" wide x .115" high. Fits Bo-Mar BMCS (BM #1) 60 x .359" x .100" slide cut. Hex wrench and instructions included.

#100-003-572DH HD-001 1911 Rear Sight 9B72A00 \$ 90.00

HARRISON DESIGN & CONSULTING 1911 AUTO EXTREME SERVICE REAR SIGHTS

Heavy Duty Fixed Sight With Novak Or LPA Dovetail

Rugged, fixed rear sight features a precision machined Novak or LPA dovetail for easy replacement on many duty and carry guns equipped with fragile adjustable sights. Extra-wide, .135" notch provides more light around the front blade to open up the sight picture for fast target acquisition. Radiused edges prevent holster snag. 50 lpi serrations on the rear face help eliminate glare. Allen head setscrew locks sight into slide dovetail for a rock-solid sight installation that won't shoot loose. Precision machined from steel bar stock. Regulates with most factory installed front sights. Minor fitting may be required. **LPA** fits Springfield Armory, Para-Ordinance and other pistols with the LPA dovetail. Will not fit Springfield TRP Operator. **Novak** fits pistols with a Novak. 495° x 65° rear sight cut. Available in standard and extra-height Plain Black, plus 1- or 2-Dot Tritium night sight configurations. Extra-height model recommended for Officers Model or shorter slides. Does not fit Kimber, Para-Ordinance, or Smith & Wesson SW1911.

SPECS: Steel, black, matte finish. **LPA** - 1.4" (3.5cm) long, .690" (1.7cm) wide, .463" (1.2cm) high. Notch - .135" (3.3mm) wide x .115" (2.9mm) deep. Fits Springfield Armory, Para-Ordinance and others with 60° x .395" x .100" LPA sight cut. Does not fit Springfield Armory TRP Operator. **Novak** - 1" (2.5cm) long, .690" (1.7cm) wide, .325" (8.3mm) high rear blade. Extra height model has .375" (9.5mm) high rear blade. Notch - .135" (3.3mm) wide x .125" (3.17mm) deep. Fits Novak. 495° x 65° dovetail cut. Does not fit Kimber, Para-Ordinance, or Smith & Wesson SW1911.

HEINIE SPECIALTY 1911 AUTO QWIK SIGHTS

Extra Wide Rear Notch
For Fast Alignment

Classic QWIK

Classic Straight Eight

SlantPro QWIK

Fixed sights feature an extra wide rear notch that promotes fast acquisition and alignment with the front blade. Perfect for competitive shooters, as well as aging eyes that need a little more daylight around the front sight. Wedge-shaped body sits low in the slide and has rounded edges to promote a smooth, snag-free draw from concealment or competition holsters. All QWIK sights feature fine-line serrations on the rear face and a plain, matte black finish to eliminate glare for excellent contrast and a crisp sight picture in bright light. Available as a front/rear set or rear sights only, in three of Heinie's most popular configurations. **Classic™** model is popular with many IPSC competitors and has a rear face that angles 1-2 degrees to the rear at the top to cut glare. **SlantPro™** rear sight face slants slightly forward with rounded corners on the front face for easy draw. Both available in plain black or **Straight Eight® Night Sight** configuration with Trijicon® self-illuminating green Tritium inserts that provide an easy-to-acquire sight picture in low light. Tritium dot on the front sight aligns vertically with the single dot on the rear in a distinctive, elongated figure eight pattern.

SPECS: Steel, matte black finish. Dovetails are cut .002"-.003" oversized to allow custom fitting. Front Sights - .300" x 60 degree dovetail. Heights vary to regulate properly with rear sight. Rear Sights - .375" x 65 degree dovetail. Notch: .156" wide x .120" deep.

HIVIZ KIMBER 1911 AUTO INTERCHANGEABLE FIBER OPTIC FRONT SIGHT

Improves Visibility
With Interchangeable Red,
Green & White Rods

Advanced fiber optic sight maintains perfect sight/target contrast in all shooting conditions by allowing you to easily interchange fiber optic rods at any time from red to green, or to a solid white color as lighting conditions change. Innovative sight base uses a locking spring to keep the LitePipe secure, while allowing interchangeability in the field with the provided key. Streamlined, no snag design helps prevent holster catch that can slow down your draw. Fits Kimber 1911 dovetail and regulates with the original factory rear sight. Includes rods, carrying case, and key for interchanging the rods. Gunsmith fitting is recommended. **USA**

SPECS: Steel, black, matte finish. Includes (3) red, (2) green, (1) white rod, carrying case, and key. Overall Sight Dimensions - 3/4" (19.1cm) long, 1/8" (3.2mm) wide, .186" (4.72mm) high from top of slide. LitePipe - .092" (2.3mm) diameter. Requires 60° x .330" x .075" dovetail. Will not fit Kimber .22 rimfire.

#638-000-082DH Kimber Interchangeable Sight, 8C23X86. \$ 37.75

KENSIGHT 1911 AUTO ADJUSTABLE NIGHT SIGHT

Glowing Tritium Lamps Maximize
Sight Visibility In Low Light

Genuine, Trijicon, green Tritium lamps feature polished quartz lenses for improved sight recognition in low light, plus appear as white dots for enhanced sight acquisition in bright sunlight as well. Sight bodies are EDM machined from 4140 steel, then heat-treated to Rc 38-40 and vacuum tempered to retain the extra-tight tolerances. Features precise click-adjustments for consistent changes in windage and elevation. Fine line serrations on rear blade surface cuts light reflection to enhance sight pick up.

SPECS: 4140 steel, blue, matte finish. .076" (1.9mm) diameter Tritium lamps. **BM #1** retrofits pistols modified to accept the Bo-Mar BMCS rear sight. **LPA** fits Springfield Armory, Para-Ordnance, and Charles Daly 1911 Autos using the LPA TRT dovetail. **Kimber Adjustable** fits Kimber models with adjustable factory rear sight. **Elliason** fits Colt Gold Cup, Officer's Model Match, Ace, and others originally fitted with either Accro or Elliason sights.

KENSIGHT 1911 AUTO CLASSIC TARGET SIGHT

Wire EDM Produced For Precision
Fit & Function

Provides consistent accuracy through better production methods. Electro-discharge machined from 4140 steel, heat-treated to Rc 38-40, then vacuum tempered to help retain these tolerances for many years to come. One-piece blade is cut from solid steel barstock, so it won't fly apart when your shot matters most. Consistent, click-adjustable detents for windage and elevation give precise repeatability. All models feature a serrated blade for better target recognition and a rebated square notch for improved, "shadowless" front sight definition. **BM #1 Deep Notch** features a .020" deeper sight notch and finer surface serrations than standard model for easier front sight acquisition. **LPA** fits the LPA sight cut found on Springfield Armory, Para-Ordnance, Nowlin, High Standard, Olympic Arms, and Charles Daly 1911 Autos with factory-installed adjustable rear sights. **White Dot** models have rounded corners like the old Bo-Mar combat style adjustable sight, and features two, white, .070" (1.8mm) diameter dots, one on each side of rear notch.

SPECS: 4140 steel, blue, matte finish. Blade - .750" (19mm) wide, x .430" (10.9mm) high. Notch - .100" (2.5mm) deep (except BM #1 Deep Notch and LPA). .135" wide. **LPA** - Notch is .115" wide x .095" deep. **BM #1 Deep Notch** - Notch is .135" wide x .120" deep.

KENSIGHT COMBAT CARRY ADJUSTABLE REAR SIGHT

Rounded Blade Edges Won't Snag
On Clothing Or Holsters

Enjoy the accuracy of a fully adjustable, competition-style rear sight in a package suitable for daily carry. Beveled edges on sight body and radiused corners on blade minimize chances of snagging on clothing or holster. Blade, sight body, and base are EDM-wire machined from high-grade, 4140 billet steel, then heat-treated to Rc 28-32 to retain the extra-tight tolerances. Front hinge pin is hardened to Rc 60 for reliable, long-lasting service without breakage. Fine serrations on the rear sight blade surface reduce light reflection to enhance sight pick up in all light conditions. Consistent, click adjustable detents for windage and elevation provide precise, repeatable settings.

SPECS: 4140 steel, blued, matte finish. **BM #1** - Fits pistols with the Bo-Mar BMCS rear sight dovetail. **BM #1 Oversized** - Dovetail is .010" oversized to allow custom-fitting in loose Bo-Mar BMCS slide cuts. **LPA Cut 1911** - Fits Springfield Armory, Para-Ordnance, Nowlin, High Standard, Olympic Arms, and Charles Daly 1911 Auto pistols with the LPA slide cut for adjustable sights.

KENSIGHT DEFENSIVE SIGHTS

Low Profile,
No-Snag Design
For Self Defense Pistols

No sharp edges to drag on holsters or snag clothing because these low profile sights are designed specifically for concealed carry. EDM machined from 4140 steel, then heat-treated to Rc 38-40 and vacuum tempered. Fully Adjustable (**Adj.**) models are click-adjustable for windage and elevation. Elevation Adjustable (**Elev.**) model provides the consistency of click adjustment for elevation only. Fixed (**Fxd.**) models feature no adjustments for maximum reliability and simplicity preferred by many shooters. White Dot (**WD**) model features two white, ABS plastic .070" (1.8mm) diameter dots, one on each side of rear notch. Tritium (**Trit.**) versions feature dual, self-luminous, .076" (1.9mm) diameter, green Tritium dots on both sides of the rear notch for improved sighting in low light conditions. Serrated (**Sert.**) models feature fine line serrations on the rear surface of the sight. Available to fit Novak-style dovetail.

SPECS: 4140 steel, blue, matte finish. Fits Novak-style 65° x .495" dovetail cut.

MEPROLIGHT DAY/NIGHT SIGHT

FOR POPULAR HANDGUNS

Always "On"; No Batteries, No Charging

Really "shines" when other sights are useless. No switch to turn on, no batteries to wear out. Both front and rear blades have their own green tritium gas light source and provide a green/green, 3-dot sight picture. Unaffected by weather, gun solvents or oils. Used by NATO, U.S., and Israeli armies. Also ideal for law enforcement and others requiring accuracy in low-light conditions. Contains both front and rear sights. Rear sights replace the original rear entirely. Front sights replace the original. The factory warranteees TRU-DOT sights to the original purchaser for twelve years.

SPECS: Blued steel with tritium inserts. Sights marked Adj. fit guns originally equipped with factory, adjustable sights. Sights marked Fxd. fit guns originally equipped with factory, fixed/non-adjustable sights. S&W models will NOT fit guns originally equipped with plastic sights.

NOVAK 1911 AUTO ADJUSTABLE EXTREME DUTY SIGHTS

Low-Profile Mounting; Fully Adjustable

CNC-machined, steel, rear sight with Novak's famous, low-profile design and the added versatility of elevation and windage adjustments. Set screw allows drift adjustment for windage; elevation screw positively stops and audibly clicks for easy fine-tuning. Smooth, contoured edges have less chance of catching or snagging. Front sights are CNC-machined, steel and mount in factory dovetail. Available in Plain Black, White Dot, and Tritium Dot for Colt and clones, Kimber, and SW1911 pistols.

SPECS: CNC-machined steel, black, matte finish. **Front (F)** and **Rear (R)** sights available in Plain Black (**PB**), 2-Dot White (**WD**), and 2-Dot Tritium (**TR**). **Rear Dimensions:** 1" (2.54cm) long, 1/2" (13mm) high, 3/4" (19mm) wide. Requires matching of slide. Colt and Kimber rear sights regulate properly with .225" high front sights. SW1911 rear sights regulate correctly with .305" high front sight.

NOVAK 1911 AUTO LO-MOUNT WIDE NOTCH REAR SIGHT

Clear Sight Picture, Fast Target Acquisition

.140" wide notch provides more light around the front sight than standard .125" notches for a clear sight picture and fast target acquisition. Helps aging eyes see front sight more easily, and aids in engaging targets swiftly in combat or competition. Lo-Mount design has angled top surface with mitered edges that won't snag on holsters or clothing. Rebated blade fights glare. Three styles available to fit your specific needs: plain black, white dot, and 2-dot Tritium for superior, low-light visibility.

SPECS: Steel, matte black finish. 1" (25.4mm) long, .72" (18.3mm)

NOVAK FIBER OPTIC SIGHTS

Maximizes Available Light For Fast,
Low-Light Sight Acquisition

Advanced light gathering properties of fiber optic rods make maximum use of ambient light to provide a bright glow that stands out against dark backgrounds and puts you on target fast, even in low-light or high-stress situations. Fronts and rears sold separately, so you can create a custom, three-dot, fiber optic system tailored to your shooting needs. Available with red or green inserts. Lo-Mount rear sights have radiused edges that won't snag on holster or clothing. Front sight can also be used with Novak's plain, wide-notch rear. Colt rear sight fits Government model; requires milling, installation instructions included. S&W rear sight drops in; fits both Commander and Government models. Kimber and Taurus front and rear sights are the same height as factory sights and fit factory dovetails; no machining required.

SPECS: Machined steel, matte black finish with fiber optic rods in red or green. **Colt** — Front: Blade is .64" (1.6cm) long, .127" (3.2mm) wide. Rear: 1" (2.5cm) long, .72" (1.8cm) wide, .46" (1.17cm) high, with .125" (3.2mm) wide notch. Fits Government model; milling required, instructions included. **Kimber** — Front: Red insert. Blade is .650" (16.5mm) long, .125" (3.2mm) wide. Available in .150" (3.8mm) and .175" (4.4mm) heights. Rear: Green inserts. 1.080" (2.7cm) long, .704" (1.8cm) wide, with .125" wide notch. Fits factory dovetails of Kimber 1911 pistols; minor fitting may be required. **S&W** — Front: Blade is .47" (1.19cm) long, .127" (3.2mm) wide. Rear: .94" (2.4cm) long, .69" (1.8cm) wide, .38" (9.7mm) high, with .122" (3.1mm) wide notch. Fits Government and Commander models. **Taurus** — Front: Red insert. Blade is .66" (1.7cm) long, .123" (3.1mm) wide, .150" (3.8mm) high. Rear: Green inserts. .76" (1.9cm) long, .625" (1.6cm) wide, with .135" (3.4mm) wide notch. Fits Taurus 1911 pistols; minor fitting may be required.

NOVAK 1911 AUTO TRITIUM REAR SIGHT

No-Snag Shape, Low-Light Visibility

Two, glowing Tritium dots help you see the sight in low-light conditions. **Competition** has a plain, target-style, undercut blade with protected notch. Hangs over the rear of the slide and extends sight radius for quicker, more precise sighting. **Lo-Mount** has an angled top surface with mitered edges that won't snag on holsters or clothes. Rebated blade fights glare. **Wide Notch (WN)** has enlarged, .140" wide notch to provide more light around the front sight for a clearer sight picture and faster target acquisition. Helps aging eyes see front sight more easily.

SPECS: Machined steel, matte blue finish. .125" (3.1mm) wide notch. **Competition** fits factory 65° x .330" dovetail. **Lo-Mount** requires milling of slide, use 65° x .495" dovetail cutter. **Wide Notch (WN)** has .140" (3.6mm) wide notch.

NOVAK TAURUS 1911 X-MODEL TRITIUM SIGHTS

Clear, Fast Sight Picture
In All Light Conditions;
Low-Profile, No-Snag Shape

Low-profile, fixed sights for Taurus 1911 have Tritium inserts that glow in low light, so you can see the sights clearly under all conditions. Same height as original factory sights, and cut for drop-in fit to factory dovetails—no machining of slide required. Rear sight has two dots, one on each side of the notch; front sight has one dot. Wide notch in rear sight provides more light around the front sight for a clearer sight picture and faster target acquisition. White circles around the inserts further enhance visibility in daylight conditions, while rebated rear blade helps prevent glare in bright light. X-Model design with sloping top surface, rounded corners, and beveled edges that won't snag on clothing or holster—perfect for concealed-carry or tactical use. Purchase together to give your pistol an advanced three-dot night sight system or mix with other Novak sights to create a sight system customized to your shooting needs.

SPECS: Machined steel, matte black finish, with Tritium inserts. Fits Taurus 1911 pistols; minor fitting may be needed. **Front** - .610" (1.5cm) long, .125" (3.2mm) wide, .150" (3.8mm) high. **Rear** - .80" (2cm) long, .625" (1.6cm) wide, with .135" (3.4mm) wide notch.

NOVAK 1911 AUTO X-MODEL REAR SIGHTS

Rugged, Fixed Combat Sights With Aggressive Low Profile; Four Styles Available

Fixed rear sight combines the low profile of Novak's popular Lo-Mount sights with a wide notch for fast sight alignment and easy target acquisition. A forward-canting, horizontal ridge on the front of the blade aids in one-handed slide racking and gives your pistol a uniquely aggressive appearance. Non-serrated, recessed rear face with .145" wide notch guides your eye quickly to the front sight. Rugged, precision-machined steel construction handles the rigors of tactical operations and daily carry. Smooth, rounded corners and beveled edges minimize risk of catching or snagging. Fits an existing Novak dovetail without alteration; Colt factory dovetail requires milling for proper fit. Available in four styles, all with non-glare matte black finish. **Plain Black (PB)** for a clean, traditional sight picture; **White Dot (WD)**, with a highly visible dot on each side of the rear notch; and two models with self-illuminating Tritium inserts. **Tritium Dot (TD)** has the same dot pattern as WD, and **Tritium Bar (TB)**, has a .145" long horizontal Tritium bar under the notch. **USA**

SPECS: Steel, matte black finish. Works with front sights .175" to .200" high. Fits standard Novak .495" x 65° dovetail.

PSI 1911 AUTO TTF ADJUSTABLE FIBER OPTIC SIGHT SET

Easy-To-See Sight Picture In All Light Conditions; Click Adjust For Windage & Elevation; Drop-In Installation

Drop-in replacements for factory front and rear sights use true fiber optic technology to give the shooter maximum sight illumination for easy target acquisition in full daylight or low-light conditions. Three-dot system, with two green dots on the rear sight and red dot on the front, helps ensure a fast, accurate sight picture in competition or combat shooting. Rear sight click adjusts for windage and elevation using the handy adjustment tool or slotted screwdriver to turn the hardened steel adjustment screws. Bright, white index markings on the top of the sight aid in selecting accurate windage setting. Sleek, practical, low-profile design with chamfered and radiused edges won't snag on clothing or other gear. Precision machined to exact dimensions from solid steel billet for strength and durability. Designed for solid, secure fit in existing factory slide cuts to prevent movement and shifting of zero under recoil.

SPECS: Steel, matte blue finish. Set includes front and rear sights, adjustment tool, Allen wrench, spare fiber optic rods, and instructions. **TTF45CT** fits Colt 1911A1 with narrow-tenon (.051") front sight. **TTF80CT** fits Colt Series 70/80/90 pistols with wide-tenon (.125") front sight.

STI ADJUSTABLE REAR SIGHTS

Low-Profile, Easy Carry; Precise Sight Picture With Full Adjustability

Precision-machined steel rear sights give ideal sight picture for target or carry, with low profile and rounded contours that resist snagging. Flush-mounted, positive-click windage and elevation screws won't get knocked from your selected settings. Flat blade with anti-glare serrations and wide notch provide a clear, fast sight picture that is easy to acquire under stress. **Adjustable** sits low on the slide for quick alignment, yet provides a precise sight image. Fits Bo-Mar BMCS slide cut. **Tactical Adjustable** combines the adjustability of a target sight with the compact, snag-free profile of a fixed tactical sight that fits a standard Novak rear sight slide cut. Beveled and rounded edges won't catch on clothes when drawing or holstering. **USA**

SPECS: Steel, matte black finish. Installation may require milling, drilling, and tapping of slide. **Adjustable** - Blade: .434" (11mm) high, .762" (19.3mm) wide. Notch: .110" (2.8mm) wide. Fits Bo-Mar BMCS (BM#1) 60° x .359" cut. **Tactical Adjustable** - Blade: .325" (8.3mm) high, .690" (17.5mm) wide. Notch: .110" wide. Fits Novak 65° x .495" slide cut.

TRIJICON® TRITIUM HANDGUN SIGHTS

Low Light Handgun Sights Without Batteries

Nighttime and low light shooting tests prove sights equipped with these glowing dots are easier to see and more accurate than instinctive shooting with standard black sights. Rugged, heavy duty, Traser®, luminous, 3-Dot tritium lamps provide their own long-lasting energy source. Lamps are mounted in silicone-sealed, metal cylinders to give maximum protection from breakage or leakage. Polished sapphire, crystal windows give a bright, crisp and perfectly round aiming dot in low light. Inlaid white rings around each sapphire make the sights appear as standard white dots in daylight. Very narrow blades do not have the white ring and will look more like a plain black blade in daylight. Most can be installed in factory dovetail or sight base. Tenon, staked, 1911 models require use of special Trijicon installation tools to prevent sight damage. **USA**

SPECS: Steel, blued with tritium inserts. Sights listed as **Adj.** are adjustable sights to fit guns originally equipped with factory, adjustable sights. Sights listed as **Fxd.** fit guns originally equipped with factory, fixed sights. **Kimber** fits Polymer Custom, Polymer Stainless, Pro Carry, Pro Carry II, Ultra Carry, Compact, Pro Eclipse II, and Ultra 10. **Para** - Fits Para-Ordinance.

WARRENTACTICAL 1911 AUTO TACTICAL SERIES SIGHTS

Gets You On Target Fast; Plain Black & Fiber Optic Models

Streamlined, all-steel sights fit low on the slide to resist snags that can impede the draw. Provide fast front sight recognition and enhanced field-of-view for quick target acquisition under stress—excellent for concealed carry or tactical competition. Rear sights are drift-adjustable for windage, with a locking setscrew to stay put. Some fitting may be required to install all these sights. **Front Sight** is available with a black, serrated rear face for reduced glare or interchangeable, bright red or green fiber optic rods for enhanced visibility in all light conditions. **Sevigny Competition** rear sight fits the popular Novak slide cut and features a square notch, rear face angled slightly back to eliminate glare, and nominal 1/8" radiused corners to help prevent hang-ups during the draw. Plain black finish without distracting points, edges, or serrations provides excellent contrast in bright daylight. Available alone or in set with plain or fiber optic front sight. **Tactical** rear sight for Smith & Wesson SW1911 has patent pending, "Wave Profile" contour with cut-out, concave outer corners to ensure a smooth, snag-free presentation. The U-shaped notch provides an extra wide field of view to help you find the front sight fast. Available alone or in a set with red/green fiber optic front sight. **USA**

SPECS: Hardened steel, matte black finish. **Front Sights** - Standard serrated rear face (**Std**) or Fiber optic (**FO**) with two interchangeable light rods, 1 red and 1 green, 2" long x .040" dia. **Sevigny** - Requires Novak .500" x 65° slide cut for installation. Front Sight - .175" high x .115" wide. Rear Sight - .165" wide notch. **Tactical** - Front Sight - .165" x .115" wide. Rear Sight - .150" wide notch. Fits Smith & Wesson SW1911 only.

1911 AUTO

EXTREME SERVICE REAR SIGHTS

Heavy-Duty Fixed Sight With Novak Dovetail, Plain Black & Tritium Models

Rugged, fixed rear sight features a precision machined Novak dovetail for easy replacement of your factory sight with a combat sight suitable for duty or carry. Extra-wide, .135" notch provides more light around the front blade to open up the sight picture for fast target acquisition. Precisely milled, horizontal 50 lpi serrations on the rear face help eliminate glare in bright light. Allen head setscrew locks sight into slide dovetail for a rock-solid installation that won't shoot loose. Precision machined from steel bar stock. Regulates with most factory installed front sights. Machined from solid steel bar stock with radiused edges that help prevent holster snag for a smooth, uninterrupted presentation. Minor fitting may be required. Available in standard and extra-height Plain Black, plus 1- or 2-Dot Tritium night sight configurations. Extra-height model recommended for Officers Model or shorter slides. Does not fit Kimber, Para-Ordnance, or Smith & Wesson SW1911.

SPECS: Steel, black, matte finish. 1" (2.5cm) long, .690" (1.7cm) wide, .325" (8.3mm) high rear blade. Extra height model has .375" (9.5mm) high rear blade. Notch - .135" (3.3mm) wide x .125" (3.17mm) deep. Fits Novak .495" x 65° dovetail cut. Does not fit Kimber, Para-Ordnance, or Smith & Wesson SW1911.

BROWNELLS®

ALLCHIN

C-MORE COMP MOUNT

Lightweight & Rigid

Single side design helps eliminate ejection interference. Front deflector shield protects the lens from blast residue. Mounts on the dust cover using C-More hole spacing; two additional holes give increased support. Includes a removable thumb rest. Accepts C-More, Glock, slide-ride mount and Weaver-style rails. **SPECS:** Aluminum, matte finish. 4.5" (11.5cm) long. 1.7 oz. (48 g). Includes screws and instructions. Gunsmith fitting recommended. **#005-100-000DH C-More Comp Mount, 5K69Y10..... \$89.99**

GO GUN GAS PEDAL™
COMPETITION THUMB REST

Improves Recoil Control On Guns With C-More Scope Mount

Milled aluminum thumb rest helps you control recoil on a USPSA "Open" Class or other pistol fitted with a C-More scope mount. Helps you reduce muzzle flip so you get back on target faster. Ridged contact area is large enough for even the biggest thumb and angled to provide a comfortable, natural thumb position for excellent control during competition. Pre-drilled mounting holes are spaced to let you position the pedal to fit your shooting style. Gunsmith installation recommended. **SPECS:** Aluminum, natural finish. 3 1/8" (8cm) long, 1" (2.5cm) wide, 1 1/4", (3.2cm) tall. 1 oz. (28g) weight. Includes mounting screws and instructions.

ALESSI 1911 AUTO HOLSTERS Super-Fitting, Handmade, Top-Grade Gunleather That'll Last A Lifetime

Each holster is individually handmade from top-grade leather for a superb made-for-your-gun fit you can depend on. They look great, last a lifetime, and are available in a variety of styles to fit your pistol and your style of carry. Meticulously hand-fitted to the contours of the gun to ensure secure retention, with a molded sight channel that protects the front sight and the holster from unwanted wear. All materials made in the USA. Requires no break-in. Nylon thread stitching with double-stitched stress points and back-tacked ends for years of service.

SPECS: Top-grade leather, black only. Fits belts up to 1 1/2" wide. Right-hand carry only.

CQC-S HOLSTER - Features a slight forward cant for ease of presentation. Designed to be worn on the outside of the waistband just behind your hip in front of your rear pocket. Snap-closure belt loops on both sides help prevent twisting, and let you install the holster without taking off your belt. Reinforced on the front face for added stiffness and easy re-holstering.

BLACKHAWK INDUSTRIES 1911 AUTO CQC™ & TACTICAL HOLSTERS

Lightweight, Durable & Fast To Use; Choose Level 1 Or Level 2 Retention

Injection molded from advanced carbon fiber nylon composite to provide maximum strength, with minimal weight. CQC models have a contoured paddle for waist belt mounting. Tactical models mount directly to the right thigh for unrestricted access. **CQC Standard (STD)** features a close friction fit, tension-adjustable, passive retention system for Level 1 requirements. **CQC SERPA** features adjustable tension with an index finger-actuated, Level 2 retention system that will not release the triggerguard until you press on the lock while you draw. CQC models can be mounted using the belt loop or separate paddle attachment for added versatility when duty requirements change. Paddle and belt loop are lock-adjustable for forward and rearward cant. **Tactical SERPA** includes the same finger-actuated, Level 2 retention system as the CQC SERPA holster. Advanced thigh holster attaches to the right leg directly below the waist belt to keep your pistol within easy reach and always at the ready. Features adjustable tension with an index finger-actuated, active system that won't release the triggerguard until you press on the lock while you draw. Length adjustable, upper and lower leg straps are built from heavy duty, nylon elastic webbing and provide a firm, secure fit around your thigh. Quick-release buckles allow easy removal and installation. Dual top straps use hook-and-loop fastener for easy installation around the waist belt and include quick-release pull tabs for fast removal. Innovative polymer swivels allow the holster to pivot when sitting-down, without pinching or binding. All models feature a fully covered trigger guard for added safety, with a cutout trailing edge for maximum clearance during presentation. Adjusts to fit belts up to 1 1/2" (4.1cm) wide. 

SPECS: Injection molded carbon fiber impregnated nylon, matte black finish. Adjusts to fit belts up to 1 1/2" (4.1cm) wide. Fits Govt. 1911 Auto. Right hand only. CQC - Paddle attachment. 4 oz (113g) weight. Tactical - Thigh pad, polymer buckles, nylon elastic webbing. 20.5 oz (581g) weight.

BLADETECH 1911 AUTO BLACK ICE HOLSTER

Secure Weapon Retention & Fast Draw

Lightweight Kydex® competition holster has a broad "speed-cut" front opening that lets the gun clear the holster fast, even when you draw from a seated position. Enables quick rotation of the muzzle forward, toward the target, eliminating sideways movement during the draw that can endanger bystanders. Tall sight channel provides plenty of clearance for aftermarket night sights or fiber optic sights. Triggerguard tension lock ensures the weapon stays in the holster until you draw it. Tough, chemical- and wear-resistant Kydex holds its shape indefinitely and provides a super-slick, snag-free interior surface that aids a fast draw. Dual tension screws let you fine-tune the level of retention. Adjusts for three optional carry angles: straight drop, muzzle forward, or FBI cant. Adjustable **Tek-Lok** belt clip gives a choice of high- or low-ride on hip. Hinge pin and locking tab make it fast and easy to unclip from belt. **ASR** attachment system pulls gun closer to the body for better concealment.

SPECS: Thermoformed Kydex, black. Right-hand only. Fits full-size 1911 Government Model. **Tek-Lok** fits belts up to 2¼" (5.7cm) wide. **ASR** fits belts up to 2" (5.1cm) wide.

BLADE-TECH 1911 AUTO IDPA COMPETITION PAK

Perfect For Practical
Shooting Competition
Or Daily Carry;
IDPA Approved;

Convenient kit has the belt gear you need to get started in practical shooting competition, plus the versatility to serve for daily carry, too. The IDPA-approved, custom-fit belt holster is heat-molded to fit your gun model from strong, flexible Kydex® thermoplastic acrylic polyvinyl chloride sheet. With a tough outer surface highly resistant to abrasion, Kydex retains its shape in extreme environments, does not squeak, and is impervious to solvents and oils—perfect for a hard-working competition holster. Twin tension screws and rubber spacers let you set the right retention force to keep your gun securely holstered and still have smooth presentation. Adjustable Sting Ray belt attachment system pulls the gun closer to the body, aiding concealment and maintaining a consistent position for fast draw during competition. May be positioned in straight drop, grip forward (FBI cant), or muzzle forward positions. Install the injection-molded paddle attachment (screwdriver required) to convert to a compact, concealable configuration for daily carry. Wide, curved paddle conforms to body and has a lower profile for better concealment. Flared base adds stability and prevents unwanted rocking motion when worn with a belt. Allows the same three angles as belt mount configuration; fits belts between 1¼" and 2¼" wide. Tough, shock-resistant, injection molded polymer magazine pouch with adjustable belt loop holds two spare mags at the ready, in easy reach for fast reloads when fractions of a second count. Single screw adjusts friction fit to prevent magazines from rattling or falling out when running. Separate models for Govt/Commander and Officers Model.

SPECS: Holster—Kydex, black. Pouch & Paddle Attachment—Injection-molded polymer, black. All items fit belts up to 2¼" wide. For right-handed shooters only.

BLADE-TECH INDUSTRIES KYDEX® HOLSTERS & POUCHES

Comfortable, Simple, Secure; Impervious To Wear

Kydex provides long-lasting weapon retention, plus it stands up to the harshest environment, does not squeak, and it's impervious to solvents and oils. Tension screws allow you to adjust retention. All models include reducers for 1½" and 1¾" belts.

STANDARD HOLSTER - Paddle model has three-way adjustment for carry angle, FBI cant, straight drop and muzzle forward. Wide, comfortable paddle with adjustable retaining keeper holds the holster to the waistband. **Belt** model has straight-up carry angle, provides fast draw and close, comfortable carry. IDPA approved.

SPECS: Kydex, black. Fits belts to 1¾" (4.4cm) wide. Fits Colt-style slides. Oversize, aftermarket slides may not fit.

HOGUE SEMI-AUTO UNIVERSAL POWERSPEED™ HOLSTER

Maximum Retention; Releases Instantly
For A Lightning-Fast Draw

Modular holster securely retains your pistol, then releases instantly as you draw. Exclusive design uses three, extremely powerful rare earth magnets to hold almost any semi-auto pistol snugly on the support platform ready to draw. Separate locking mechanism secures the triggerguard in your choice of two levels of retention. Fully-Locked or Semi-Race; releases instantly with just a light push from the thumb as you draw. Disengage the lock for a completely unimpeded draw in full-race situations. Made from lightweight, unbreakable, resin impregnated plastic. Holster is fully adjustable for width at triggerguard, height of draw and left- or right-hand carry. Includes two belt mounts: Competition/Duty is adjustable for cant and angle, fits belts 1½" (3.8cm) to 3" (7.6cm) wide; High Rise fits 1½" wide belts and is designed for concealed carry.

SPECS: Plastic, black 7.2 oz. (202 g) wt. Fits most full-size, semi-auto pistols with steel slides and a minimum barrel length of 3½".

Secure, positive-locking buckle of tough molded-polymer has extra lock button that must be depressed as you squeeze the side prongs to release the buckle. Virtually eliminates the danger of accidentally opening the buckle and dropping the holster. Strap made of the same super-tough nylon webbing as the original strap that

SAFARILAND 6004 TACTICAL HOLSTER

Lightweight, Rugged,
Secure Weapon Retention & Protection

Thermal-molded laminate holster protects pistol from dents and dings, and ensures retention in the most demanding tactical situations. Self Locking System (SLS) releases the weapon when you push down on the thumb lock and rotate hood forward; pulling up on the gun's grip without releasing the lock actually makes weapon more secure. With no cumbersome snaps to release, SLS design allows a smoother draw, protects weapon from attempted seizure, and is less likely to release accidentally. Molded sight track and suede liner protects sights and finish. Attaches to duty belt and secures to leg with a double strap and contoured shroud system for added comfort and stability. Setscrew allows adjustment for optimal retention force. Available in **Black, Dark Earth and Foliage Green** to match common camo colors.

SPECS: Safari-Laminate™, nylon, ABS plastic, Black, Dark Earth, or Foliage Green. Fully lined. Right-hand only. Holster must be worn with belt up to 2¼" (5.7cm) wide. Fits full-size 1911.

SAFARILAND 1911 AUTO 6304 TACTICAL HOLSTER

Strong, Lightweight & Adjustable;
Dual Quick-Release Retention Systems

Rugged, lightweight, thermal-molded laminate holster securely retains your pistol during the most strenuous tactical maneuvers and prevents seizure by unauthorized personnel. Dual quick-release locking systems ensure that you—and only you—can access your weapon. The Self Locking System (SLS) prohibits access until you push down on the thumb lock and rotate the protective hood forward. Upward force on the gun's grip without releasing the lock actually makes the weapon more secure. Hood also serves as a hammer blocking device on a pistol carried in Condition 1. In addition, the Automatic Locking System (ALS) automatically grips the gun from the inside every time you holster it. After releasing the SLS, your thumb is positioned to pull back on the ALS release lever and complete a straight-up draw that is natural, smooth, and faster than traditional snap-and-strap systems. The hood guard at the front of the holster further blocks unauthorized access by another person but won't interfere with your access to the controls. Nearly indestructible Safari-Laminate™ is thermal molded to encase the gun and protect it from impact, while the molded sight track and soft suede lining protect sights and finish. Setscrews allow adjustment retention force to prevent movement of gun when walking or running. Adjustable vertical strap mounts to any width duty belt, and a hook-and-loop system lets you set the exact holster height you want. A contoured leg shroud with two adjustable straps secures the holster to your leg for maximum stability and comfort.

SPECS: Safari-Laminate™, nylon, ABS plastic, with suede lining, black. Fits full-size 1911 with 5" barrel. Right hand only.

SAFARILAND 1911 AUTO 77-53 DOUBLE MAGAZINE POUCH

Secure Magazine Retention & Protection From The Elements

Rugged pouch made of incredibly tough, abrasion-resistant synthetic material securely holds two spare magazines at the ready for fast tactical reloads. Individual snap-flaps let you access one mag while leaving the other one secured in its compartment. Designed specifically for use with the Safariland 6004/6005 Tactical Thigh Holster system, but will fit any 2 1/4" belt. Injection-molded polymer and heat-fused polymer laminate construction provides snug fit, with adjustment screw for extra secure retention. Inside of pouch back and flaps is covered with a thin layer of Safari-Suede™ to protect magazine finish and absorb oils and lubricants. Tough STX Tactical™ exterior finish blends well with other tactical and duty gear, repels water, and resists scuffs and nicks, yet looks good through years of hard use. Will not absorb water or sweat, and cleans up easily with water and mild soap.

SPECS: Molded and heat-laminated polymers, black. Fits magazines for Colt 1911 Government Model, Commander, Officers, and clones including Kimber and AMT Hardballer. Also fits H&K P7/P7M8, Sig P220, and S&W 39/3904/3906/4013/4053/439/639/909/CS9. Fits belts up to 2 1/4" wide.

SOFT ARMOR 1911 AUTO HOLSTERS

Lightweight Nylon Holsters For A Variety Of Carry Styles

Compact, lightweight, and versatile nylon holsters for concealed or duty carry. Rugged 600 denier nylon outer shell with foam padding underneath cradles the gun and ensures comfortable all-day carry. Soft tricoat lining protects gun's finish and aids in a smooth, fast draw. Snap-closure thumbbreak nylon retention strap keeps your pistol secure when you're on the move, yet allows easy access for the draw.

Jaguar Hip Holster offers built-in belt loops on both sides for traditional open carry on either hip. **Compak Shoulder Holster** features a wing-style harness that distributes weight evenly across the shoulders for all-day comfort. Remove the harness to convert into a hip holster. **Compak Leg Holster** is a tactical holster designed to be worn on the thigh, out of the way of body armor and rappelling gear, while preserving quick access to the sidearm. A quick-detach harness suspends it from the belt, while two wide straps keep the holster securely positioned on the leg. Right hand only. **SPECS:** 600 denier nylon, black. Fits full-size 1911 Govt. model.

SPECTER GEAR TACTICAL THIGH HOLSTER

Multiple Adjustments For Comfort; Securely Retains Your Handgun & Magazine

Heavy-duty pistol holster offers almost infinite adjustability for correct fit and increased wearing comfort. Multiple adjustment points safely and securely retain your handgun at the recommended mid-thigh level for tactical duty applications.

Fully adjustable, double leg straps are made with durable, 2" wide nylon webbing with interwoven rubber stitching to prevent shifting during use. Dual, quick-release side buckles with elastic inter-loops evenly distribute weight for less fatigue and expansion of the leg straps during movement. Triple routing channels for the attachment straps provide a perfect fit for all users. Vertical hanger strap with quick-release buckle is constructed of three layers of 2" wide webbing with a full length hook-and-loop pad for up to 6" of vertical drop adjustment. All stitching and seams are sewn with either #69 or #92 mil-spec nylon thread; high stress points are quadruple stitched for added strength. Adjustable hammer retention strap with additional security release flips clear with minimum thumb pressure, yet securely retains your pistol even when low crawling or rappelling. Includes single mag pouch located at the front of the holster.

SPECS: Ballistic nylon w/ 1000 denier cordura nylon outer shell, black. Approx. 1 lb. (.5 kg) weight. Available in right hand (RH) or left hand (LH). Fits 5" 1911 Govt.

— TUFF 1911 AUTO "IN-LINE" MAGAZINE POUCH

Secure, Space-Saving Carry Of Backup Magazines

Durable, Cordura® nylon competition pouches hold single-stack magazines exactly where you need them to get reloaded and back in action fast. Positions the mags at a 90° angle to the body, rather than flat against it, to maximize belt real estate. Designed for .45 ACP

SKYLINE TOOLWORKS UNIVERSAL CLIPDRAW

Attaches In Seconds To Most Handguns; Easily Removable For Use With Holsters

Spring steel belt clip installs to most pistols and revolvers to provide secure carry with minimum bulk for maximum concealment. Attach the pre-drilled mounting plate to a clean, flat surface on the gun using the provided high-bond, 3M double-back tape, then fasten the clip to the mounting plate with the included Allen screws. Adhesion actually increases over time. For conventional holster carry, simply unscrew and remove the clip; mounting plate will not interfere with most holster configurations. Installation requires a minimum 3"x1/4" flat surface area on the firearm. Great for any handgun with varying carry requirements. Stretch release technology makes it easy to completely remove all traces of mounting tape with no remaining residue or blemishes to your gun's metal finish.

SPECS: Steel, blue (BL) or stainless steel (SS), natural finish. 3" (7.6cm) long, 1/4" (6mm) wide, 3/8" (10mm) high. Includes adhesive strips, cleaning pads, screws, and Allen wrench.

BROWNELLS 1911 AUTO LIGHT RAIL MOUNT

Add Lights & Lasers To Non-Rail Frames

Add-on light rail makes it cost-effective to convert any 1911 Auto-type pistol without an integral frame rail to accept a wide assortment of popular weapon lights and lasers. Rail attaches permanently with the supplied screws and Acraglas Gel® to form a seamless mate with dust cover. Aluminum model keeps aluminum-framed pistols lightweight and maneuverable. Steel version provides extra strength and added weight for improved balance and recoil control, plus it can be welded into place and finish-shaped for a "built-in" appearance on steel framed pistols. Installation requires permanent alteration of frame and must be completed by a gunsmith or machinist.

SPECS: Aluminum or steel, matte black. 1 1/8" (4cm) long, 1 3/8" (2.1cm) wide, 3/8" (9.5mm) high. Weight: Aluminum - .6 oz. (17g). Steel - 1.2 oz. (34g). Fits 1911 Auto-type pistols. Slot centers located .510" from each end.

NOVAK 1911 AUTO TACTICAL LIGHT RAIL

Rock Solid Under-Receiver Mounting Of Tactical Lights & Lasers

Low-profile accessory mount attaches to underside of receiver in front of triggerguard for ultra-secure mounting of tactical lights and laser aiming devices. Gets light/laser close to the bore axis for accurate aiming, with controls in easy reach of support hand. Four precision machined slots accept any accessory designed to fit a MIL-STD 1913 Picatinny rail. Beveled and dehorned for snag-free operation; extends only 1/4" below frame to allow easy fit in any holster designed for use with light/laser-equipped pistols. Available in blued carbon steel, matte gray stainless steel, or extremely lightweight aluminum with matte black anodized finish. Mounts using three super-strong, heat-hardened hex-head screws; drilling and tapping of frame required.

SPECS: Steel - Carbon steel, blued, or stainless, matte gray finish. 1.3 oz. (36g) weight. Aluminum - Anodized, matte black. .4 oz. (12g). All models 2.18" (5.5cm) long, .835" (2.1cm) wide. Extends approx. 1/4" (6.4mm) below frame when installed. Drilling and tapping of frame required. Includes mounting screws, hex wrench, and instructions.

EGW 4-CALIBER CARTRIDGE CHECKER

Helps Prevent Jams
By Making Sure Each Round Meets
Specs Before Shooting

Make sure all your ammo is in spec before you shoot that critical match. One tool lets you check four popular calibers used in practical shooting matches: 9mm, .38 Super, .40 S&W, and .45 ACP. Helps you avoid jams, misfires, feeding problems, and other malfunctions caused by out-of-spec ammo that can cost you precious points—or the whole match. Machined aluminum with check holes precision bored using the same high-quality Clymer reamers EGW chambers its barrels with.

SPECS: 6061 T6 aluminum, anodized, black. 3" (7.6cm) long, 1" (2.5cm) wide, 1 1/4" (3.2cm) high.
#296-000-125DH 4-Caliber Cartridge Checker, 6B16U49 \$ 21.95

NEW Butler Creek Semi-Auto Pistol UPLULA Magazine Loader

Loads Pistol Magazines Fast,
Protects Fingers & Thumbs

Hand-held loader fills pistol magazines quickly and easily, so you spend less range time loading mags and more of it shooting. Smooth, positive operation protects fingers and thumbs while you load hundreds of rounds painlessly—as fast as one round per second. Also lengthens magazine life by reducing wear and tear on feed lips. Hold the magazine upright with the bottom resting on a solid surface. Place the loader over the top of the mag, press down lightly while squeezing the lever to depress the follower, drop in a round, and work the lever quickly to push it into the mag. Repeat the process until the magazine is full. Constructed from tough, reinforced, black polymer. Locks closed when not in use, so it takes up minimal space in pocket or range bag. **UpLula** fits single- and double-stack 9mm, .357 SIG, .40 S&W, 10mm, and .45 ACP magazines, plus some .380 mags. Will not load Glock 6-round single-stack .45 caliber, Smith & Wesson 7-round single-stack 9mm, or magazines with less than 8mm between feed lips. **Baby UpLula** fits smaller single-stack pistol magazines, including most .22 LR, .25 ACP, .32 ACP, and .380 ACP. Does not fit Ruger® Mark I or 22/45™, S&W 22A/22S, or Walther P22.

SPECS: Reinforced polymer, black. **UpLula** - 2 7/8" (7.3cm) long, 1 1/4" (3.2cm) wide, 3 1/4" (8.3cm) high. Fits single and double stack magazines from 9mm to .45 ACP. **Baby UpLula** - 2 1/2" (6.3cm) long, 1 5/16" (2.4cm) wide, 3 1/4" (8.3cm) high. Fits single-stack .22 LR, .25 ACP, .32 ACP and .380 ACP (9mm Short/Kurz) magazines.

NEW #100-005-262DH Baby UpLula Pistol Mag Loader, 3E30Y77 39.99

HKS MAGAZINE SPEEDLOADER

Load Mags Almost As Fast As You Can Shoot,
Without The Sore Fingers

Simple, easy-to-use design lets you load 1911 Auto magazines quickly without dinging the feed lips and pinching your fingers, so you spend more precious range time shooting, less loading magazines. Slide the loader over the magazine and grasp both firmly as you repeatedly depress the ribbed, no-slip thumb lever to relieve the spring pressure and insert rounds.

SPECS: Plastic, black. **450** fits standard single-stack 7-rd magazines and many 8-rd magazines. **451** fits Colt 9mm/.38 Super/.40/10mm/.45 ACP. **452** fits double-stack pistols, including Caspian, Para Ordnance, and STI.

NEW THERMOLD PISTOL MAGAZINE LOADER

Makes Loading Fast, Easy & Painless

Molded polymer, pushbutton-operated loader helps you quickly load a centerfire pistol magazine with less wear and tear on your fingers and thumb—and the magazine. Compresses the mag spring uniformly, so inserting the rounds puts less pressure on the feed lips and helps extend magazine life. Push the spring-loaded plunger down onto the magazine follower, slide a round in the opening, release the plunger, and push the round the rest of the way into the magazine. Repeat until magazine is full.

SPECS: Zytel nylon, black. **Single-Stack** fits magazines up to .550" (14mm) wide; **Double-Stack** fits magazines up to .800" (20.3mm) wide. Not intended for Glock magazines.

#100-005-860DH Single Stack Magazine Loader, 7C05V38 \$ 6.99

BLADE-TECH 1911 AUTO TRAINING BARREL

Inert Barrel For Safe, Realistic
Training & Function Testing

Provide realistic, hands-on training with this replacement barrel that allows safe service pistol use during classroom demonstrations and instruction. Converts a functional pistol into a non-loading, non-firing gun, so you can still operate the slide and dry-fire the weapon during presentation drills. Easily identifiable, bright yellow color indicates the gun is safe for training. Constructed of high strength, polymer composite that's resistant to solvents for a lifetime of use.

SPECS: Polymer composite, bright yellow. Fits Govt. models.

10-8 PERFORMANCE ARMORER TOOL

Sturdy Non-Marring Tool
Has Dozens Of Uses

Handy tool of extremely tough, non-marring glass-reinforced nylon is perfect for prying and pushing applications where a metal tool can damage the part or gun finish. Rigid chisel point on one end is useful for depressing springs and spring-loaded parts—even use to thread MOLLE straps through webbing—while the semi-flexible flat blade on the other end can get into tight spots or serve as a temporary shim. Great to have around during disassembly of semi-auto pistols like the 1911, Glock, or Smith & Wesson M&P or when working on service rifles like the AR-15/M16. Multiple ridges molded into the grasping area in the middle of the tool help prevent slippage when working with oily or greasy hands. Available in Black, Flat Dark Earth, and Foliage Green.

SPECS: Glass reinforced nylon, Black, Flat Dark Earth, or Foliage Green. Approximately 5" (12.7cm) long, 1/4" (6.4mm) diameter.

10-8 PERFORMANCE 1911 AUTO ARMORER'S BLOCK

For Fast, Easy Maintenance,
While Protecting Pistol & Hands
From Damage

Handy bench block machined from super-tough, glass-reinforced nylon supports 1911 pistol components so you can perform a variety of repair, assembly/disassembly, and accurizing tasks quickly and easily. Securely holds the frame on its side, so you can work on it without risk of damaging the finish. Helps you check hammer/sear engagement, remove hammer strut pin, remove mainspring housing, and holds thumb safety for easy filing of sear stop stud engagement surface. Use to tension the extractor off the slide, so you don't risk scratching the slide, and retain the extractor while filing and honing the claw. Holds the barrel during link pin removal, with blind holes to catch the pins so they don't get lost. You can even place the frame between two blocks and clamp it in a bench vise for slide fitting.

SPECS: Glass-reinforced nylon, black. 4" long (10.2cm) x 4" wide x 1 1/4" (3.2cm) high.

BAT INDUSTRIES 1911 AUTO ROTO STAND

Holds Pistol Securely In
Any Position For Two-
Hands-Free Cleaning
& Maintenance

Pistol not included

Sturdy, adjustable stand holds your 1911 securely in a wide range of positions for easy cleaning and maintenance. Frees both hands to work and gets the pistol up from the work surface to protect it from scuffs, scratches, and dings that can happen if it slips

as you work on it. Great for competitors and other high-volume shooters who need secure, unobstructed access for cleaning gunked up guns quickly. Also serves as a display stand to show off that prized custom pistol or racegun. Large, circular base is stable enough to support any single stack 1911 Auto configuration and has a lipped edge and soft, no-slip neoprene pad to prevent tools and small parts from rolling away. The insert on the ball-and-socket swivel mechanism fits in the pistol's mag well. Adjust the screw on the spring tensioner with the included hex wrench to ensure the insert grasps the pistol firmly. Unlock the swivel mechanism's release lever and rotate the gun for best access to the area you want to work on, then lock the lever and go to work. Tough, structural polymer composite base and swivel, with chemical resistant neoprene base mat.

SPECS: Injection-molded structural polymer composite with neoprene rubber mat, black. Height fully assembled, approximately 6" (15.2cm). Base diameter, 12 5/8" (32.1cm). Hex wrench and instructions included. Fits all models of single-stack 1911 Auto pistol.

⑨ **PLUNGER TUBE CRIMPER KIT** - Easy-to-use tool lets you secure the plunger tube to the frame without fear of tube crush or frame damage.
SPECS: Steel, 7" (17cm) long. Crimper Kit includes crimper and plunger tube support. Includes external reinforcing block. Plunger Tube Support - Hardened steel. 4" (10.2cm) long, .106" (2.7mm) diameter. Step is .300" (7.6mm) long, .090" (2.3mm) diameter.
#080-806-500DH Plunger Tube Crimper Kit, 8K57Z94 \$ 74.99

⑩ **1911 AUTO SAFETY DETENT DEPRESSOR** - Slips behind the thumb safety; cupped tip won't slip off lock detent pin. Press in and pop the safety into place.
SPECS: Steel shaft, plastic handle, 5" (12.7cm) long.
#583-120-101DH 1911 Auto Safety Detent Depressor, 3H00DZA \$ 12.99

⑪ **MAINSRING HOUSING PIN PUSHER** - Pops the mainspring housing pin out easily.
SPECS: Approx. 3" (7.6cm). RC 50 steel shank, plastic handle.
#080-850-000DH Mainspring Housing Pin Pusher, 8K16U56 \$ 24.99

⑫ **1911 AUTO TRIGGER STIRRUP DIE** - Smooths out bends and bumps found in production triggers to match-fit them for smooth travel.
SPECS: Hardened Steel. 1 1/8" (23.8mm) long, 5/8" (15.9mm) thick, 1 1/2" (3.8cm) high.
#080-710-045DH Trigger Stirrup Die 1911 Auto, 8K20C88 \$ 25.99

⑬ **1" NYLON/BRASS HAMMER COMBO** - Brass head for driving various pins; no-mar nylon head for soft "tapping".
SPECS: 1" (2.5cm) diameter faces. 11 1/2" (29.2cm) hickory handle. Weighs approximately 6 oz. (170.1g).
#818-600-100DH 1" Nylon/Brass Hammer Combo, 8A00XCH \$ 19.99

⑭ **BLUE PISTOL BENCH BLOCK** - Large, durable bench block; won't embed or mar when pounding out pins.
SPECS: Polyethylene blue. 4" (10cm) diameter, 1 1/2" (2.8cm) high.
#080-000-493DH Blue Pistol Bench Block 8D00YTP \$ 16.99

⑮ **NYLON FRONT SIGHT PUNCHES** - Non-marring punch lets you drift the front sight right or left without damage to the sight.
SPECS: 4" (10.2cm) long. 3/16" (7.9mm) diameter. Polyenco Nylon. Sold in a set of 3.
#080-478-000DH Set of 3 Nylon Front Sight Punches, 8K04D22 \$ 4.99

⑯ **BROWNELLS FRONT SIGHT STAKER** - Offset punch efficiently directs the full force of the hammer blow downward against the sight tenon to stake front sights tightly.
SPECS: Steel, blued. 3/16" (7.9mm) x 1/2" (12.7mm) x 4 1/2" (11.4cm) long shaft. Replaceable, hardened steel tip. Fits 1911 Auto. Includes complete instructions.
#080-817-000DH Brownells Front Sight Staker, 8K35T79 \$ 46.99

⑰ **1911 AUTO EXTRACTOR REMOVAL TOOL** - Dual-purpose tool prevents scarred breech faces, scratched slides and gives fast, easy extractor removal every time.
SPECS: Steel, blue, matte finish. 6" (15.2cm) long, 3/8" (9.4mm) diameter handle, .150" (3.7mm) diameter lever.
#080-923-000DH 1911 Auto Extractor Removal Tool, 8K20B23 \$ 25.99

⑱ **#120-3 BIT** - Fits slotted magazine catch locks.
SPECS: Steel. .120" (3.1mm) shank diameter, .03" (.76mm) blade thickness.
#080-120-330DH #120-3 Bit 8K02P52 \$ 2.99

⑲ **#185-00 HEX-HEAD BIT** - Fits hex-head (Allen) magazine catch locks.
SPECS: Steel. 1" (2.54cm) long, 1/16" (1.6mm) thick.
#080-185-002DH #185-00 Bit 8K02U52 \$ 2.99

⑳ **.120" BRASS ALIGNMENT & PUSH PUNCH** - Helps install and remove hammer pins.
SPECS: Plastic handle, 360 alloy punch. 4 3/4" (12cm) long. Punch - 3/4" (8.2cm) long, .120" (3.05mm) diameter.
#080-000-025DH .120" Brass Alignment & Push Punch, 8K06Y97 \$ 8.99

BROWNELLS

1911 AUTO FIELD MAINTENANCE PACK

Complete, Dedicated Kit For Field Repair & Maintenance Of Tactical 1911 Autos

This compact field

maintenance pack is designed specifically for servicing combat 1911 Autos during Military Ops. And, it provides the soldier with all the required tools to field strip, repair, and maintain this pistol while on the move. This is not a run-of-the-mill cleaning kit, but carefully selected, high-quality field armorer tools dedicated to working on the 1911 pistol, so there is no confusion and no down time spent scrounging through one large field case of loose odds and ends. Individual pouches and compartments inside the water- and abrasion-resistant, denier Cordura case keeps all tools secure and separated to help minimize noise that could jeopardize your mission. Quiet, #9 YKK zippers with oversize pulls make it fast and easy to get tools in and out. Front panel features clear, I.D. card sleeve and loop strip for name tape. Includes two, nylon grab handles for easy carry. Made in the U.S.A. Field Pack Case is also available separately.

SPECS: Includes: #81 MAGNA-TIP® screwdriver handle w/ #120-3, #185-00, #185-1, #240-5, T15 Torx, and bushing driver bits; grip bushing staker; lug iron; bushing wrench; plunger tube crimper kit; safety detent depressor; trigger stirrup die; nylon/brass hammer; pistol bench block; (3) nylon punches; front sight staking tool; extractor removal tool; .092" and .120" dia. brass push punches; mainspring housing pin pusher; 12"x24" bench/field gun mat. 5 lb. 2 oz. (2.32 kg) wt.
#080-000-456DH 1911 Auto Field Pack 8K276H46 \$ 366.99

FIELD PACK CASE - The same, heavy-duty, Cordura field case included with our 1911 Auto Weapons Field Maintenance Pack. Made available separately for your additional tactical gear and accessories.
SPECS: Denier Cordura nylon, O.D. green. 12" (30.5cm) long, 10 1/2" (26.7cm) high, 3 1/2" (8.9cm) thick.
#080-000-459DH Field Pack Case 8K48H73 \$ 64.99

① **.092" BRASS ALIGNMENT & PUSH PUNCH** - Helps install and remove sear pins.
SPECS: Plastic handle, 360 alloy punch shaft. 4 3/4" (cm) long. Punch - 3/4" (8.2cm) long, .092" (2.3mm) diameter.
#080-000-024DH .092" Brass Alignment & Push Punch, 8K06A97 \$ 8.99

② **BENCH/FIELD GUN MAT** - Soft face prevents scratches and dings when working on your gun. Absorbs liquid, and includes a non-slip backing.
SPECS: Polypropylene fiber, brown, expanded, vinyl acetate backing. 12" (30.5cm) x 24" (61cm).
#084-280-001DH 12x24 Bench/Field Gun Mat, 4H08P50 \$ 11.99

③ **TOOL BOX** - Heavy-duty, plastic box conveniently holds everything in one place. Perfect for the shop, armory, or as a take along to a match.
SPECS: High-impact plastic. 15" (38.1cm) long, 7" (18cm) wide, 5" (13cm) high.
#696-100-303DH Tool Box 6F11V44 \$ 16.99

BROWNELLS 1911 AUTO TRIGGER STIRRUP DIE

Forms Stirrup For Precise Trigger Pull

Makes it easy to smooth out the bends and bumps found in production triggers and match-fit them for precise, no-wobble travel. Slide a trigger over the die and tap lightly around it with a small hammer. Maintains correct shape and angles. Dual use, lets you save dinged and damaged ones too. Models available for standard **Single-Stack**, as well as double-stack **Para-Ordinance** and **STI** pistols.

SPECS: Hardened Steel. **Single-Stack** - 1 1/8" (23.8mm) long, 5/8" (15.9mm) thick, 1 1/2" (3.8cm) high. **Para-Ordinance** - 1 7/8" (3.9cm) long, 1 1/8" (2.4cm) thick, 2" (5.1cm) high. **STI** - 2" long, 1 1/8" thick, 3" (7.6cm) high.

#080-000-389DH STI Trigger Stirrup Die 8K25Z98 .. \$ 38.99

POWER CUSTOM

SLIDE RAIL COMPOUND CLAMP

Semi-Auto Slide Tightening Made Easy

Giant, steel "pliers" have two machined "steps" that can tighten one or both rails with just a "squeeze" of a bench vise. Step one distributes pressure evenly to both rails at the same time. Step two straightens and adjusts one side at a time if the slide is bent or sprung. Stop bolt helps prevent over-tightening and damaged slides.
SPECS: Heat-treated steel, blued finish. Machined from 1 1/2" (3.81cm) square stock, approx. 7 1/2" (19cm) long. Ratio 2:1.
#713-101-000DH Compound Clamp 3A00VBX \$ 114.99

ALPHA PRECISION 1911 AUTO SLIDE TIGHTENING TOOLS

Tighten Slide-To-Frame Tolerances Without Over-Squeezing Or Damage

Tools developed by noted pistolsmith Jim Stroh help you produce a tight slide-to-frame fit for better accuracy. Produce

a uniform slide/rail gap as small as .0005" on carbon steel guns. **Slide Tightening Blocks** use the powerful mechanical advantage of your bench-mounted vise to produce controlled, incremental squeezing of the slide to tighten its fit to the frame. Lets you tighten a stainless steel slide to run on a stainless steel frame with as little as .001"-.002" clearance without risk of galling. Should be used with the **Slide Tightening Stop** to prevent over-tightening and damage to the slide. Special heat-treated aluminum alloy won't deform under pressure and won't mar the slide; kit includes two vise blocks and steel fulcrum rod. **Slide Tightening Stop** fits between the slide rails to set correct dimensions and prevent deformation of the slide while applying pressure with the Tightening Blocks. Tighten until the stop cannot be moved in the slide, release pressure, move the stop and blocks down the slide, and apply pressure in the new location. Repeat procedure until the entire slide/frame contact area has been tightened. **Rail Gauge** - Use in conjunction with a caliper's depth-measuring feature or a depth micrometer to measure depth of frame rails for selecting a correct-size spacer bar for peening the rails to eliminate vertical slide movement.

SPECS: **Tightening Blocks** - Aluminum, 1" (2.5 cm) square, 3" (7.6cm) high. **Tightening Stop** - Steel, machined. Adjusts from .701" (17.9mm) to .852" (21.6mm) in width. **Rail Gauge** - Steel. 5 5/8" (14.9cm) long, 3/4" (1.9cm) wide. Includes instructions.

#012-101-001DH Slide Tightening Stop 2A64Z00 \$ 69.95
#012-100-093DH Rail Gauge 2A31Z00 \$ 34.95

BROWNELLS 1911 AUTO RAIL SWAGING PUNCHES

**Helps Prevent Frame
Rail Damage**

Puts downward swaging pressuredirectly onto the frame rails and not on the frame. Giant steel punches with specially machined steps prevent overpeening and crushed frame rails. Single or Double design allows tightening only the specific rail area required for closer frame-to-slide fit. 

SPECS: Machined steel. 5 1/2" (56cm) long, 1" (2.5cm) diameter. Set includes 1 punch of each design.

#080-805-001DH Single Swage Punch 8K29Z98. . . . \$ 39.99

#080-805-002DH Double Swage Punch 8K25Z41. . . . \$ 30.99

BROWNELLS/STARRETT 1911 AUTO SLIDE RAIL MICROMETER

**Quickly Choose Correct Slide Fitting
Bar With Micrometer Accuracy**

For match level accuracy, slide-to-frame fit on 1911-style autos must be closer than a gnat's whisker. This specially modified Starrett mike precisely measures the thickness of the slide's "rails". Makes choosing the correct slide fitting bar quick and accurate. No guesswork. Take measurement at three points along the slide, average readings together, and select a slide fitting bar (listed elsewhere) .001" to .002" thicker. 

SPECS: Stainless steel, 2 1/2" (6.3cm) overall. Carbide measuring faces read .0000 to .4265" (10.8mm). Includes plastic case.

#827-561-730DH Slide Rail Micrometer, 7B00ZAY. \$ 213.99

MARVEL 1911 AUTO SLIDE LAPPING TOOL

Makes Smooth Lapping Easy

Simplifies hand lapping a 1911 slide and frame. Oversize ball handle on a dummy "bushing" fits into the slide and makes it possible to apply a smooth back-and-forth lapping action. 

SPECS: 5 1/8" (13cm) long overall. 3 1/2" (8.8cm) long x 5/8" (15.9mm) diameter steel shaft. 2" (5cm) diameter plastic ball handle.

#583-100-000DH 1911 Slide Lapper 3H00TPU. \$ 39.95

HEIRLOOM PRECISION 1911 AUTO FRAME HOLDING FIXTURE

**Provides A Solid Hold
Without Bending Or
Crushing The Frame**

Steel fixture completely eliminates the potential for damage caused by vise tension when working on the 1911 Auto frame. Insert in the magazine well from the top or the bottom, depending on the work being performed. Two, adjustment screws with steel bushings provide the clamping action inside the mag well to completely immobilize the frame on the fixture. Secure the shaft end of the fixture in a bench vise for full access to all sides of the frame for polishing, checkering, rail tightening, and other operations. Fits any single-stack 

1911-style pistol. **SPECS:** Oil-hardened tool steel, blued, 10" (25.4cm) OAL. Fits single-stack 1911-style mag wells. Instructions included.

#100-002-983DH Frame Holding Fixture, 9A67Y74. \$ 79.99

GSA BROWNELLS 1911 FIELD TOOL KIT

Fix In-The-Field Problems On The Spot

Six critical tools to do field maintenance, improve performance, and assist in assembly/disassembly on your 1911 pistol. The heavy-duty tool box provides you a convenient way to haul the tools to matches or wherever you take your 1911. To protect your gun, parts, and work surface, we also included a highly-absorbent field/bench mat to work on. 

#080-100-184DH 1911 Field Tool Kit 8K183V06. . . . \$ 205.99

1911 FIELD TOOL KIT

① **1911 AUTO GRIP BUSHING STAKER** - 8-segment, 90° head gives maximum contact to bushing for most secure installation possible.

SPECS: Staker head - S5 Tool Steel hardened to Rc 57-60. 4" (10.2cm) handle.

#080-644-000DH 1911 Auto Grip Bushing Staker, 8K23T97. \$ 31.99

② **BROWNELLS LUG IRON** - Removes rough spots and machine marks from the slide lug area of 1911 Autos.

SPECS: 8 3/4" (22.2cm) long. One-piece steel shaft and head.

#080-689-000DH Brownells Lug Iron 8K44U74. . . . \$ 52.99

③ **PLUNGERTUBE CRIMPER KIT** - Easy-to-use tool lets you secure the plunger tube to the frame without fear of tube crush or expensive frame damage.

SPECS: Steel, 7" (17cm) long. Crimper Kit includes crimper and plunger tube support. Includes external reinforcing block. Plunger Tube Support - Hardened steel, 4" (10.2cm) long, .106" (2.7mm) diameter. Step is .300" (7.6mm) long, .090" (2.3mm) diameter.

#080-806-500DH Plunger Tube Crimper Kit, 8K57Z94. \$ 74.99

④ **1911 AUTO TRIGGER STIRRUP DIE** - Smooths out bends and bumps found in production triggers to match-fit them for smooth travel.

SPECS: Hardened Steel. 1 1/16" (23.8mm) long, 5/8" (15.9mm) thick, 1 1/2" (3.8cm) high.

#080-710-045DH Trigger Stirrup Die 8K20C88. . . . \$ 25.99

⑤ **BLUE PISTOL BENCH BLOCK** - Large, durable bench block; won't embed or mar when pounding out pins.

SPECS: Polyethylene blue, 4" (10cm) diameter, 1 1/8" (2.8cm) high.

#080-000-493DH Blue Pistol Bench Block 8D00YTP \$ 16.99

⑥ **BROWNELLS FRONT SIGHT STAKER** - Offset punch efficiently directs the full force of the hammer blow downward against the sight tenon to tightly fit front sights.

SPECS: Steel, blued, 9/16" (7.9mm) x 1/2" (12.7mm) x 4 1/2" (11.4cm) long shaft. Replaceable, hardened steel tip. Fits 1911 Auto. Includes complete instructions.

BROWNELLS 1911 AUTO SLIDE FITTING BARS

**Remove
Slide "Play"
Accurately &
Professionally**

Surface ground and hardened tool steel bars in ten thicknesses - Recommended by agency armorers and top pistolsmiths as the most accurate way to remove vertical slide "play" from the 1911 Auto, its variations and copies. May be slower than the quick-and-dirty methods, but gives an infinitely more accurate and professional job. Basic procedure as follows: Measure gun's slide rail thickness; place closest-sized Slide Fitting Bar in frame "way"; tap frame rail with light hammer to close the "ways" space down to match the slide rail thickness. Complete instructions included. 

SPECS: 4" (10.2cm) L x 1" (2.5cm) W. stainless steel, heat treated. + .0000/- .0005" (.0127mm) tolerances. **Set** includes 10 slide fitting bars, and a hardwood divider tray, all in a tough, polypropylene bench storage box.

BROWNELLS 1911 AUTO SLIDE/FRAME RAIL FILE

One File Does It All: Trues, Deburs & Squares Slide Rails

Clean up and square slide rails with one side of this file, turn it over and deburr or enlarge the rail channels with the other. Specially ground, stepped file does the job of two or more separate files and the safe edges make sure that only the areas that need to be cut, get cut. Simplifies, speeds up and adds precision to slide fitting work. 

SPECS: 6" (15.2cm) long, 1/2" (12.7mm) wide. Surface ground.

#080-753-000DH Slide/Frame Rail File, 8K39H76 \$ 50.99

BROWNELLS 1911 AUTO PIN HOLE REAMERS

**Deburr & Ream Frame
Holes For Precise Pin Fit**

Hardened steel, fluted reamers true-up pin holes in 1911 frames to help ensure a tight, smooth-operating pistol. Ideal for correcting out-of-round and under-size pin holes. Hand-filling polymer handles give you a secure purchase to transmit maximum torque smoothly and evenly to the hole. A must-have for building custom pistols. Available as a kit of six reamers, including reamers for both standard-size and under-size slide stop pin holes; individual reamers also sold separately. 

SPECS: Hardened steel shank, polymer handle. 1 1/2" (3.8cm) cutting length. Kit contains (1) of each reamer: .157" (.98mm) hammer pin, .110" (2.8mm) sear pin, .199" (5mm) slide stop pin, .201" (5.1mm) slide stop pin, .154" (3.91mm) link pin, and .156" (3.96mm) link/safety lock pin. Includes instructions.

1911 AUTO FITTING & DEBURRING FILE SET

**Indispensable
For Accurizing
Your Pistol For Precise
Fit & Function**

Convenient set of five, round parallel files for deburring mag release hole, slide stop hole, and other frame pin holes to ensure precise fit and smooth function of your 1911. Also use to fit, shape, and blend beavertail grip safety to frame. American-pattern, single-cut files ensure gradual, even metal removal to help you maintain precise dimensions. Indispensable for any accurizing job. 

SPECS: Hardened cutting steel. Round parallel files with approximately 6 1/2" (15.2cm) cutting surface, 2" (5.1cm) tang. Kit contains one each 1/8" (3.2mm), 3/32" (4mm), 1/16" (4.8mm), 3/32" (5.6mm), 1/4" (6.4mm) diameter.

BROWNELLS/CASPIAN ARMS 1911 AUTO POCKETSMITH

**Everything You Need
For Field Repair
In One Compact Tool**

All-in-one, stainless steel pocket tool has all the tools needed to service your 1911 at the range and on the bench. Fold-open design has a bushing wrench, pliers, and wire cutter. Additional tools in the handles are 3/32" and 1/16" Allen wrenches, three screwdriver bits with assist tabs for easy grasp when swinging out of handle, mainspring housing pin punch, file, and an easy-open knife with half-serrated, half-straight blade. Scratch-resistant, matte black hardcoat finish for exceptional strength, and grip panels of rugged G10 fiberglass composite with checkered surface pattern for a firm grasp. Nylon belt pouch included.

SPECS: Stainless steel, matte black finish, with G10 fiberglass grips, matte black. 4 1/8" (10.5cm) OAL folded; 6 1/2" (16.5cm) OAL extended. Includes black nylon belt pouch.

BROWNELLS MAINSRING HOUSING PINTOOL

Pops This Stubborn Pin Out Easily

Makes removing the 1911 Auto mainspring housing pin (it's held in by a detent) a snap. Round, plastic handle fits your palm nicely, one "rap" and the pin is out. Speeds any disassembly/reassembly job, whether doing repairs or using the "stone and try" method for trigger pull work. Fits all 1911 Autos. 

SPECS: Plastic handle. RC50 steel shank. Approximately. 3" (7.6cm) long.

#080-850-000DH Mainspring Housing Tool, 8K16U56 \$ 24.99

AL MARVEL 1911 AUTO SAFETY DETENT DEPRESSOR

Stop Scratching Frames

Easily slips behind the thumb safety; cupped tip won't slip off the slide lock detent. 

SPECS: Steel shaft, plastic handle, 5" (12.7cm) long.

#583-120-101DH Detent Depressor 3H00DZA \$ 12.99

BROWNELLS 1911 AUTO DISCONNECT SCRAPER

Deepens Disconnecter Notch For Smoother Trigger "Feel"

Super-hard, steel scraper lets you deepen the disconnecter notch to keep the disconnecter from bumping the slide. The right way to end the problem. NEVER shorten the disconnecter. 

SPECS: CPM Rex 76 steel. 5/4" (13.3cm) long overall.

#080-746-002DH Disconnect Scraper 8K11T88 \$ 16.99

BROWNELLS 1911 AUTO DISCONNECTOR STAKING TOOL

**Eliminates Lateral Movement Of The Disconnecter
For A Tighter, Cleaner Trigger Pull**

Steel punch reduces the size of the disconnecter hole in the frame to prevent lateral movement of the disconnecter and help eliminate creep from the trigger pull. Use as part of any accurizing or trigger job to produce a smoother, more precise pull and cleaner release. Concave tip ensures controlled application of staking force by letting you use the tool with the disconnecter in place to help keep the tip centered on the frame hole. 

SPECS: Tool steel hardened to Rc 58-60. 3" (7.6cm) long. Includes instructions.

#080-000-691DH Staking Tool 8K16Y02 \$ 19.99

BROWNELLS 1911 AUTO MAGAZINE LIP FORMING TOOLS

**Customizes Magazines To Properly
Feed Wadcutter Ammo**

No amount of accurizing will make a 1911 Auto shoot wadcutter ammo if the magazine's feed lips aren't right. These tools easily reform the lips to the optimum angle, curing the tendency of wadcutters to jam against the ramp. "Anvil" fits inside the magazine and establishes the angle. "Yoke" (designed by Lou Woll) fits over the lips and ensures that both sides will be identical. 

SPECS: 1018 Steel, hardened to Rc 50. **Anvil** - 2 3/4" (70cm) x 1 1/4" (3.2cm) x 3/8" (9.5mm). **Yoke** - 3" (7.6cm) x 1" (2.5cm) x 5/8" (41.2mm).

Set includes one of each. Instructions included.

BROWNELLS 1911 AUTO GRIP BUSHING STAKER

**8-Segment, 90° Head Gives Maximum Contact To
Frame For Most Secure Bushing Installation Possible**

1911 stock bushings get bunged up or lost in the field or, when a pro is doing a "Master Reblue Job" they get removed to permit the finest possible polishing job. Then they have to be replaced and that can be a real chore. No more. With this special Brownells 1911 Auto Grip Bushing Staker, it's now quick and easy to get them tight on the first try. Made in 8 segments with 90° cuts between for maximum bushing contact to frame. Has "handle" and deep hole in top of Staker to prevent your 3/8" punch from slipping off. (The 3/8" punch passes thru bushing center on opposite side of frame to give clean access to bushing being replaced or tightened.) NOTE: Make an anvil block to support outside of bushing while it is being staked. Works great! 

SPECS: Staker head - S5 Tool Steel hardened to Rc 57-60. 4" (10.2cm) handle.

BROWNELLS 1911 AUTO LUG FITTING KIT

Helps You Fit The Standing Lugs On Oversized Barrels

Three essential tools work together to help you successfully fit oversized barrels. The Barrel Holder locks the barrel in the slide to let you cut the excess material on the lugs with the included, carbide Barrel Lug Cutters. Plus, the Slide Pusher holds the slide forward to put a consistent pressure on the barrel while cutting. Comes in a convenient case.

SPECS: Barrel Holder - Steel. Approximately 3.5" (9cm) long .44" (1.1cm) O.D. Barrel Lug Cutter - Carbide. .186" cutter and .195" cutter; includes handle. Slide pusher- steel shaft, plastic handle. 6.5" (16.5cm) long.

BROWNELLS 1911 AUTO LUG IRON

Removes Ridges & Levels Lug Area

Quickly, accurately removes wear flanges and machining ridges from the slide lug area of 1911 Autos. Ensures a precise fit, reduces barrel friction and improves accuracy.

SPECS: 8 3/4" (22.2cm) long. One-piece steel shaft and head.

#080-689-000DH Brownells Lug Iron 8K44U74 . . . \$ 52.99

BROWNELLS 1911 AUTO LUG CUTTER

Recuts Lug For A Tight Fitting Barrel That Improves Accuracy

Hand operated, carbide cutter easily trims excess material from the bottom barrel lug when fitting custom or factory barrels to 1911 Autos. Cuts barrel lugs parallel, and with the correct height and radius, to help produce the best possible lookup. Use .186" cutter first, then progress to the .195" cutter if more material needs to be removed. Follow with careful hand fitting to achieve a firm, non-binding barrel-to-slide fit. Start small and check your work often. It is possible, with some slide/barrel combinations, that the .195" cutter could remove more material than necessary. Fits all 1911 Auto, Commander and Officers ACP, single- and double-stack frames.

BROWNELLS CAN'T MAR™ 1911 AUTO BUSHING WRENCH

Can't Damage Finishes • Virtually Unbreakable

• Pocket-Sized • Versatile, Double-Ended Design

Every 1911 owner and gun shop needs a wrench to remove the barrel bushing from the 1911 Autos. Ours fits all the calibers and variations; Colt-made (including factory Officers ACP), plus copies. Made from super tough ABS "T" grade polymers, Brownells Can't Mar™ wrench has more thickness and heft than other synthetic wrenches. It gets out even the most tightly fitted, match-grade bushing WITHOUT scarring or marring the finish

BROWNELLS COLT WRENCH

1911 Auto Bushing Wrench, Plus Ratchet/Ejector Rod Wrench

An obvious "must have" tool belonging on the bench of every gunsmith or armorer who works on (or strips for rebluing) any Colt handgun. The double-ended 1911 Auto bushing wrench feature has been time proven by gunsmiths. Ours handles the traditional Government model with one end and the Colt Officer's ACP with the other. We've all sweated over the mar-free removal and reassembly of the ratchet (ejector/extractor) from the ejector rod of large and small frame Colt revolvers. Brownells Colt Wrench handles the operation properly. The hex opening fits over the ratchet of large frame Colts (including old and new Pythons) to hold the ratchet for unscrewing from the ejector rod. For small frame Colt revolvers, the slot with two small studs fits between ratchet and cylinder face; the two studs fitting into two of the ratchet cartridge extractors. The tool ratchet unscrews from rod with no mar or deformations! A lifesaver!!

SPECS: Blued steel. 6 1/8" (15.6mm) x 1" (2.5cm) x 1/8" (3.2mm).

#080-557-000DH Brownells Colt Wrench 8K18U00. \$ 24.99

CYLINDER & SLIDE 1911 AUTO BUSHING WRENCH

Integral Shield Helps Prevent Search & Rescue Of Flying Parts

Simple, practical wrench includes an integral shield that blocks the recoil plug from going airborne during bushing removal on Government models and clones. Makes the entire process of field stripping your pistol faster and safer. Heavy gauge steel construction makes rotating even the tightest-fitting bushings smooth and effortless, plus eliminates bending or rounding-off of the bearing surfaces that can lead to slippage. Smooth edges around the entire circumference of the tool make it comfortable in the hand and help prevent marring of the bushing, slide, or plug.

SPECS: Steel, matte blue. 5 1/8" (13cm) long x 1/8" (3.2mm) thick.

#206-000-043DH C&S Bushing Wrench 6K12X00 . . \$ 14.99

BROWNELLS BUSHING/COMPENSATOR FITTING MANDREL

Grips & Centers For Turning O.D.

Makes uniform, precise fitting of an oversized bushing or cone style compensator fast and simple. Two-piece mandrel threads together with the bushing/comp in between. Flat seat locates front of bushing; tapered, hardened "nose" automatically centers the rear. Mount in the lathe or drill press and file or turn O.D. as needed.

SPECS: Machined steel. 1 1/8" (17.4mm) diameter. Approximately 4" (10.2cm) long. Comes complete with "A" rod for bushing, "B" rod for cone style comps. Instructions included.

EGW 1911 AUTO FRAME CUTTER FOR WILSON/NOWLIN RAMPED BARREL

Removes Factory Feed Ramp From Frame; Trues Up Contact Surfaces

End-mill cutter helps you quickly convert a standard 1911 frame for precise fit of a Wilson/Nowlin ramped barrel. Use in a lathe or milling machine to cleanly remove the frame's feed ramp and true up factory flaws found in many frames to allow proper contact with the barrel feed. Helps ensure a cleaner impact surface that prevents excess battering and uneven stresses on the feet for longer barrel life. Manufactured from U.S.-sourced M42 high-speed tool steel blanks for precise cutting surfaces that stay sharp. One-piece design means nothing to work loose halfway through the job. Shank is long enough to clear full-length dust covers. 

SPECS: Tool steel, in-the-white. 6" (15.2cm) long, 7/16" (11.1mm) diameter cutter, 1/2" (12.7mm) diameter shank.

#296-000-124DH Wilson/Nowlin Barrel Ramp Cutter, 6B00AYT..... \$ 60.00

NOWLIN MFG. 1911 AUTO RAMPED BARREL FRAME BRIDGE CUTTER

Speeds Ramped Barrel Installation; Ends Ruined Frames & Broken Cutters

Precision-ground cutter speeds up the time-consuming job of removing the ramp from a 1911 Auto frame prior to installing a fully ramped barrel. Custom-ground, long-shank end mill helps you get a frame that's cut clean and straight, ready to fit. Fully piloted to eliminate bind, and won't lose zero if you take the frame out of the milling vise. 

SPECS: High-speed steel cutter, carbon steel shank, aluminum bushing. 5 5/8" (14.3cm) OAL, 7/16" (11.1cm) diameter cutter, 1/2" (1.3cm) diameter shank. Works for all ramped barrels equipped with bottom feet cut square at the rear, like Nowlin and Wilson.

#654-105-000DH Ramped Barrel Frame Bridge Cutter, 4E00UAV..... \$ 99.99

1911 AUTO BARREL INSTALLATION ACCESSORIES

BARREL HOLDER - Locks the barrel to the slide, simplifying lug-to-pin fitting using either the Wilson Lug Cutter or a 3/16" diameter, parallel round file. Mounts through the bushing below the barrel, and clamps it in the full lock position with a set screw. 

SPECS: 5 3/4" (14.6cm) long, 5/8" (15.9mm) diameter. Steel. Fits 9mm, .38 Super and .45 ACP.

#080-711-100DH 1911 Auto Barrel Holder 8K15A56..... \$ 20.99

VISE JAWS - Multi-position, aluminum vise jaws with one horizontal and three, vertical "V"s, firmly hold 1911 Auto barrels without damage. Powerful, magnetic strip keeps the jaws in place. Also holds cylindrical parts. 

SPECS: Aluminum. 4" (10.2cm) wide, 1 1/4" high face.

#080-824-000DH 1911 Auto Vise Jaws 8K18T75..... \$ 28.99

BROWNELLS 1911 AUTO BARREL ALIGNMENT GAUGE

Fast Check For Proper Lug Engagement & Firing Pin Alignment

Valuable barrel fitting aid for the gunsmith and a great "used gun" checker for the dealer. The rod slides down the barrel and the centered tip drops into

EGW 1911 AUTO HOOD LENGTH GAUGE

Makes It Easy To Fit Hood Length On New, Oversized Barrels

Steel gauge fits in your slide to precisely measure the correct hood length down to a thousandth of an inch. Shows you how much to cut the first time and eliminates the time-consuming, file, fit, and file some more process. 

SPECS: Steel, black-oxide finish. 6 3/8" (16.2cm) long, 1/2" (13mm) wide, 1/8" (3.2mm) thick. Indicates hood lengths of 1.313", 1.315", 1.318", and 1.321".

#296-000-055DH Hood Length Gauge 6B26P67..... \$ 33.33

BROWNELLS 1911 AUTO BARREL ALIGNMENT BLOCK

Fast, Accurate Hood-To-Slide Fitting On 1911 Autos

Milled lug slot holds the barrel square in the slide for precise fitting of the hood to the bolt face slot. Provides a quick visual check for hood fit that eliminates time consuming assembly/disassembly for hood fitting. Fits between the slide rails to prevent barrel twist. Aids lockup and accuracy. May require minor fitting to slide. 

SPECS: Steel, black oxide finish. 2" (5 cm) long, 3/4" (19mm) wide, 1/2" (12.7cm) high. Instructions included.

#080-000-041DH Barrel Alignment Block 8K27U26..... \$ 39.95

EGW 1911 AUTO LOCK-UP GAUGE

Keeps Barrel True During Milling & Fitting

Aluminum gauge keeps barrel placement consistent during "mill and fit" procedure. Hole in gauge lets you place a dial indicator on barrel to make sure that it remains in proper alignment

while you check for proper lock-up. 

SPECS: Aluminum, black. 3" (76mm) long, 1" (25mm) high. Slots are .362" (9.1mm) and .368" (9.3mm).

#296-000-071DH Lock-Up Gauge 6B22U00..... \$ 27.95

GUN RUNNERS 1911 AUTO PLUNGERTUBE STAKING TOOL

Easy, Two-Hand Operation Gives Tight Crimp

Combination tool clamps plunger tube firmly and accurately in place, helps prevent expensive damage to the frame or the plunger tube. Locking bar is milled for a precise fit to both 3/32", Mil-Spec, and 3/16", oversize tubes. Spot faced holes along the back of the locking bar hold tool in correct alignment for a tight crimp. Hardened point gives years of service. 

SPECS: 1018 steel body, matte grey parkerized finish. Bar - 3 1/2" (8.9cm) long. Body - 2 3/4" (7cm) long.

BROWNELLS 1911 AUTO PLUNGERTUBE CRIMPER KIT

Foolproof, Military Design For Tightest Tubes

Easy-to-use adaptation of a proven armor-er's tool lets you secure the plunger tube to the frame without fear of

tube crush or expensive frame damage. Adjustable to fit all makes of frames and tubes for both installing and re-tightening. Beveled jaws allow easy frame access; hardened crimping point assures long tool life. **Plunger Tube Support** slips inside plunger tube and prevents compression damage while tube is being staked to frame. 

SPECS: Steel, 7" (17cm) long. **Crimper Kit** includes crimper and plunger tube support. Includes external reinforcing block. **Plunger Tube Support** - Hardened steel. 4" (10.2cm) long, .106" (2.7mm) diameter. Step is .300" (7.6mm) long, .090" (2.3mm) diameter. **Replacement Tip** - 10-32 tpi fits current crimpers, 8-32 tpi fits all older crimpers.

EGW 1911 AUTO PLUNGERTUBE STAKING TOOL

Protects The Tube & Frame From Damage; No Need To Remove Ejector

Two-piece staking tool protects the plunger tube and surrounding frame area with a block of machined Delrin® while you spread the pins with the steel staking bar. Eliminates metal-on-metal contact on exterior surfaces to prevent scratches that can mar the pistol's finish. Saves you time, too, because the staking bar has a cutout to clear the extractor, so you can stake the tube without having to remove the extractor. The staking point is a hardened steel screw that lets you adjust the staking depth. When the point wears out, simply install a new screw (spare included) to make the tool good as new. Delrin block has cutouts to support both rounded and square plunger tubes; cuts are positioned so the block always rests on a flat side to provide full support. 

SPECS: Steel, black oxide finish, and machined Delrin®.

#296-000-123DH Plunger Tube Staking Tool, 6B00CHD..... \$ 25.95

PLUNGER TUBE TOOLS

Faster, Tighter Installation; Damage-Free Removal

PLUNGERTUBE SUPPORT - Slips inside plunger tube and prevents compression damage while tube is being staked to frame. Supports the tube over its full length. 

SPECS: Hardened steel. 4" (10.2cm) long, .106" (2.7mm) diameter. Step is .300" (7.6mm) long, .090" (2.3mm) diameter.

#080-707-000DH Plunger Tube Support 8K10A54..... \$ 15.99

PLUNGER TUBE REAMER - Extra long reamers return the plunger tube to correct I.D. after staking - and provide plenty of spring clearance for positive operation. 

SPECS: Tool steel reamers. Approximately 7 1/2" (17.7cm) long. Includes (1) .0925" (2.34mm) and (1) .108" (2.74mm) dia. reamer.

#080-771-000DH Plunger Tube Reamer Set, 8K19B87..... \$ 29.99

KRIEGER 1911 AUTO DETENT SPOTTING DRILL

Cut Positive Detents On New Thumb Safeties/Slide Stops

Combination step drill and ball end mill aligns through the plunger tube and cuts new detents using only finger pressure. **SPECS:** Drill rod, 6 1/2" (16.5cm) long, .088" (2.26mm) diameter. **#492-002-000DH Detent Spotting Drill 2D00VBX . . . \$ 23.65**

ED BROWN 1911 AUTO BEAVERTAIL INSTALLATION JIG

Radius Frame Ears "Just Right"
For Brown Beavertail Safeties

Neat little jig "buttons" show you just how much of the frame ears to mill/grind away when installing Ed's Beavertail Safety. Just drop in the thumb safety pivot pin hole, scribe around, grind/mill close, then hand file right down to the hardened button. Includes instructions. **SPECS:** Hardened steel, 1/2" (12.7mm) dia. x 1 3/4" (4.4cm) long. **#087-145-886DH Brown Beavertail Jig 7H18B66 . . . \$ 23.35**

HARRISON DESIGN & CONSULTING 1911 AUTO GRIP SAFETY FIXTURE

Holds Beavertail Grip Safeties
Firmly In Place While Fitting

Precision machined fixture fits in place of the trigger to hold the grip safety securely in place while fitting it to the top of the frame tangs. Adjustable screw and pin allows precise positioning and retention of the grip safety and frame. For best results, use with thumb safety and mainspring housing in place. **SPECS:** Plastic body, stainless steel screw and adjustment pin. Body is 1 3/4" (4.45cm) long x 1/4" (.64cm) thick. Adjusts out to 2 3/4" (6.9cm). **#100-002-919DH Grip Safety Fixture 9B31Y95 . . . \$ 38.95**

WILSON COMBAT 1911 AUTO BEAVERTAIL FITTING JIG

Takes The Guesswork
Out Of Beavertail Fitting

Provides a precise guide for cutting the frame tangs on 1911 Auto frames; makes short work of installing Wilson High-Ride Beavertails. Install on frame and file up to guide; file will not cut the hardened jig. Remove jig and sand or file to fit. **SPECS:** Steel, in-the-white, hardened. Includes jig, fasteners and instructions. Fits Wilson and Clark beavertails. **#965-402-000DH 402 Beavertail Jig, 5F20A46 . . . \$ 24.95**

BROWNELLS 1911 AUTO EXTRACTOR REMOVAL TOOL

Fast, Damage-Free Extractor Removal

Dual-purpose tool gives fast, easy extractor removal. Handle end helps depress the firing pin to remove the stop, spring and pin. Lever end reaches easily into the slide, moves the extractor to the side, presses it to the rear for easy removal. **SPECS:** Steel, blue, matte finish. 6" (15.2cm) long, 3/8" (9.4mm) diameter handle, .150" (3.7mm) diameter lever. **#080-923-000DH Extractor Removal Tool, 8K20B23 . . . \$ 25.99**

WEIGAND COMBAT EXTRACTOR TENSION GAUGE SET

Eliminate
Extraction Problems

Accurately measure extractor/shell rim tension to help achieve reliable case feeding, extraction and ejection. Slips between the breech face and the extractor. Take measurement with your 6 lb. trigger pull gauge. **SPECS:** EDM brass, 2" (5cm) long. Set includes two double-ended gauges to fit 9mm/.38 Super, .40, 10mm/.45 ACP for most semi-auto pistols with exposed extractors and open breech faces. **#957-101-000DH Extractor Tension Gauge Set, 7E00PUA . . . \$ 14.95**

WEIGAND COMBAT 1911 AUTO EXTRACTOR TENSIONING TOOL

Improves Case Feeding,
Extraction & Ejection

Easily puts just the right bend in the extractor, without over-bending, for precise tension adjustment, right to the ounce. Use in conjunction with the Weigand Extractor Tension Gauges to fine tune the extractor for optimum extraction and feeding reliability. Carry in your range bag to keep the extractor performing its best. **SPECS:** Aluminum, natural finish, 2 3/4" long. Instructions included. **#957-000-037DH Extractor Tensioning Tool, 7E00ZAY . . . \$ 29.99**

BROWNELLS 1911 AUTO TRIGGER TRACK STONE

Polish The Channel To Reduce Trigger Pull Of 1911 Autos

Precision ground to fit inside the trigger bow frame ways; polishes out the manufacturing burrs and rough edges that interfere with trigger movement. Made of premium ceramic for fast cutting action that quickly imparts a very smooth surface. Easy cleanup with soap and water. Truly essential to achieving a light, crisp, trigger. **SPECS:** Medium grit, gray ceramic, .230" (5.8mm) square, 5" (12.7mm) long. **#080-721-230DH Trigger Track Stone, 8K12T18 . . . \$ 15.99**

BROWNELLS 1911 AUTO HAMMER SLOT STONE

The Right-Sized Stone For Semi-Auto Pistol & Revolver Work

Precision-cast, ceramic stone is an exact fit for smoothing the inside surface between the frame tangs on a 1911 Auto. That gives smooth hammer movement and a lighter trigger pull. We had it specially made for that one job, then, as we used it, we found that it works great for many others. It also fits the hammer slots on all Ruger "P" Series Pistols, all Ruger Revolvers plus all S&W K, L, & N frame revolvers. We didn't plan on such a versatile stone, but we're delighted it turned out that way. **SPECS:** Ceramic, brown, .302" (7.6mm) sq., 5" (12cm) long. **#080-625-002DH Hammer Slot Stone, 8K09C93 . . . \$ 13.99**

BROWNELLS 6" x 1/2" x 1/2" CERAMIC STONES

State-Of-The-Art Stones Combine Fast Metal
Removal With Fine Finish

Custom made to our specs from premium ceramic. The cutting action is very fast and the resulting surface very smooth. Perfect for all trigger work from burr removal to final finish. Use dry or with water as a lube (no messy oil); soap and water cleanup. Less fragile than Arkansas stones. Sold in two colors, **White** and **Black**. Ground sides for sharp, 90° edges and an extremely fine cutting action for polishing and smoothing triggers and sears, like the 1911 Auto, that require an exact 90° interface for best performance. **White** stones produce a finer cut than **Black**. Set contains one of each stone. **SPECS:** Steel, black oxide finish. 3 1/4" (8.3cm) long, 3/4" (1.9cm) wide. Includes .020" thick stainless steel shim and instructions. **#080-000-579DH Sear Fixture 8K24D99 . . . \$ 34.99**

BROWNELLS/YAVAPAI 1911 AUTO SEARTOOL

Adjustable For Angle Of Cut;
Lets You Examine Actual Hammer & Sear
Engagement At 25X!

Precision-machined tool incorporates a roller-type, sear stoning fixture that allows incremental cutting of both primary and secondary sear angles plus, a 25 power magnifier for detailed, up-close examination and precise changes in individual hammer/sear engagement. **SPECS:** Aluminum block, 3" (7.6cm) x 1.5" (3.8cm) x 3/4" (1.9cm). Includes 25X magnifier, steel roller, hammer pin, sear pin and complete instructions. **#080-835-001DH Brownells/Yavapai Sear Tool, 8K89U98 . . . \$ 135.99**

BROWNELLS 1911 AUTO SEAR STONING FIXTURE

Helps You Adjust Primary Sear Angle
For A Perfect Trigger Pull

Easy-to-use, hand-held tool retains the sear and positions it so you can stone the contact surfaces at the correct angles to produce a smooth, clean-breaking trigger free from unwanted creep. Helps you produce precise, mirror-finish surfaces for complete, full-width contact with the hammer to ensure reliable ignition while preserving proper operation of the thumb safety. Raising or lowering the fixture's setscrew lets you change sear angle. Fixture body is machined from solid carbon steel for years of service without loss of alignment. Includes a hardened, stainless steel .020" thick shim that prevents you from removing too much material from the sear, and protects the fixture body from wear. **SPECS:** Steel, black oxide finish. 3 1/4" (8.3cm) long, 3/4" (1.9cm) wide. Includes .020" thick stainless steel shim and instructions. **#080-000-579DH Sear Fixture 8K24D99 . . . \$ 34.99**

ED BROWN 1911 SEAR JIG

Sets Critical Sear Angle
For 1911 Trigger Jobs

Contoured design fits comfortably in the palm of your hand, holds sear at the correct angle for precise stoning. Adjustable positioning screw lets you make exact sear angle changes to increase or decrease trigger pull weight. Use with 6"x1/2"x1/2" stones to achieve a mirror smooth finish for a clean, crisp letoff. Includes complete instructions and .020" shim. **SPECS:** Stainless steel, 1" (2.5cm) wide, 7/16" (11.1cm) long. **#087-000-011DH Brown Sear Jig 7H31X88 . . . \$ 39.85**

MARVEL 1911 AUTO SEAR JIG

Locates Sear Precisely,
Guides Stone Accurately

CNC-machined, aluminum sear jig with stainless steel roller is preset to cut the primary and relief angles. Steel post corresponds with sear hole; side clamp holds the sear in place. Change angles by releasing the clamp and pressing down on the sear. Steel thread inserts in the drilled screw holes prevent wearing during adjustments. **SPECS:** Aluminum jig body and sear vise, natural finish. Steel roller, 3/8" (9.5cm) L x 1 3/4" (4.4cm) H x 1" (2.5cm) W. **#583-000-001DH 1911 Auto Sear Jig, 3H00BXC . . . \$ 54.99**

MARVEL PRECISION ULTIMATE 1911 SEAR JIG

Roller-Guided Stoning For
Precise Sear Engagement Cuts

Aluminum jig uses two rollers to guide your stone evenly over the sear to let you get the exact angle for a crisp, clean trigger pull. Three modes allow you to pre-set, mate, and set up for secondary stoning to ensure that the hammer-sear engagement is precisely set. An adjustable angle mode is also available for experimenting with different angles. Brass rollers prevent over-stoning the sear and an adjustable insert and knob work with the sear block to lock the sear in place to prevent movement. **SPECS:** Aluminum block, brass rollers. Includes instructions. **#588-000-003DH Ultimate 1911 Sear Jig, 8H129U99 . . . \$ 132.00**

BROWNELLS SIGHT BASE CUTTERS

CUSTOM MADE DOVETAIL END MILLS IN BOTH PREMIUM CARBIDE AND HIGH SPEED STEEL

LOW MOUNT 1911 AUTO SIGHT BASE CUTTER

60° Shoulder x .495"

These cutters are specially designed by us and made to our specifications for cutting the sight base slot required to mount the **Wichita** and **Novak Lo-Mount** 1911 Auto sights. Use 1/4" carbide end mill to remove the bulk of the material (see drawing above) then make final dovetail cut. Final cut to lower rear of slide is done with an end mill and is not a part of the sight base cut. Made slightly undersized to compensate for variations in sight bases and milling tolerances on installation. With the popularity of custom 1911 Auto pistols, this cutter is one that you will use frequently in your custom work. **CAUTION: For use in milling machine only.**

HSS DOVETAIL SIGHT BASE CUTTER - 2" (5cm). .495" diameter cut. 1/2" (12.7mm) diameter shank. 65° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAK TEETH.**
#080-621-495DH HSS Lo-Mount Sight Base Cutter,
 8K38X73 \$ 52.99

CARBIDE DOVETAIL SIGHT BASE CUTTER - Much harder and longer-lasting than HSS cutter. Use on hardened Colt factory slides. Solid carbide, 2" (5cm) long. .495" diameter cut. 1/2" (12.7mm) diameter shank. 65° shoulder.
#080-621-965DH Carbide Lo-Mount Sight Base Cutter,
 9K75X81 \$ 106.99

FRONT SIGHT DOVETAIL CUTTER

60° & 65° Shoulder x .300"

Cuts lengthwise dovetail required to install special handgun front sights from Jim Clark, Ed Brown, Bob Marvel and others. Slightly undersized to allow for precise final fitting and to compensate for any machine wear. **CAUTION: For use in milling machine only.**

HSS FRONT SIGHT DOVETAIL CUTTER - High speed steel. .300" (7.3mm) diameter cut. 3/8" (9.5mm) diameter shank. 60° or 65° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAK TEETH.**

SEMI-AUTO PISTOL SIGHT BASE CUTTER

60° & 65° Shoulder x .330"

Our special 65° shoulder Sight Base Cutter designed to cut dovetails for both standard Colt factory and mil-spec 1911 Autos, and for replacement sights like Wichita Hi-Mount, older Bo-Mar and others with a 65° shoulder. Some makers use a 60° dovetail on their rear sights and we also have a cutter to match them. For low-mount adjustable sights use the **Standard Sight Base Cutter** shown on this page. Actual cutting diameter is .330" so more than one pass will be required to install most sights. This is done on purpose to allow for factory variations in base width as well as milling tolerances. **CAUTION: For use in milling machine only.**

HSS SEMI-AUTO PISTOL SIGHT BASE CUTTER - High speed steel, 2" (5cm) long. 3/8" (9.5mm) diameter shank. 60° or 65° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAK TEETH.**

 7A57B93 80.99

FRONT SIGHT INSERT CUTTER

60° Shoulder x .245"

We've had many requests for a small dovetail cutter that would speed up the cutting of dovetails in front sight blades when installing colored inserts. The one we've had made cuts a 1/4" wide dovetail, just right for sight inserts, and the finished product is very precise. Since the cutter is small, (it tapers to a diameter of .110"), you must make an initial cut with a 1/8" end mill (listed below). By using the end mill to remove some metal first, you'll avoid overloading the cutter and breaking it. **CAUTION: For use in milling machine only.**

HSS FRONT SIGHT INSERT CUTTER - High speed steel. 2 1/2" (5.1cm) long. 1/4" (6.3cm) diameter shank. Maximum cut depth is .100" (2.5mm) 60° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAK TEETH.**

#080-621-245DH HSS Front Sight Insert Cutter,
 8K22X03 \$ 29.99

CARBIDE SIGHT INSERT CUTTER - Solid carbide 2" (5cm) long. 1/4" (6.3cm) diameter shank. 60° shoulder.
#080-621-246DH Carbide Sight Insert Cutter,
 7A46X42 \$ 65.99

HEINIE REAR SIGHT CUTTER

65° Shoulder x .370"

Cuts the .370 x 65° dovetail required when fitting Heinie rear sights. Solid carbide cuts the hardest slides with minimal wear.

#080-621-371DH Carbide Heinie Rear Sight Cutter,
 7A53X58 \$ 70.99

STANDARD SIGHT BASE CUTTER

60° Shoulder x .359"

Universal Sight Base Cutter made for sights with 60° shoulder and a 3/8" base. Cuts most standard front and rear rifle sights as well as 1911 Auto low-mount, adjustable sights like E.E.A. Super Sights, Millett and Bo-Mar-style. Cutter is slightly undersized at .359" which requires that you make two cutting passes to compensate for factory variations in sight manufacture and milling tolerances. Designed with proper relief for maximum strength and clean cutting. **CAUTION: For use in milling machine only.**

HIGH SPEED STEEL STANDARD SIGHT BASE CUTTER - 2" (5cm) long. 3/8" (9.5mm) diameter shank. 60° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAK TEETH.**

BROWNELLS

TRIGGER ADJUSTMENT PINS

Save Repeated Assembly/Disassembly

Precision-ground and hardened

ened trigger and hammer pins (.0005" tolerance) that mount on the outside of the gun frame, using the gun's own pin holes. Allows you to easily observe and adjust trigger pull and sear engagement without repeated disassembly/reassembly to "blind test" changes. Saves time and money; greatly improves chances of getting it right! **SPECS** M2 tool steel hardened to Rc 55-60. Fits 1911 Govt., Commander and Gold Cup.

#080-622-001DH 1911 Auto Trigger Adjustment Pins,
 8K21X90 \$ 29.99

POWER CUSTOM 1911 AUTO SERIES I STONING FIXTURE

Ultimate For Hammer & Sear Work; Accurate, Repeatable Setup

Save time and money by providing repeatable setup and accurate and measurable adjustments for 1911 trigger jobs. To use, mount hammer or trigger/sear on adapter, set and lock at correct index mark

as instructed. Set stoning angle by counting "clicks" specified to raise or lower elevator and stoning guide. Lock guide, place stone on both roller and hammer or trigger/sear, and stone as normal. Easily adjustable to allow variations in stoning angle for exact, desired trigger pull weight. Fixture is available with or without adapter. Instructions included. You will also need a #10 machinist's clamp and 6"x1/2"x1/2" stones.

SPECS: 5 3/8" (14.1cm) long x 2 3/8" (6.5cm) wide x 3" (7.6cm) high. 3/4" (19mm) thick base. 5 1/4 lb. (2.6 kg) Blued steel. **Fixture Complete** includes roller guide and Colt Govt. adapter. Adapter also sold separately.

POWER CUSTOM SERIES II STONING FIXTURE

Precise, Controlled Stoning Of 1911 Auto Hammer For Perfect Trigger Pull

Eliminates the guesswork and gives an accurate, repeatable method to achieve a crisp, clean-breaking trigger pull on semi-automatic firearms. Individual, easy-to-change **Adapter** attaches to a precision-ground indexing elevator column and clamps the hammer in the right position for correct stoning with the specially ground **Series II India Stone** or **Series II Hard Arkansas Stone**. Adjustable design lets you change hammer angle to meet the shooters' precise needs. **Series II India Stone** or **Series II Hard Arkansas Stone** required for use. Purchase separately; listed below. Universal Adapter fits 1911 Auto, plus High Standard rimfires, S&W 3rd. Gen., Browning HP, SIG 226 series, Ruger single and double Actions, Ruger 10/22, Beretta, and many others.

SPECS: Steel, blued, precision ground and hardened. 5" (12.7cm) 4" (10cm) high, 3" (7.6cm) wide. **Fixture** includes **Adapter**, hammer and sear clamp, three Allen wrenches and instructions.

TRIANGLE STONE HOLDER - Lets you use a common 4" x 1/2" triangular India stone in the Series II stoning fixture. Completely supports stone along its entire length to help prevent breakage and extend stone life. When the edge becomes dull, simply loosen the fixture and rotate the stone to present a new edge. Use as a hand-held tool for any stoning application where a flat, sharp edge is required. Rigid housing of 6061 T6 aluminum with a clamp pad and spacer of tough polyethylene securely grasp the stone and prevent slippage. Stainless steel bolts maintain proper tension while ensuring easy disassembly and adjustment.

SPECS: 6061 T6 aluminum, anodized, matte black, and polyethylene. 4" (10.2cm) long, 1 1/4" (3.2cm) wide, 1" (2.5cm) high. Includes (1) triangular 4" x 1/2" fine grit India stone.

BROWNELLS TRIGGER, HAMMER & SEAR KIT FOR 1911 AUTOS

Indispensable Tools To Help You Produce A Match Quality Trigger Job

A smooth, clean breaking trigger is one of the most important steps in fine tuning the 1911 Auto. We've brought together a complete selection of professional quality jigs, stones, files and more; plus, we've included clear, easy-to-understand instructions to help you produce that clean-as-glass trigger break and light, smooth-as-silk pull your customers want. This kit will help you modify most triggers, hammers and sears made for the Colt 1911A1, its many models and copies, including both the traditional single-stack and the popular double-stack variations. Complete kit includes each of the items listed below.

#080-785-000DH 1911 Auto Trigger/Hammer/Sear Kit, 8K230U22. \$ 306.99

① BOB MARVEL SEAR & HAMMER JIG - Three-piece combination jig/vises guides stone over hammer and sear. Makes both primary and secondary sear cuts simple.
#080-823-000DH Marvel Sear & Hammer Jig, 8K118T41. \$ 156.95

② BROWNELLSTRIGGERADJUSTMENT PINS - Let you test your stone cuts without repeated assembly/disassembly.

BROWNELLS HAMMER/SEAR PIN BLOCK

Allows Visual
Inspection Of Hammer
& Sear Engagement

Machined steel block allows you to mate the hammer and sear (or trigger) outside of the firearm for a clear, unobstructed view of the critical point of engagement. Accepts a wide selection of hammer and sear pins sized for various handguns and rifles. Dovetailed adjustment block rides in slotted channel so pin spacing can be precisely set to match individual frames and receivers. Allen screw locks the pin setting so hammer and sear can be dropped in place relative to their actual position in the firearm. Great for cutting the engagement surfaces on new parts or fine-tuning the factory ones. Pins are individually numbered for proper identification.

SPECS: Block - Steel, blued. Pins - Stainless steel. 2 1/2" (6.4cm) long, 1 1/16" (1.7cm) wide. Block and pins sold separately.

#080-000-098DH Hammer/Sear Block Hammer Pin, for 1911, 8K03H99. \$ 4.99

BROWNELLS 1911 AUTO HAMMER SQUARING FILE

Makes A Perfect 90° Cut When Squaring The Hammer Hooks

Our specially designed, two-sided, square file greatly simplifies trigger jobs by establishing the required, precise, 90°, hammer hook angle. Saves those easily-worn stones for setting hook heights and putting on the final polish. Safe on two sides, cannot damage hammer, and safe to use with the various hammer/trigger sear jigs. Keeps its sharp corners and dead flat edges, even after extended use. Available with or without black plastic handle.

SPECS: 5" (12.7cm) lg. Tapers, .185" (4.8mm) - .180" (4.6mm).

#080-752-000DH 1911 Hammer Squaring File, 8K25H13. \$ 34.99

BROWNELLS

1911 AUTO HAMMER STOP BLOCK

Saves Time, Speeds 1911 Trigger Jobs

Save time and effort, accurately evaluate trigger function and pull weight without installing and removing the slide each time. Slides onto the frame rails and locks solidly with a thumb screw; nylon pad cushions hammer fall, prevents damage to hammer and frame. Greatly simplifies action tuning and trigger work on 1911 Auto pistols. Does not interfere with safety or disconnector operation.

SPECS: Aluminum, silver, anodized finish. 1" (2.5cm) long, 1" (2.5cm) wide.

#080-929-000DH Hammer Stop Block 8K32X37. \$ 44.99

BROWNELLS SIGHT BASE FILES

The Professional Way To Safely Widen Or Cut New Dovetails
65°- 1911 AUTO-TYPE SLOT

Designed especially for widening and final fitting after using our 65° Sight Base Cutter to cut the basic slot. Or, can open up a 60° slot to proper 65° angle if changing to a new sight design. Has true parallel cutting edges for precision filing, giving you full control over the angle of the dovetail. One cutting side only, with the other two sides "safe", so you can widen or deepen sight slots safely without fear of changing the other dimensions.

(See Sight Base Cutters listed elsewhere.)

SPECS: 7" (178cm) long. 3/16" (4.8mm) wide **#1**, medium, double-cut. **#2**, fine, single-cut.

BROWNELLS 1911 AUTO NIGHT SIGHT MOUNTING FIXTURE

Helps Prevent Tritium Vial Breakage;
Accepts All 1911 Stake-On Sights

Heavy, solid steel fixture securely holds the slide and the night sight in the proper, damage-free position for fast and easy staking. Simply prepare the slide to accept the night sight, clamp the slide and sight in the fixture, then clamp the fixture in your bench vise. The night sight is now ready to stake using your Brownells 1911 Front Sight Staking Tool. Can be used with both Government and Commander length slides, and all 1911 stake-on sights.

SPECS: Steel, blue. 5 1/2" (14 cm) long, 1" (2.5cm) wide handle, 3/4" (19mm) thick. Includes instructions, clamping plate and screw.

#080-000-454DH Night Sight Mounting Fixture, 9B33C48. \$ 46.99

BROWNELLS 1911 AUTO FRONT SIGHT STAKER

Makes Sight Staking Easier

Makes front sight staking effort-less, faster and far more accurate. Improved, offset punch design efficiently directs the full force of the hammer blow downward against the sight tenon. Hardened, "V"-shaped tip easily displaces both wide and narrow tenons for a great-looking, tight-fitting front sight that won't shoot loose. Large, square shaft is easier to hold, see and hit so there's less chance of a missed hammer blow striking your customer's expensive slide.

SPECS: Steel, blued. 3/16" (7.9mm) x 1/2" (12.7mm) x 4 1/2" (11.4cm) long shaft. Replaceable, hardened steel tip. Fits 1911 Auto. Includes complete instructions.

#080-817-000DH Front Sight Staker 8K35T79. \$ 46.99

TRIJICON® 1911 AUTO SIGHT STAKING TOOL

Ensures Sight; Is Professionally
Mounted & Securely Staked

Install 1911 Auto, tenon sights so they won't fly off or shoot loose -- without damaging the sight or marking the slide. Solid steel mandrel fits into front of the slide; fixture adjusts to hold sight in place. Tap the hardened steel wedges with a hammer to displace the tenon material for a secure, professional installation that won't shoot loose. Use to install all narrow and wide tenon, skirted front sights, including Trijicon and Millett, plus non-skirted front sights no less than .185" in height.

SPECS: Tool - Steel blue. Wedges - Tool steel, hardened. Kit includes tool, wide and narrow tenon wedges, cleanup shear and complete instructions. Fits all 1911 Autos except Officers ACP.

BROWNELLS/KAISER SHOOTING PRODUCTS

UNI-200L UNIVERSAL SIGHT MOVER

Adjusts Both Front & Rear Dovetail
Pistol Sights

Versatile sight tool fits most semi-auto slides for easy, precise installation, adjustment, or removal of front and rear dovetail sights. Clamp the slide in the tool and move sights to the left or right by turning the T-handle. Rubbed padded jaw faces prevent slippage and protect the slide finish from damage. Works on a wide variety of pistols including 1911s, Beretta, FNP, Glock, HK, Kimber, S&W automatics, SIG Sauer, Springfield XD and XDM, Taurus, and more. Also gently moves fragile aftermarket Tritium night sights. Steel frame, inserts, and clamp block handle are machined from heavy bar stock for a lifetime of service. Pusher block is tool steel hardened to Rc 62, so it won't distort under pressure. Storage case included.

SPECS: Steel, matte black & natural silver finish. 3 1/2" (8.9cm) long, 1" (2.5cm) wide, 4 1/2" (11.4cm) high. 24 oz. (680g) weight.

#080-000-688DH Uni-200L Sight Mover, 9A126V40. \$ 159.99

MGW 1911 AUTO SIGHT MOVER

Removes, Installs & Adjusts
1911 Auto Pistol Rear Sights
Without Damage

Safely engages the standard, factory, fixed sight (some after-market fixed sights, too) and moves it right or left without deforming slide or sight.

Knurled thumbscrew locks the sight tool into the slide recesses. Hardened steel handle provides plenty of leverage to break rear sights loose from even the tightest dovetail. Bronze Oilite® bearings and extra-fine threads for smooth, precise adjustment.

SPECS: Anodized, aluminum body, steel, cross carriage bolt fits factory sights. **Colt** model: approximately 4 1/4" (12cm) wide, 3" (7.6cm) high, 3/4" (19mm) thick.

#584-045-001DH 1911 Auto Sight Mover 4H82T19. \$ 109.99

MEPROLIGHT® UNIVERSAL SIGHT INSTALLATION TOOL

Adjust & Install Over Forty Different Semi-Auto Pistol Sights

Universal bench tool provides accurate cross-dovetail pistol sight adjustment and installation without damage to the sight or the slide. Multi-position, slide support block and separate slide clamp adjust quickly. Body is machined from a solid block of aluminum alloy. Square thread adjustment screw provides plenty of leverage to move even the most stubborn sight without damage. Includes attachment ears for bench mounting.

SPECS: Body - Aluminum, black, hardcoat anodized finish. 6" (15cm) wide, 4 1/2" (11cm) high, 2 lb. (.9kg) wt. Adjustment Screw - Hardened steel. Includes complete instructions and pistol sight reference chart. Will not install tenon-style front sights.

#387-100-000DH Type II Univ. Sight Tool, 7H450U58. \$ 599.99

KIMBER SIGHT PUSHER - Heavy-duty steel sight pusher installs onto the screw shaft of your Type II Universal Sight Installation Tool to help you remove, install, and adjust Kimber sights. Precision-machined engagement lugs correspond with the Kimber, sight dovetail to push the sight where you want it to go.

SPECS: Steel, black oxide, matte finish. Approximately 1 3/4" (3.4cm) long, 1 1/4" (3.3cm) high, 1 1/2" (24mm) wide.

#387-000-029DH Kimber Sight Pusher 7H48T00. \$ 60.00

P500 UNIVERSAL SIGHTTOOL

**Safely Removes & Installs
Dovetail Front & Rear Sights;
Works On Shallow,
Cross-Dovetails**

Precision-machined, steel tool safely removes, installs and adjusts front and rear sights on handguns. Clamp your slide into the tool and line up the sights

with the tool's pusher tip for installation, removal, or adjustment. Mobile jaw customizes to the height of your slide and can be used from the right or left side. Delrin® liner protects slide from scratches. Includes three sight pushers that attach to the end of the sight-pushing bolt. ¼" square tip works perfectly on shallow, cross-dovetail sights. **Hold Down Clamp** helps prevent the slide from twisting in the frame of the P500 by applying extra force to the top of the slide. Provides a secure seat in the tool when working with hard-to-remove sights or slides with angled sides, like the Springfield Armory XD and the S&W M&P. **Slide Stop** speeds up the process of performing the same sight job on a large number of the same model pistol. Stop simply screws to the P500 frame and lets you position each slide in exactly the same place to perform the necessary sight adjustment quickly and easily. **P500 Universal Sight Tool Kit** combines P500 Universal Sight Tool with the Hold Down Clamp and Slide Stop to provide the ultimate of flexibility and versatility in a sight adjustment tool.

SPECS: Steel, black, powder-coat finish. Approximately 5" (12.5cm) long, 2" (5cm) wide, 1" (2.54cm) high. Instructions included. **Hold Down Clamp** - Steel, powder-coated, black. Approximately 4" (10cm) long, 1½" (3.8cm) wide, ¾" (9.5cm) high. Comes with clamp assembly, jaw screw, ½" hex wrench, and instructions. **Slide Stop** - 1018 steel, black oxide finish. Approximately 1½" (3.2cm) long, ½" (1.3cm) wide, 1" (2.5cm) high. Includes stop block, stop pin, hex wrench, (5) 6-32 setscrews, and instructions. **P500 Universal Sight Tool Kit** contains the P500 Universal Sight Tool, Hold Down Clamp, Slide Stop, and complete instructions.

#308 BUILDING THE 1911 STYLE LIMITED CLASS OR CARRY GUN VOL. 1 - 4 hours, 1 DVD. Gene Shuey covers accessories and modifications, installing and fitting parts, function, tuning, feeding and troubleshooting.

#050-120-308DH Building The 1911 Vol 1,
5K63P96 \$ 79.95

#309 BUILDING THE 1911 STYLE LIMITED CLASS OR CARRY GUN VOL. 2 - 3 hours, 1 DVD. Covers fitting slide to frame, barrel lockup, headspace and chamber reaming, ejector/extractor tuning, full length guide rods, selecting the right springs.

#050-000-001DH Building The 1911 Vol 2 5K63X96 \$ 79.95

#316 BUILDING THE ULTIMATE 1911 "HIGH CAPACITY PISTOL" VOL. 3 - 5 hours, 2 DVDs. Covers installing fiber optic sights, checkering and serrating steel, fitting a bull barrel with an oversize slide, setting a 1½ lb. trigger, installing an ambi safety, selecting the right finish, spring rates.

#050-000-002DH Building The 1911 Vol 3 5K63X96 \$ 79.95

AMERICAN GUNSMITHING INSTITUTE COLT 1911 ARMORER'S COURSE

Bob Dunlap. DVD format. 111 min. running time. Well lit, professionally photographed with sharply focused close-ups and good sound quality. Unique, classes go from history and design through a detailed stripping, cleaning and inspection. A How-It-Works segment is followed by detailed, one-step-at-a-time disassembly instructions. You'll learn many handy tips, like when to watch out for, and prevent, flying springs. Next, Dunlap does a thorough cleaning and oiling, pointing out things to look for which indicate problems that can be corrected before they cause a malfunction. The reassembly portion isn't just "reassemble in reverse order". You'll stop and look at the parts, learn exactly how to put the pieces back together correctly and pick up more repair tricks. Tuning Tips shows you ways to make sure the gun functions better than it did when you started. Accessories covers spare parts you should keep around, and why. All through the DVD, you'll pick up troubleshooting tips and cures.

NEW STORM LAKE 1911 AUTO PRE-FIT COMMANDER BARREL KIT

Complete, Ready-To-Install
With Little To No Fitting
Required

Save time and gain accuracy when re-barreling a 1911 Commander with this stainless steel, match-grade barrel. Comes complete with pre-fit bushing, link and pin to make building an accurate pistol fast and easy. Little to no gunsmithing required to install in most slides. Machined to tolerances within .001" in all critical areas and cut broach rifled to ensure accuracy. Heat treated to Rc 40-42 hardness for strength and durability. Available chambered in .45 ACP with integral Wilson-Nowlin (W/N) feed ramp or 9mm in standard (STD) configuration.

SPECS: 416 stainless steel barrel, bushing, link and pin. 4 1/4" (10.8cm) long. 1-16" left-hand twist rifling.

#842-000-086DH .45 ACP Pre-Fit Comm. Barrel, W/N, 2D156B57 \$ 189.99

#842-000-087DH 9mm Pre-Fit Comm. Barrel, STD, 2D156B57 189.99

NEW STORM LAKE 1911 AUTO DROP-IN COMMANDER BARREL

Ready-To-Install For
Immediate Accuracy
Improvement

Stainless steel barrel is ready to drop into a 1911 Commander for an instant improvement in accuracy. Locking lugs and barrel hood are sized to require little to no fitting on most pistols, using your choice of bushing, link, and pin. Precision machined to tolerances within .001" in all critical areas and cut broach rifled to ensure match-quality accuracy with jacketed or lead bullets. Heat treated to Rc 40-42 for the strength and durability to cycle thousands of rounds. Available in Standard (STD) unramped configuration or integral Wilson/Nowlin (W/N) feed ramp.

SPECS: 416 stainless steel. 1-16 left-hand twist. 4 1/4" (10.8cm) long. .45 ACP or 9mm.

#842-000-084DH .45 ACP Commander Barrel, STD, 2D126B13 \$ 149.99

NEW STORM LAKE 1911 AUTO PRE-FIT COMMANDER BULL BARREL

Flared Muzzle Eliminates
The Barrel Bushing

Drop-in, Commander-length .45 ACP bull barrel eliminates the need for a bushing and adds weight at the muzzle for additional recoil control. Locking lugs and barrel hood are sized to require little to no gunsmithing to fit most slides, using barrel link and pin of your choice. Made of high-grade 416 stainless steel and held to tolerances within .001" in the critical areas to ensure accuracy. Heat treated after machining to Rc 40-42 hardness for strength and durability. Features cut broach rifling for superb accuracy.

SPECS: 416 stainless steel. 1-16" left-hand twist rifling. 4.29" (10.9cm) long. .700" O.D. at muzzle. .45 ACP unramped.

NEW WILSON COMBAT 1911 AUTO 588 BULLET PROOF® BARREL BUSHING

Oversized Flange For A Full-Contact
Barrel Fit & Improved Accuracy

Durable stainless steel, barrel bushing has a .125" thick oversized flange for a full-contact fit, improved lockup, and more consistent accuracy. Almost as good as a custom barrel/bushing combination, yet usually requires only minor fitting. CNC machined from 416 stainless steel to precise dimensions for reliability and long service life. Requires the extra-long, 587 Bullet Proof Recoil Spring Plug, sold below, for a streamlined installation. Gunsmith installation recommended.

SPECS: 416 stainless steel, natural finish. Flange - .125" (3.17mm) thick. Fits .580" (14.7cm) O.D. barrels.

#965-000-120DH 588 Bullet Proof Barrel Bushing, 5F25Z20 \$ 29.99

587 BULLET PROOF RECOIL SPRING PLUG

Machined stainless steel Government model plug has a .030" longer cap than a standard plug for streamlined fit and finished appearance with the 588 Bullet Proof oversized barrel bushing. Concentric rings machined into the end of the cap give an eye pleasing, sleek look, and reduce the risk of the plug being scraped or marred by the bushing wrench. CNC machined from stainless steel bar stock for excellent durability.

SPECS: 316 stainless steel, natural finish. 1.6" (4.1cm) OAL, including .030" extended-length cap. Fits Government model.

#965-000-125DH 587 Bullet Proof Recoil Spring Plug, 5F12A58 \$ 14.99

NEW KIMBER 1911 AUTO AMBIDEXTROUS THUMB SAFETY

Captive Hammer Pin For Extra Support;
Low-Profile, No-Snag Pads

Ambidextrous thumb safety includes a unique, captive hammer pin for added support of the right paddle to provide exceptionally smooth, reliable operation. Factory replacement part for Kimber 1911 equipped with an ambi safety. Can also be installed as an upgrade part on Government Model, Commander, and clones. Low-profile pads won't snag on clothing or gear.

SPECS: Steel, matte black. 3/16" (4.8mm) wide x 7/8" (2.2cm) long left side contact area x 1" (2.5cm) long right side contact area. Fits Kimber 1911 pistols, Government Model, Commander, and clones. Gunsmith fitting required; may need to be filed for clear clearance.

#387-000-078DH Ambi Thumb Safety 7H53T27 \$ 59.99

NEW KIMBER 1911 AUTO FIRING PIN & SPRING

Factory Part For
Kimber Pistols;
High-Quality
Upgrade For Other
Series 70 Pistols

Stainless steel firing pin is a factory-original replacement for a Kimber 1911 firing pin and can be installed as a high-quality upgrade in Series 70 type pistols from other manufacturers. Heavy-duty, extra-power spring quickly returns the firing pin to the "ready" position, and helps restrain the pin to reduce the risk of an accidental discharge if the pistol is dropped while loaded.

SPECS: Stainless steel firing pin and high-carbon steel spring. Fits Kimber 1911 pistols, Series 70, and clones; .45 ACP only.

#387-000-079DH Firing Pin & Spring, 7H11T11 \$ 13.99

NEW STI 1911 AUTO BASE PAD RETAINER PLATE

Factory Replacement For Lost Or Broken Part

Molded black polymer plate retains the base pad on STI high-capacity magazines. Factory original part for replacing a lost or damaged plate to ensure your magazine's base pad stays put, even under heavy recoil and rapid fire.

SPECS: Polymer, black. Sold singly or in 5-pak.

#791-000-101DH STI Mag Base Pad Retainer Plate, 1G01A94 \$ 2.29

#791-000-100DH STI Mag Base Pad Retainer Plate, 5-Pak, 1G06A47 7.49

NEW CASPIAN 1911 AUTO TRIK TRIGGER

For Caspian
High-Capacity
Receiver;
Overtravel-Adjustable;
Non-Slip Serrations On Shoe

Designed exclusively for use on Caspian's high-capacity 1911 receiver, this trigger features a lightweight, skeletonized aluminum shoe with flat, serrated face to ensure positive finger contact. Polished finish on bow helps provide smooth operation with minimal-friction for a consistent, non-gritty pull. Adjustable stop screw lets you set overtravel to decrease the trigger's forward reset distance and allow faster follow-up shots.

SPECS: Fits Caspian high-capacity 1911 receivers only. 2 1/16" (6.2cm) OAL. .3 oz. (8.5g) weight. Shoe - Aluminum, natural finish. 5/8" (1.5cm) long, 1/4" (6.3mm) wide, 3/4" (2.3cm) high. Bow - Stainless steel, polished finish. 1 1/4" (4.4cm) long, 1" (2.5cm) wide.

#168-000-129DH High-Cap Trik Trigger 8F23C65 \$ 28.99

NEW KIMBER 1911 AUTO SPRING TUNE UP KIT

Correct-Weight,
Factory Original
Springs For
Reliable Cycling

Premium-quality, steel alloy springs help you keep your Kimber running as smoothly and reliably as it did when it came out of the box. These are the same springs that are installed in .45 ACP/.40 S&W Kimbers at the factory. Each kit includes a factory weight recoil spring, firing pin spring, and mainspring. Full Size kit fits original Government Model and full-size Kimber pistols with 5" barrel; 16 lb. recoil spring for all-around reliability with a wide range of ammunition. Pro-Carry kit fits Kimber Pro Carry pistols with 4" barrel; factory weight 22 lb. recoil spring. Compact fits Kimber Compact pistols with 4" barrel and short (Officers length) grip frame. Factory weight 22 lb. recoil spring.

SPECS: Tempered spring steel alloy.

NEW N.C. ORDNANCE 1911 AUTO "EXOTIC" GRIPS

Authentic-Looking
Simulated Mother Of Pearl Grips

Affordable, elegant-looking reproductions of exotic grips are molded from polyurethane resin and finished by hand for a precise fit. Hard, durable Pearl-like resin simulates the iridescent shimmer and feel of classic Mother of Pearl, and won't chip, shrink, or crack over time. Proprietary molding process ensures there are no unsightly air bubbles in the finished product. Available with or without gold Colt medallion.

SPECS: Pearl-like simulated mother of pearl molded polyurethane resin, white or black. Beveled bottom has cutout for mainspring housing pin. Minor fitting may be required.

AMERIGLO 1911 AUTO TRITIUM NIGHT SIGHT SET for KIMBER®

Low-Profile Combat Sights With Easy-To-See Tritium Dots For Fast Targeting In Low Light

Fixed, low-profile combat sights for Kimber pistols have two, self-illuminating, Tritium inserts in the rear sight and one in the front blade to provide an easy-to-see, 3-dot sight picture. Helps you acquire the sights and get on target quickly under stress. Works like a simple, 3-white-dot system for enhanced visibility in daylight. Nothing to turn on: as the ambient light gets lower, the Trijicon® Tritium dots start glowing. Extra-wide rear notch allows more light around the front blade, further speeding target acquisition. Drop-in replacements for Kimber factory fixed sights have sight bodies machined from steel barstock. Wedge shaped rear sight has fully rounded edges and sits low in the slide to resist snagging on clothing during the draw. 

SPECS: Machined steel, black, matte finish. Available with green front/green rear sight (G/G) or green front/yellow rear (G/Y). Fits Kimber pistols with factory fixed sights.

DC ENGRAVING 1911 AUTO GRIP FRAME CHECKERING GUIDE

For Perfectly Straight, Square Cut Front Strap Checkering

Self-aligning jig system makes it easy to create perfectly straight, square-cut checkering on the front strap of any single-stack 1911. Use the horizontal jig to score precisely straight, parallel lines across the front strap. The vertical jig aligns itself by clamping into the grip frame and lets you cut four to five lines at a time. Deepen or clean up your cuts as needed with a riffler file. Portions of the jigs that the files contact are heat-hardened to prevent unwanted wear. Brass tipped locking screw on horizontal jig protects the pistol frame from marring. Accepts all wide checkering files. 

SPECS: 1018 case hardened steel, blued, matte finish. Instructions and two Allen wrenches included. Fits single-stack 1911 Auto pistol frames. For 90° file cuts only.

#100-006-290DH Checkering Guide 2D61U54 \$ 79.99

NEW

SONIC SYSTEMS HG575 ULTRASONIC CLEANING SYSTEM

Cleans & Lubricates Two Handguns In Minutes

Cleans and lubricates two handguns with a combination of heated solution and ultrasonic frequency vibrations that remove the toughest fouling in 10-15 minutes. All-stainless steel construction in an affordable kit with everything you need, including heated tank with adjustable temperature control, 20 minute timer, and optional "constant on" setting. You also get two stainless steel baskets, lube pan, and two covers, plus 1 quart of cleaner and 1 gallon of lubricant—enough to clean, lubricate, and protect approximately 150 guns.

SPECS: Stainless steel. 14 1/2" (36.8cm) long x 7" (17.8cm) wide x 12" (30.5cm) high. 10.6 lbs. (4.8kg) weight. Internal Dimensions - 11" (28cm) long x 6" (15cm) wide x 6" high. Basket Size - 10 1/2" (cm) long x 5 1/2" (14cm) wide x 5 1/2" high. 120 volt AC. Heater - 300 watt, with 68°-176° F (20° - 80° C) temperature adjustment range. Transducers - (3) 40 KHz.

#100-005-309DH HG575 System 2E617X36 \$ 664.99

Centennial Edition 3-Gun Set and "Diamondback" Compact built by American Pistolsmiths Guild members in honor of the 100th year anniversary of America's 1911 pistol.

This year honors the 100th anniversary of "America's Pistol," John Browning's legendary 1911 Auto. For this very special centennial, the American Pistolsmiths Guild (APG) has masterfully crafted two, incredibly beautiful heirloom-quality prizes for two very lucky winners. The first winner will get his or her choice of an amazing 3-gun set of sequentially serial-numbered, presentation grade 1911s, or one of the most over-the-top custom compacts ever produced.

The artistically executed set of three matching pistols is built on Caspian frames and slides, with barrels by Bar Sto and action parts by Cylinder & Slide. The set includes: Serial #APG USA 01 - a full-size Government-length gun built by Colby Brandon and Virgil Tripp of Tripp Research, Inc., #APG USA 02 - a classic Commander created by Ralph Gutenkunst and William Laughridge of Cylinder & Slide, and #APG USA 03 - a very unique compensated carry pistol produced by Terry Tussey of Tussey Custom. The "Diamondback" compact, to be raffled off separately, started life as a full-size Springfield Armory pistol and is the joint achievement of Jason Chambless of Springfield Armory Custom Shop and Gemini Customs.

All four pistols have been beautifully engraved and inlaid by Guild Master Engraver, Brian Powell. The set is expertly polished, then finished with

a traditional deep blue by Alan Tillman, while the Diamondback compact wears a durable, yet elegant, Cobrachrome finish by Tripp Research.

Each of the matching 3-gun pistols also features a set of hand-crafted grip panels made of rare Sonoran Desert Ironwood with enameled Guild logo inlays. Wonderfully figured Elder Burl grips, with sterling silver "Top Hat Devils," adorn the Diamondback compact. All grips are the stunning work of Ed Strange of Wicked Grips.

Both the 3-gun set and Diamondback custom will include custom-fitted presentation cases by Les Yoder of Brookfield Case, Inc.

Aside from membership dues, the annual Raffle Gun drawing is APG's primary means of financial support. It helps the Guild further its goals of promoting superior quality and ethical business practices in the industry, and also provides funding for the APG Gunsmithing Scholarship program. The drawings for this year's guns will take place on November 1, 2011, and be announced by the APG treasurer. Only a limited number of raffle tickets will be printed, and at \$20.00 each, they're sure to sell out. For more information, visit americanpistol.com. To purchase tickets mail a check made payable to American Pistolsmiths Guild to: **American Pistolsmiths Guild, 3775 Foskett Road, Medina, OH 44256.**

Shop online at brownells.com

It's Simple, 100% Secure, and now
Faster than ever. Here's how:

Ordering an item from the Brownells Online Store is fast and easy. For example, let's say you are looking for J-B® Bore Bright.

- 1 Open your web browser and type **brownells.com** in the address box to access the Brownells website homepage.
- 2 In the **Search** box, type the product name or stock number (from your Brownells catalog) of the item you wish to find. Click the **Search** button. Your search results will appear. Click on the product image to view the product page. If you do not have the stock number or know the name of your item, you can also browse by category using the top tabs or left navigation menu.
- 3 Scroll to the bottom of the product page to view the **Stock Number, Description, Quantity, and Price**. If there are specific restrictions for the product, these will also appear under the **Notice** link. If you wish to purchase the product, click the **Add** button. The merchandise will automatically be added to your Shopping Cart. You can also add them to your Wish List or Favorites for fast re-ordering.
- 4 When you are finished shopping, click the **View Cart** link at the top right-hand corner of the screen to begin the Checkout process.
- 5 The Checkout screen allows you to view all selected merchandise in your Shopping Cart, modify your order, if needed, and confirm your order total. When you are ready to checkout, click the **Checkout** button.

Just **\$11.95** to ship your order anywhere in the United States including Hawaii, Alaska, Puerto Rico and U.S. Virgin Islands. Fill your order with as many items as you can (limit 5 lbs.), it's still just **\$11.95**.

- With our **One-Rate Shipping Program**, our Order Takers can give you your complete total at the end of your call. No guessing at total shipping charges. **It's \$11.95**
- Back Order Shipping Charges are **FREE!** Back Ordered items will be shipped by **Standard** service.

You also have three more great options for delivery:

- **2nd Day Shipping** - For just \$12.00 more (total of \$23.95) you can upgrade to 2nd Day Shipping for faster service at a low, low price.
- **Next Day Air** - If you really need your order in a hurry, it's just \$39.95 total to get your order there the very next day.
- **Special Small Package Rate** - For only \$5.35 you can ship any order with a packaged weight of 13 oz. or less.

From our total 30,000+ products, there are some items that are just too heavy to fit into this program. You'll find these products listed in the Yellow Index section of this Catalog.

CUSTOMER PRIVACY & SECURITY POLICY

When you do business with Brownells you don't have to worry that your personal information will become common knowledge because we value your trust above all. Our privacy and security policy is very simple. **We do not sell, distribute or give out customers' names or other private information to anyone at any time.** It has always been our policy to hold all customer information in the strictest confidence.

When you decide to use your credit card to pay for any purchase, your credit card and personal information are completely safe, and private, with us. Credit card security for our Website is handled by VeriSign, Inc., the world's leading provider of digital trust services. We make use of the latest 128-bit security encryption technology any time we ask for your name, address, e-mail address, credit card info or telephone number. Our servers are equipped with the latest dual application firewalls, hack detection and anti-virus technology to make certain your private information stays private and secure.
