### BIRCHWOOD CASEY CHOKE TUBE LUBE

Eliminates Stuck Choke Tubes, Barrel Damage

Non-evaporating, metallic base, anti-seize lubricant prevents corrosion and galling caused by high pressure loads and extreme temperatures.

SPECS: A squeeze tube, net wt. 3/4 oz. (21 g).

**#167-400-150 Choke Tube Lube, 5CSF10..... \$ 7.19**

**- 3 or More - Choke Tube Lube, per each, 5C3H87..... \$ 7.20**

### BIRLEY CHOKE TUBE SPEED WRENCH

Speed & Leverage To Quickly Remove Tubes

Aluminum fingers accurately align the wrench inside the tube and hold the teeth in place. Crank handle quickly spins tubes in or out. Fits factory choke tubes and Briley X-2 tubes. (Not for Briley special thinwall tubes.)

SPECS: Plastic knob, aluminum fingers/handle, stainless steel body.

**#129-070-012 12 Gauge Tube Wrench, 9B25F30..... \$ 29.99**

**#129-070-020 20 Gauge Tube Wrench, 9B25I31..... 31.99**

### CARLSON'S CHOKE TUBE WRENCH

**CARLSON'S UNIVERSAL WRENCH** - Fits all of the most popular brands of choke tubes.

SPECS: Steel, blued. 2" (5cm) long, 12 or 20 ga. only.

**#155-100-012 12 Ga. Univ. Choke Wrench, 5E14A32... \$ 17.19**

**#155-100-020 20 Ga. Univ. Choke Wrench, 5E14C32... 17.09**

**CARLSON'S UNIVERSAL CHOKE TUBE WRENCH** - Stronger, and a lot easier on your choke tubes and your fingers, than a quarter. Fits virtually every choke tube slot. Includes key chain.

SPECS: Stainless steel, 2 1/2" (6.3cm) long with 6" chain.

**#155-103-000 Universal Choke Wrench, 5E3N21..... \$ 4.49**

**CARLSON'S SPORTING CLAYS SPEED WRENCH** - Crank and handle provide both speed and leverage for quickly removing choke tubes. Large, easy-to-grip knob expands the vinyl, non-marking gripping surface that's inserted into the tube.

SPECS: Plastic knob, Aluminum shaft and handle.

**#155-102-020 20 Ga. S/C Speed Wrench, 5E16P45..... \$ 18.99**

**#155-102-012 12 Ga. S/C Speed Wrench, 5E15K73..... 18.89**

### COLONIAL ARMS CHOKE TUBE WRENCH

A Quarter With Guts!

"Ears" give the leverage needed to unscrew tight choke tubes damage-free. Good control for installation, too. Sized to fit Colonial brand tubes; fits many others. Pocket-sized.

SPECS: Steel. 2 1/2" (6.3cm) L, 1 1/4" (3.2cm) w., .059" (1.5mm) thick.

**#198-100-001 Choke Tube Wrench, 8A4N59..... \$ 5.99**

### BROWNELLS SCREW-IN CHOKE ADAPTER

Lets "Too-Thin" Barrels Accept  
Win-Choke®-Style Tubes

If a barrel is too thin to tap for screw-in choke tubes or it's chrome-lined (eats reamers/taps), or if the end has been bulged, you can install screw-in tubes. Simply turn the last 1/4" of barrel to dimension in chart and solder adapter in place.

SPECS: Alloy steel. 2 1/2" (6.3cm) lg. 12 Ga. .867" (22mm) O.D. Accepts Win-Choke®-style tubes (Colonial "Invisible" Tubes). Maximum bore diameter .735".

### BROWNELLS/CARLSON'S 3-GUN CHOKE TUBE SETS

Three Different Constrictions So  
You're Ready For Any Stage Of  
Competition

Brownells partnered with Carlson's to develop a set of 12 gauge choke tubes specifically optimized for 3-Gun competition. Having one of these sets in your range bag ensures you're equipped with the exact constriction for any stage, from flying clay pigeons to a troublesome marker next to a "no-shoot." Each set includes Improved Cylinder for close-range targets, Modified for mid-range, and Full for long-distance. These tubes are designed to throw tighter and denser patterns than conventional tubes, so be sure to pattern your shotgun with the shotshell load you plan to use to be sure you know the results you'll get with each of these tubes. Knurled rings give plenty of grasping surface for quick removal, and the constriction is laser marked on the end and body for easy reference. Can be used with lead, steel, or Hevi-Shot.

SPECS: 17-4 stainless steel, matte black. 12 gauge only. Remington - 2.875" (7.3cm) long. Fits most Remington shotguns. Winchester/Browning

Investor/Mossberg - 2.35" (5.97cm) long. Fits Winchester, Browning

Investor, Mossberg 500, Weatherby, and Savage. Benelli Crio® Plus -

3.75" (9.525cm) long. Fits Benelli Crio Plus choke system, including Super

Black Eagle II, CrioTech M2 and other models. All models for 12 gauge

only. Do not use slugs, sabots, or rifled slugs in constrictions tighter than

Improved Cylinder, and do not shoot steel shot larger than BB or any steel

load faster than 1,550 feet per second through the Full.

### BIRLEY BROWNING X-2 SCREW-IN CHOKE TUBE

Extended Length,  
Competition Grade Tubes  
Improve Pattern & Accuracy

Choke constrictions, from Cylinder to X-Full let you precisely match your load to the shooting conditions. Long tube extends beyond the length of the muzzle, features highly polished interior for less pellet deformation; reduced fliers and tighter patterns. Knurled grasping band speeds installation and removal. Choke constriction is marked on band, no need to remove tube to verify size.

SPECS: 17-4 stainless steel. Polished, bright finish. Extends beyond muzzle length approx. .812" (20.6mm). Use with lead and bismuth shot. Steel shot can be used with constrictions of Modified and larger. Beretta chokes will not fit guns with Optima choke thread.

### BIRLEY SPECTRUM MACH 1 CHOKE TUBE

Competition Grade Tubes, Extra High Polish  
Interior Improves Pattern & Accuracy

Minimum gap geometry and high resolution "RMS" interior finish gives less pellet deformation; consistently tighter patterns. Choke constriction is laser marked on color coded band, no need to remove tube to verify size.

Long tube with hidden wrench slots extends beyond the length of the muzzle. Knurled grasping band speeds installation and removal.

SPECS: 17-4 stainless steel. Polished bright finish. Extends beyond muzzle approximately .812" (20.6mm). Use with lead and bismuth shot. Steel shot can be used with constrictions of Modified and larger. Available to fit Browning Invector Plus and Beretta/Benelli.

### CARLSON'S BUCKSHOT CHOKE TUBES

Special Choke Tubes Give  
Tight Patterns With Buckshot

Steel choke tubes fit popular models of shotguns and give tight patterns with 00 and 000 buckshot. Chokes feature ports to help tame the recoil and muzzle jump produced by buckshot loads. Can be used with lead, steel and Hevi-Shot. Not for use with any steel shot larger than BB or faster than 1550 fps.

SPECS: 17-4 heat treated steel. Matte black finish.

### CARLSON'S BROWNING INVECTOR DS CHOKE TUBE

Patterns Better Than Standard  
Choke Tubes

Precision machined from 17-4 stainless steel, these choke tubes feature a 25% larger parallel section than conventional tubes, resulting in tighter, denser, and more consistent patterns. Choke size is laser etched on each tube for easy identification, and the knurled end makes removal quick and easy. Lead, copperplated, nickel Hevi-Shot™, bismuth, tungsten, or steel shot may be used in these choke tubes. Do not use steel shot larger than BB in any Sporting Clays Choke Tube tighter than full constriction.

### CARLSON'S WATERFOWL CHOKE TUBE SET

Helps Knock Down Ducks &  
Geese At Any Range

Three choke set helps you configure your shotgun to match your shooting conditions. Stainless steel chokes feature long parallel internal sections that throw tight, consistent patterns to help you bag more birds. Laser marked on end and body for easy identification and knurled for quick installation — just screw in the choke that matches your hunting situation. Close-Range choke is ideal for shooting over decoys out to 30 yards. Mid-Range choke is best for 25 to 40 yard shots. Long-Range choke designed for shots 40 yards and beyond. Chokes accept steel shot up to size BB, at velocities less than 1550 fps. Padded hard case fits into your pocket and keeps chokes handy in the field. Available in 12 gauge only, for several different shotgun makes and models.

SPECS: 1704 stainless steel, matte black finish. Chokes extend 3/4" beyond muzzle.

### WIN-CHOKE® or TRU-CHOKE™ -STYLE TUBES, WHICH SHOULD I THREAD BARRELS FOR?

Win-Choke®-style tubes are thicker and generally more available. Tru-Choke™ Standard-style tubes are thinner, and the Tru-Choke™ Thinwall-style tubes thinner yet, so a far wider range of barrels can be threaded to accept them. But, they are less available. Ideally, you would have tooling for all three styles and thread barrels for: Win-Choke®-style tubes when they are thick enough; Tru-Choke™ Standard-style on thinner barrels; Tru-Choke™ Thinwall-style tubes on the thinnest 12 ga. side-by-side and over-under barrels. But, that's a lot of money. So, measure the barrels of commonly used shotguns in your area, check "Screw-In Choke Installation Requirements" and buy the tooling that will convert the most guns.

**SPORTING CLAYS CHOKE TUBES**

Gives Tight, Consistent Patterns With Minimal Shot Deformation

Parallel section 25% longer than Carlson's conventional tubes helps produce even more consistent, dense shot patterns. Extra smooth interior surface minimizes shot deformation. Laser marked constriction provides fast identification. External knurled ring extends approximately 3/4" from end of barrel for fast changes between stations. Can be used with lead, steel, copper-plated, and nickel shot, as well as Hevi-Shot and buck shot. Steel shot larger than BB should not be used in tubes with Extra Full constriction. **SPECS:** 17-4 stainless steel, natural silver finish. **12 gauge only.** Constriction (SIZE) listed in tables below. Threads are as follows: **Win-Choke®** - .812"-32. Also fits Browning Invector, Mossberg 500, Weatherby, and Savage. **Browning Invector-Plus** - .820"-32. **Beretta** - .810"-1mm. Also fits Benelli M1 and Super 90. **Rem™ Choke** - .812"-32. **Crio-Plus** fit Benelli® CrioTech™ M2 and Super Black Eagle II.

**CARLSON'S**

**TACTICAL BREACHER CHOKE**

Provides An Extra Wide Shot Pattern; Serrated Tip Aids In Door Breaching

Machined steel, extended tactical choke with large diameter bore provides extra wide patterns at close range for home defense or CQB operations. Features a serrated, saw-tooth tip that holds tight against locks and hinges to prevent the muzzle from sliding during forced entry operation. Twelve, equally spaced ports redirect combustion gases to reduce felt recoil and prevent barrel damage when used for forced entry. Knurled gripping surface makes it easy to install and remove the choke without special tools. Precision machined from 1704 stainless steel for maximum strength, then treated with a manganese phosphate finish for improved wear resistance. Models available for Mossberg 835/935, Winchester/Savage/Browning Invector/Weatherby/Mossberg 500, Remington, and Beretta/Benelli shotguns. 12 gauge only. Can be used with lead, buckshot, hevishot, or steel shot without damage. **SPECS:** 1704 stainless steel, manganese phosphate finish, matte black. Fits 12 gauge only.

**TARAN TACTICAL INNOVATIONS  
BENELLI M1/M2  
ULTIMATE CHARGING HANDLE**

Ideal For Tactical & 3-Gun Use

Streamlined, stainless steel cocking handle features unique knurling and front serrations for a sure grip under all conditions. Perfect for 3-Gun or tactical operations. Crisp knurling on the outer edge, with pronounced horizontal grooves closer to the receiver give you an excellent purchase on the handle to load a round smartly into the chamber on the first try. Machined from ultra-durable, hardened stainless steel, with a tough, darned-near indestructible IonBond (Rockwell "C" 95) finish. "Used and trusted by the best 3-Gunners on Earth." **SPECS:** Stainless steel, silver Ion Bond finish, 2.2" overall length, 1" handle length. **#100-012-546 M1/M2 Chrgng Hndle, Silver, 7Z45D89... \$53.99**

**BROWNELLS MOSSBERG 500/590/835  
ENHANCED SAFETY BUTTON**

Shaped For Easy, No-Slip Operation; Made From Hardened Steel To Last

Drop-in replacement for plastic factory button offers rugged, all-steel construction and a raised, crispy grooved ridge to give your thumb extra purchase for fast, "can't miss" operation on the first try. Steps in the body are cut deeper than original part for additional grab even with wet hands or when wearing gloves. Reversible design allows shooters with small-to medium-size hands to position the thumb ridge farther back to help them operate the safety without having to break their grip; shooters with large hands can place the ridge forward to give them more room. Precision machined from 4140 steel, heat-treated for extra hardness and wear resistance, with a durable, matte, black oxide finish. **SPECS:** 4140 steel, oxide finish, matte black. Fits Mossberg 500/590/835 shotguns. **#080-000-539 Moss. 500 Safety Button, 8K17184... \$20.99**

**SAFETY KIT** - Includes the Brownells Enhanced Safety Button and the other parts in the safety system that get worn, dinged up, or lost. Replace everything at the same time to ensure smooth, positive, reliable operation of this critical component. Safety button screw also sold separately, so you don't have to buy a whole new kit if the screw gets damaged during installation. **SPECS:** Kit includes enhanced safety button, button screw, detent plate, detent ball, detent spring, and installation instructions. Fits Mossberg 500/590/835 shotguns. **#080-000-564 Moss. 500 Enhanced Safety Kit, 8K38119... \$39.99**

**#631-000-014 Safety Button Screw, 1C5J99... 7.99**

**NEW!**  
**INNOVATIVE INDUSTRIES  
REMINGTON 870/1100/11-87  
"HONEY COMB" EXTENDED SAFETY**

Oversized Button With Non-Slip Texturing

Replacement for the factory safety button has an oversized .425" dia. head with a neat, non-slip honeycomb pattern milled into the surface. Great for your competition shotgun or for positive operation of a field gun in rainy weather! Made of machined, heat-hardened steel with a satin black oxide finish. .100" extended. Does not have the red ring of the factory button. Can also be installed on the model 740, 742 and 760 rifles. **#100-036-365 Rem 870/1100 "Honey Comb" Safety, 6A11A99... \$14.99**

**MOSSBERG MOSSBERG 500  
METAL SAFETY BUTTON**

Replace Factory Plastic With Genuine Factory Metal Button

A genuine Mossberg replacement for the factory plastic part made to their specs from tough, durable aluminum. Won't fail when you really need it. Drops right in with no modification to the receiver or the detent settings. Safety button screw also available, so you can replace everything at the same time to ensure smooth, positive, reliable operation of this critical part. **SPECS:** Button - Aluminum, black, 1.19" (30mm) long, .30" (7.6mm) wide. **SPECS:** 4140 steel, hardened and blued, right-hand only. Fits Remington: 7600, 7400, 6, 4, 48, 58, 552, 572, 740, 742, 760, 870, 1100, 11-48, 11-87, SPT-10, 12, 74, 76, with or without ISS safety. **#631-000-287 Moss. 500 Safety Button, 1C19P54... \$22.99**  
**#631-000-014 Safety Button Screw, 1C5J99... 7.99**

**SCATTERGUN TECHNOLOGIES  
TACTICAL RESPONSE®  
JUMBO HEAD SAFETY**

Easy-To-Find, Oversized Button For Remington

Jumbo size head with undercut grooves is drop-in replacement for the small factory button. Makes it easier to find and operate, even with gloves on. **SPECS:** 4140 steel, hardened and blued, right-hand only. Fits Remington: 7600, 7400, 6, 4, 48, 58, 552, 572, 740, 742, 760, 870, 1100, 11-48, 11-87, SPT-10, 12, 74, 76, with or without ISS safety. **#800-100-002 Jumbo Head Safety, 8Z15B29... \$17.99**

**TARAN TACTICAL INNOVATIONS  
BENELLI SHOTGUN  
OVERSIZED SAFETY BUTTON**

Designed For Faster Operation

Solid steel safety with oversized head was originally designed for 3-gun and tactical gun shooters for fast and positive operation, even when wearing gloves. Also great for hunting, home defense, and any other situation where seconds count. Clean, smooth disengagement; reassuring, positive "click" when engaging. Long enough to operate without repositioning your trigger finger, with an extended "safe" side to give you more leverage to engage the safety quickly. Easy, user-friendly, no-gunsmithing installation. How can you afford not to make this simple, valuable upgrade to your shotgun's controls? **SPECS:** Machined billet stainless steel, with natural silver finish OR black nitride finish. Fits Benelli M1, M2, M3, M4, Super Black Eagle, Montefeltro, and Remington VersaMax®. **#100-012-548 Benelli Ovrzszed Safety, Sil, 7Z31M99... \$39.99**  
**#100-026-276 Ultimate Ovrzszed Safety, Blk, 7Z30P39... 37.99**

**VANG COMP SYSTEMS REM 870/1100/11-87  
BIG SPEED SAFETY**

Easy-To-Locate, Quick-To-Disengage

Large, dome-shaped button is quick to locate. Just a quick push with the side of your trigger finger will disengage the safety. Round profile does not snag clothing or guncase liner. Drop-in installation, right-hand use only. **SPECS:** Steel, blue, polished finish. .960" (24.4mm) long. Head -.350" tall (8.9mm .433" (11mm) diameter. **#100-000-569 Big Speed Safety, 6K13G59... \$16.99**

**VANG COMP SYSTEMS MOSSBERG 500/590  
OVERSIZED SAFETY**

Provides Easier Safety Engagement

Oversized, aluminum safety is larger than the factory part in every dimension to give your thumb more surface area for engagement. Taller height, wide back end and more pronounced steps give you more pushing leverage. **SPECS:** Aluminum, black, anodized. Approximately 1 1/4" (4.4cm) long, 3/16" (12.3mm) wide, 7/16" (6.7mm) high. **#100-001-364 Mossberg Oversized Safety, 6K22D09... \$25.99**

**NEW!**  
**WILSON COMBAT  
REMINGTON 870/1100/11-87  
SCATTERGUN TECHNOLOGIES  
DOMED SAFETY**

Easy To Locate & Operate Under Stress - And Your Finger Won't Slip Off

Unlike the flat-topped factory safety button, the head of Wilson's safety sits a little more "proud" of the receiver so you can rapidly locate it and positively operate it as you mount the gun for a quick shot. Multiple, deep concentric grooves cut into the surface mean that once your finger locates the button, it will not slip off, even if it doesn't quite land spot on the center of the button. Great for competition and tactical/self-defense guns, as well as your field gun. Made of steel, not plastic, with a blued finish that matched the factory receiver finish. Easy to install. **#100-040-576 Rem 870/1100/11-87 Dome Head Safety, 8Z14A24... \$14.99**

**ARIDUS INDUSTRIES BERETTA 1301  
SHELL LATCH UPGRADE KIT**

Eliminates a Design Flaw So Your Gen1 1301 Won't Let You Down at the Wrong Time

Aridus's upgrade part solves the "catastrophic shell dump" problem that plagues first-generation Beretta 1301 shotguns. This malfunction occurs when the factory shell stop latch is accidentally activated, releasing multiple shells into the gun's receiver and locking up the action. NOT good for a competition shooter's times and far more serious in a law enforcement or self-defense emergency! When under stress, a shooter can inadvertently move the latch lever to the rear rather easily, causing the problem. Based on an original design by Tom Jones of Tau Development Group, Aridus's upgrade is a two-part solution: a redesigned lever PLUS a shroud that further protects it from accidental activation. Both latch and shroud are machined from 6061 T6 aluminum alloy and given a matte black Type III hard-coat anodized finish, so they're ready to stand up to intensive use. Simply remove the factory latch and install the Aridus replacement parts using the included mounting screw (a spare screw is included because... screws can be damaged or stripped), thread locker, and hex wrench. When you're done, you now have the peace of mind of knowing your 1301 won't sabotage (and embarrass) you in competition or leave you high-and-dry when the chips are down on duty or when you hear the wrong kind of "bump" in the night. **Brownells Gun Tech™ Note:** Because the second-generation Beretta 1301 was redesigned to eliminate the shell dump malfunction, Aridus's parts are NOT compatible (or needed) on a Gen 2 gun. **#100-027-574 Beretta 1301 Shell Latch Upgrade Kit, 2A56Q99... \$59.99**

**ARRENDONDO BENELLI  
CARRIER RELEASE BAR**

Oversized For Quick Release

Plastic, oversized bar gives you a large area to hit for fast release of the carrier in Benelli semi-auto shotguns. Speeds up the reloading process. Bar mounts to existing release button and requires drilling and tapping button. **SPECS:** Plastic, black, 1 1/8" (47.5mm) long, 9/16" (14.2mm) wide, 1/4" (6.3mm) high. Screw included. Gunsmith installation recommended. **#069-000-015 Carrier Release Bar, Benelli, 9F19A54... \$22.99**

**BRILEY BERETTA  
EZ BOLT RELEASE LEVER**

Extra Long For Quick, Easy Access

Extra long, easy-to-reach bolt release lever replaces the original factory button for fast, painless reloading during combat or competition. Made of aluminum, then is hardcoat anodized for durability; includes a diamond pattern, textured face for a non-slip grip. High strength, steel cartridge latch is titanium nitride coated for superior wear resistance. Fits Beretta 301/302/303/390/391/3901/A400 Xplor/Xtreme/Xtreme2, 12 and 20 gauge shotguns. **SPECS:** Lever - Aluminum, black, anodized finish. Cartridge Latch - Steel, gold, titanium nitride finish. Lever - 1 1/4" (2.6cm) long x 7/16" (1.1cm) wide. .3 oz. (8.5g) weight. **#129-000-256 EZ Bolt Release, 9B63E99... \$79.99**

**TARAN TACTICAL INNOVATIONS  
BENELLI SHOTGUN  
OVERSIZED BOLT RELEASE**

The Right Size for Defense or Competition

Oversized bolt release button is the perfect size for competition but still small enough to stay out of the way on a tactical or defensive shotgun. Easy-to-hit, large pad helps you get the gun back into action quickly when seconds count. A must-have enhancement for your 3-gun shotgun. Fits Benelli and other brands shotguns that have a similar-design bolt release. **Note:** Installation requires drilling and tapping of the release - #38 drill and 5-40 tap (not included, available separately). Gunsmith installation recommended. **SPECS:** Aircraft-grade aluminum, hard-anodized, matte black OR matte gray finish. 1" (2.54cm) long, 9/16" (1.43cm) wide, 7/16" (.4cm) thick. Requires drilling and tapping for installation. **#100-012-547 Oversized Bolt Release, Gray, 7Z23B79... \$27.99**  
**#100-025-691 Oversized Bolt Release, Blk, 7Z23B79... 27.99**

**TARAN TACTICAL INNOVATIONS  
BENELLI ACCUGUIDE  
EXTENDED CARRIER**

Eases Loading And Helps Increase Speed For Competition

Stainless steel extended carrier drops into Benelli semi-automatic shotguns and provides extended rails on both sides that help perfectly center the shell during the reload. Helps make reloading fast and easy and protects your thumb against cuts and abrasions. Installs quickly and eliminates the need to weld together a custom carrier. **SPECS:** SAE 304 Stainless steel. Fits Benelli M1/M2/M3/SBE and Remington Versamax. **#100-015-582 Benelli Accuguide Extended Carrier, 7Z76F49... \$101.99**

**GUARANTEED. FOREVER.®  
SINCE 1939**

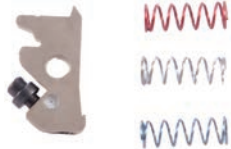

## TIMNEY TRIGGERS REM 870/1100/11-87 TRIGGER FIX

For A Light, Smooth, Adjustable Trigger Pull

Drop-in kit replaces original factory sear and spring for a smoother, lighter, fully adjustable trigger pull that helps you shoot more accurately. Comes with three different weight springs to lower the heavy factory trigger pull to a comfortable 2, 3, or 4 lbs., then fine-tune the pull with the adjustment screw using the included hex-head wrench. Springs are color-coded for easy identification. **■**

**SPECS:** Steel sear. Includes 2 lb. (blue), 3 lb. (white), and 4 lb. (red) springs, plus hex-head wrench. Fits Remington 870, 1100, and 11-87 shotguns, all gauges. Also fits 740, 742, 760, 7400, and 7600 rifles.

**#883-000-022 Rem Trigger Fix, 3HOOPPM . . . . . \$ 102.99**

## BROWNELLS REMINGTON 1100/11-87 INTERCEPTOR LATCH RETAINER

Oversized To Minimize Latch Wobble

Thicker-than-factory replacement decreases the amount of play in the latch body to improve feeding and ensure positive operation. Available in three different thicknesses. **■**

**SPECS:** Steel, black oxide, matte finish. .025" (.64mm), .030" (.76mm), or .035" (.89mm) thick.

## VOLQUARTSEN REMINGTON 870/1100 EXACT EDGE EXTRACTOR

An Inexpensive Upgrade For Smooth Function & Long-Term Reliability

Upgraded extractor is EDM cut from high-grade tool steel that's been hardened to Rc 58-60, maintaining your Remington's reliable and dependable function. Cut to tolerances of +/- .0001" with a very precise hook point, and the edges won't get dull and "roll off" with hard use to cause extraction problems, like inferior stamped steel extractors. Drop-in replacement for factory part. **■**

**SPECS:** A2 tool steel, hardened to Rc 58-60. Fits both Remington 870 and 1100 chambered for 12 or 20 gauge.

**#930-000-144 Rem 870/1100 Exact Edge Ext., 3Z22J49 . . . \$ 24.99**

## BROWNELLS SHOTGUN ANTI-WALK TRIGGER HOUSING PIN

Prevents Pin & Housing Movement For Repeatable Trigger Performance

Eliminates pin drift in the receiver holes so your trigger housing stays in the same place for every shot. Slotted, truss head screws at each end of pin keeps trigger housing properly aligned and free of wobble. Helps deliver reliable trigger performance in tactical and competition guns. Remington includes both front and rear, anti-walk trigger pins. **■**

**SPECS:** Steel, blued finish. Remington - Fits Remington 870/1100/11-87. Mossberg - Fits Mossberg 500/590. Winchester - Fits Winchester 1200/1300/1400. Benelli - Fits Benelli Super 90, Winchester Super X and Browning Gold.

## CARLSON'S SEMI-AUTO SHOTGUN GAS O-RING REPLACEMENT PAK

Replace Worn Out O-Rings To Help Restore Proper Gas System Function

High-grade silicone rubber O-rings replace old, worn, or cracked rings to provide a proper seal and restore gas system reliability. Fits a wide variety of 12- and 20-gauge shotguns. 20-gauge rings will fit many 28 gauge shotguns, too. **■**

**SPECS:** Rubber, black. Fits Remington 1100/11-87, Beretta, Winchester, Franchi, Charles Daly, Tri-Star, EAA, and others. Kit contains (4) 12 gauge rings and (2) 20 gauge rings.

**#155-000-102 Gas O-Ring Pak, 5E10H39 . . . . . \$ 12.99**

## BROWNELLS REMINGTON 1100/11-87 GAS O-RING PAKS

Graphite-Coated For Lasting Performance

These high-quality O-rings are perfect for replacing old, cracked or worn O-rings in your 12 gauge 1100/11-87 Remington. Restores the airtight seal on your semi-auto so the gas system will function efficiently and reliably. Also works with other shotguns that use an O-Ring barrel seal such as: Pro Bore Guns, G-3 models, Beretta shotguns, Franchi shotguns, Winchester shotguns, Charles Daly shotguns, Tri Star shotguns, EAA shotguns and many others. Available in packs of 3, 10 and 25. **■**

**SPECS:** Rubber, graphite-coated O-rings. Fits 12 gauge Remington 1100/11-87 and other shotguns that use an O-ring barrel seal.

## REMINGTON 1100/11-87 GAS SYSTEM KIT

Replacement Piston, Piston Seal & Barrel Seal To Maintain Performance, Cycling & Reliability

Factory components replace worn out, carboned-up factory gas system components to restore the reliability and performance of your shotgun. Includes corrosion-resistant, 300 series stainless steel piston and piston seal, plus Teflon coated barrel seal for durability and long service life. Drop-in, long-lasting replacement parts require no gunsmithing. Installation instructions included. **■**

**SPECS:** Teflon barrel seal, stainless steel gas piston and piston seal. Kit contains piston, piston seal, and barrel seal. Fits 12 gauge Remington 1100/11-87 only.

**#767-000-930 Rem 1100/11-87 Gas System Kit, 7F27F19 . . . \$ 33.99**

## REMINGTON 1100/11-87 PISTON & PISTON SEAL ASSEMBLY

Factory Replacement Part Keeps Your Semi-Auto Functioning

Steel piston and piston seal replaces worn parts for proper functioning and reliability. Drop-in, long-lasting factory replacement part requires no gunsmithing and comes with factory installation instructions. **■**

**SPECS:** Steel. Installation instructions included.

**#767-200-295 Piston/Piston Seal Assembly, 7F17H99 . . . \$ 19.99**

## GLEND ARMS WINCHESTER MODEL 12 FIRING PIN

Precision-Made - Duplicates Original

Ready for installation by gunsmith. Precision workmanship. Duplicates original. Saves waiting for, or having to make, one. **■**

**SPECS:** Heat treated steel, blued. Fits Winchester Model 12 chambered in 12 gauge only. Gunsmith fitting may be required.

**#350-100-102 Win. Mod. 12 Firing Pin, 5C23Q39 . . . . . \$ 25.99**

## NU-LINE WINCHESTER 101 FIRING PIN SET

Better-Than-Factory

Precision machined from stainless steel and heat treated for long life. Big improvement over the factory part. **■**

**SPECS:** Stainless steel. Rc 45-50. Includes upper and lower pin and 2 springs. 12 ga. ONLY. Will fit Classic Doubles.

**#655-101-000 Win 101 Firing Pin, 12 Ga., 5E51H29 . . . \$ 56.99**

## CARLSON'S MOSSBERG 590 SHOCKWAVE PORTED BARREL

Helps Shooters Ride the "Wave With Less Shock"

Mossberg's Shockwave self-defense shotgun has become wildly popular, and it's great fun to shoot, except... the recoil and muzzle rise can be a bit much for some shooters. So Carlson's came up with this drop-in, factory-length (14") upgrade barrel with 22 ports up front (11 per side) to redirect a bit of combustion gas to counteract muzzle rise AND reduce felt recoil. Takes a lot of the "shock" out of shooting your Shockwave! A green Hi-Viz fiber optic sight up front helps you make the most of your new-found enhanced control over the firearm, and the cylinder bore choke keeps its patterning - and slug friendliness - essentially unchanged. Matte blued finish. For use on 12 gauge Mossberg 590 Shockwaves only. **■**

**#100-027-786 Ported 12 Ga Mossberg 590 Shockwave Barrel, 5E189B54 . . . . . \$ 222.99**

**OPSOL MOSSBERG 500/590/590A1/ MAVERICK 88 MINI-CLIP™ SHELL ADAPTER**

Lets You Shoot Short, Lighter-Recoiling Mini-Shells in Your Mossy AND Fit More Round in the Tube

Looking for an easy, inexpensive way to enhance the capacity and lower the recoil of your 12-gauge shotgun? It's possible with the addition of the OPSol Mini-Clip! This small aftermarket adapter fits easily into the opening located under the receiver of any Mossberg 500, 590 590A1, Shockwave, or Maverick 88 12-gauge shotgun. Once installed, the clip allows for reliable cycling of short, 1¾" personal-defense shotshells, such as those from Challenger and Aguila, straight from the magazine. Want to shoot longer shells? The clip comes out just as easily as it went in, taking mere seconds. Another benefit of the Mini-Clip™ is that by enabling the reliable feeding of mini-shells, it allows smaller-statured and recoil-sensitive shooters to shoot the tried-and-true Mossberg 12 gauge platform without the wrestling with full 12 gauge recoil. No need to hunt down a more expensive 20 or 28 gauge gun. The OPSol folks like to say this: with a Mini-Clip™ and 1¾" ammo, ANY shooter can stay "in the game" without all the pain. **#100-026-444** OPSol Mini-Clip Shell Adapter, 9Z12Q79 ..... \$ 15.99

**NU-LINE GUNS WINCHESTER 37A FOREARM SPACER**

Restore Your 37A To Shooting Condition

An impossible to get factory part that's necessary to keep that 37A shooting. Locates the forearm on the barrel and keeps the barrel from coming off. **SPECS:** Plastic, black. **#655-003-037** 37A Forearm Spacer, 5E14P99 ..... \$ 19.99

**KALASHNIKOV USA KS-12/KS-12T MAGAZINES**

Factory Replacements for Your Kalashnikov Shotgun

These are factory magazines for the KS-12, KS-12T, and Saiga-12 shotguns. Made from durable yet lightweight reinforced polymer and available in 5- or 10 round capacities. Accept both 2¼" and 3" shells, 12 gauge only. **#100-034-974** KS12 Magazine, 10-Rd, Black, 3C33M24 ..... \$ 34.99 **#100-034-975** KS12 Magazine, 5-Rd, Black, 3C26J59 ..... 27.99

Factory Replacement for Panzer & Shotguns from Other Mfrs - Just Don't Use It To Invade France!

This rugged 10-round magazine fits the Panzer Arms AR-12, AR-12 Pro, and BP-12 Bullpup, as well as the MKA 1911, BR-99, FR-99, and the Rock Island Armory VR60 and VR80. 12 gauge only! C'mon, who ever has enough spare mags on hand, especially if you own one of these fast-cycling semi-auto competition/tactical shotguns? **#100-034-502** PW Panzer 12 ga. Shotgun Mag, 10-Rd, 3Z25E49 ..... \$ 29.99

**PRO MAG SAIGA 12 DRUM MAGAZINE**

Super-High-Capacity Mag For Competition Or Recreation

High-capacity drum magazines are great for three-gun competition—fewer mag changes mean faster times and better scores. Made from hard-wearing, injection-molded polymer for reliable service. Access cover keeps out dirt, dust, and debris, yet can be removed for cleaning or maintenance. Due to varying tolerances on Saiga shotguns, minor fitting may be required; fitting instructions included. **20-Rd** model features a thumb activated slide assist to retain the spring to help you load rounds quickly. **12-Rd** features a translucent cover to see how many rounds remain. **SPECS:** Polymer, black/translucent. Fits Saiga 12 gauge shotguns only. Accepts 2¼" shells only. Instructions included. **20-Rd** – 7" (17.8cm) dia., 3" (7.6cm) thick. 2 lbs., 4 oz. (1 kg) wt. **12-Rd** – 5" (12.7cm) dia., 3" thick. 1 lb., 3 oz. (538 g) wt. **#687-000-061** Saiga 12 Drum Magazine, 20-Rd, 7H92Q64 ..... \$ 108.99 **#687-000-062** Saiga 12 Drum Magazine, 12-Rd, 7H73C09 ..... 85.99

**GUARANTEED. FOREVER.® SINCE 1939**

## PRO MAG SAIGA-12 10-ROUND MAGAZINE

Lightweight & Reliable-Feeding,  
Ideal For Competition

Lightweight, molded polymer magazine has reinforced steel feed lips to ensure reliable delivery of all 10 rounds to the chamber of your 12 gauge Saiga shotgun. Ideal for the three-gun competition shooter, with deep, "waffle" texturing on the outside for a secure grasp during high-speed mag changes. Extra length ensures that even when fully loaded there's extra compressibility to the round stack so the magazine can be inserted with the bolt closed. 

**SPECS:** Reinforced injection-molded polymer, black, 10-round capacity. Fits Saiga 12 gauge shotguns only.

**#687-000-029** Saiga-12 Magazine, 7H32B29 ..... \$ 37.99

## MOSSBERG 590M FACTORY REPLACEMENT MAGAZINES

What Good's Extra Capacity If You Have To Keep Stopping To Reload Mags? Problem Solved.

The 590M wasn't the first detachable box magazine-fed 12 gauge shotgun. But we're pretty sure it is the first that uses double-stack polymer mags to keep the bulk below the receiver to a bare minimum. These are the same Mossberg factory-original magazines that came with your 590M, so you know they'll feed and function reliably. The mag body is molded from tough, reinforced hard polymer that is so slick inside it's self-lubricating, so it keeps the anti-tilt curved-face polymer follower moving smoothly. A heavy-duty ASTM-A-228 music wire spring provides plenty of force to keep that follower - and the shells sitting on top of it moving. A round limiter prevents overloading the mag to preserve spring life. On the outside, that slickness isn't a liability because of the deep, "easy-grip" ridges molded into the surface so you'll get plenty of purchase for fast mag swaps. The floorplate comes off easily for cleaning. Of course, you can't send plastic to do steel's job, so the feed lips are made of hardened steel to they will not crack, break, or otherwise deform if you need to keep a loaded mag sitting for a while. Anti-corrosion black oxide finish on all the steel parts. *For use with 2 3/4" 12 gauge shells only.* 

**#631-000-370** 5-Rd Moss 590M Mag, 1C100N79 ..... \$ 111.99

## SGM TACTICAL SAIGA 12 12-ROUND MAGAZINE

Rugged, Smooth-Feeding, All-Polymer Construction

High-capacity magazine of tough, lightweight polymer composite lets you load up and fire 12 rounds before reloading your Saiga 12-gauge shotgun—ideal for home defense or three-gun competition. Reinforced, injection molded Dupont™ polymer construction ensures durability and a slick, self-lubricating interior for fast, reliable feeding. Raised horizontal ridges on the grasping areas ensure a secure grip when removing and inserting mag into the gun. Removable floorplate for easy cleaning; precision wound steel spring is treated with a corrosion-inhibiting coating for long-lasting protection from rust. Counts as three parts for compliance with U.S. Code Title 18 Section 922(r) part-source requirements. 

**SPECS:** Fiberglass-reinforced, injection-molded Dupont polymer, black, 12 round capacity. Fits Saiga 12 gauge shotguns only.  
**#100-005-783** 12-Rd Saiga Shotgun Magazine, 4D50A14 ..... \$ 58.99

## BROWNELLS "FITS-ALL" SHOTGUN MAGAZINE PLUG

Universal - "Snaps" At Notches To Fit All Gauges & Lengths;  
Fits More Guns Than Other Plugs - Orange, Poly Plastic

Ever spent the better part of an afternoon "manufacturing" a new magazine plug for a customer? It's a trial-and-error process that keeps the customer happy but makes you poor. With our universal "Fits-All" Plug, all that's required is a simple "snap" at the correct notch to fit all popular shotguns. For those oddball guns with non-standard length magazines, simply "notch" the "Fits-All" with a shop knife at the length required and "snap"! It's that easy! Complete instructions and convenient "Snap-To-Fit Chart" included. Made of unbelievably tough polypropylene with an oversize head to position it correctly in all magazines - Won't slide or rattle. Bright, safety-orange color is easy to see and find. Fast, economical way to help your customers comply with migratory game bird laws. **SPECS:** 10 7/16" (26.8cm) long, 9/16" (14.3mm) diameter head, 1/8" (9.5mm) ribbed body.

## BROWNELLS SHOTGUN FOLLOWERS

Tough, Durable Replacement  
For Factory Followers

Lightweight aluminum or stainless steel followers for Remington, Mossberg, and Benelli shotguns. Tough construction holds up to years of competitive and law enforcement shooting and won't wear out after thousands of rounds, break under spring pressure, or degrade when cleaning solvents are used. Bright colors let you see immediately if the magazine is empty. Vented design reduces weight to help promote smooth feeding. Stainless steel (SS) followers are natural finish. Aluminum followers are available in red, orange, green and black, depending on model and gauge. **SPECS:** Aluminum or stainless steel. *Benelli does not fit Nova or Super Nova, fits 12-gauge 3" Magnum guns. Remington fits 870, 1100 and 11-87.*

**#100-011-062** Low Drag Follower, 20 Ga., 1B15A30 ..... 18.00

## PHASE 5 TACTICAL LOW-DRAG HIGH-VISIBILITY FOLLOWER

Helps Shell Feed Smoothly;  
Provides Visual & Tactile  
Verification of Weapon Clear

Here's a replacement for your 12 gauge scattergun's factory follower that'll help your gun feed more reliably. This follower has about one-third the bearing surface of a standard cylindrical follower. That means less friction and less risk of binding for smoother movement of rounds through a mag tube. Plus, the cutouts provide a conduit for fouling and crud to exit, so if it's been a bit too long since you cleaned the gun,

you're less likely to suffer a failure to feed during that critical stage of the competition! The bright color - your choice of red, blue or green - and the center hole help you verify both VISUALLY and by FEEL that the weapon is clear. Machined from 7075 T6 aluminum billet, which is 80% stronger than the much softer 6061 alloy, so these followers will last a long time. 12 gauge only. Fits most shotguns that do not have detents on the magazine tube. **SPECS:** 1.7" (4.3cm) long, .91" (23mm) diameter. 12 ga. only. Fits Remington 870, 1100 and other miscellaneous shotguns with no detents in magazine tube.

**#100-036-032** L-D High-Vis Follower, Red, 1C18N99 ..... \$ 19.99  
**#100-036-030** L-D High-Vis Follower, Blue, 1C18H99 ..... 19.99  
**#100-036-031** L-D High-Vis Follower, Green, 1C18N99 ..... 19.99

## SCATTERGUN TECHNOLOGIES TACTICAL RESPONSE FOLLOWER

Smooth-Feeding; Highly Visible

Fluorescent green, combat-style follower with projection on the head, instantly shows by sight, or by touch, if mag is empty. Molded from non-rusting, high-impact grade ABS with tapered tail to help prevent magazine spring bind and improve reliability. **SPECS:** 1.7" (4.5cm) long, .91" (23mm) diameter. 12 ga. only. Fits Remington 870, 1100 and other miscellaneous shotguns with no detents in magazine tube. 

**#800-100-004** Magazine Follower, 8Z7E99 ..... \$ 9.99

## SCATTERGUN TECHNOLOGIES REMINGTON MAGAZINE SPRING PACKAGE

For Law Enforcement & Self-Defense Shotguns

Easy-to-install kit includes long-wearing, ABS nylon, high-visibility, fluorescent green follower for improved feeding. Plus, the Wolff spring relieves spring bind, and won't "set". **SPECS:** Fits Rem. 870, 1100, 11-87, SPT-12. Springs and follower will fit most 12 ga. shotguns with standard magazine tubes, plus those equipped with one- or two-round (6 or 7 shot) extensions.

## VANG COMP SYSTEMS REM 870/11-87 STAINLESS STEEL FOLLOWER

Strong, Dependable Replacement For  
Factory Followers

High-visibility stainless steel follower replaces the factory follower in Remington 870 and 11-87 shotguns. Won't break under spring pressure, won't rust and holds up to years of shooting. Bright stainless steel makes it easy to see how many rounds are left in the magazine tube. Ribbed side and drilled out center hole reduce weight without jeopardizing overall strength. **SPECS:** Stainless steel, 3/8" (1.6cm) long.

**#100-002-463** 12 Ga. Stl's Steel Follower, 6K13H59 ..... \$ 16.99

## BRILEY SHOTGUN MAGAZINE EXTENSION TUBE

Increases Round Capacity;  
Easy To Install; Rugged,  
All-Metal Construction

Precision-machined aluminum extension tubes increase the magazine capacity of your 12-gauge Benelli, Beretta, or Winchester shotgun. Each tube has an extra-thick wall for added rigidity and strength. Ideal for shooting competitions, law enforcement, and home defense. Screws onto the factory magazine threads for fast installation in minutes. Knurled grasping surfaces aid installation and removal for cleaning. **SPECS:** 6061 T6 aluminum, black finish. Fits 12 gauge only. Includes tube extension, tube connector, spring, and follower.

**MESA TACTICAL REMINGTON/BENELLI TACTICAL BARREL/MAGAZINE CLAMP**

Secures Extended Mag Tube & Mounts Accessories Up Front

Lightweight, aluminum clamp locks barrel and extended magazine tube together to form a rigid, rock-solid assembly. Can be used as a tactical light mount; install a 1" diameter light in one side of the clamp and secure the other side to the barrel or magazine. Left- and right-side sling swivel sockets accept standard pushbutton swivels. Two steel Allen head screws pull the clamp halves together for a tight, non-slip hold. Also available with a 2" long, 4-slot, MIL-STD 1913 Picatinny rail that can be installed in the 3- or 9- o'clock position, for mounting additional accessories. Fits Remington 870, 1100, 11-87 and Benelli M1, M2, M4, M1014, 12 gauge shotguns.

**SPECS:** 6061 T6 aluminum, mil-spec Type 3 hardcoat anodized, matte black. Clamp - 1 1/2" (3.8cm) long, 1 1/8" (3.5cm) wide, 1 1/8" (4.1cm) high. Rail - 2" (5.1cm) long. Includes mounting hardware. Fits Remington 870/1100/11-87 and Benelli M1/M2/M4/M1014, 12 gauge only.

Screw-On Tubes For Increased Capacity

Give you additional magazine capacity in only a minute. Quick and simple to install and remove. Threaded tube replaces magazine cap. Perfect for action shooting events or Law Enforcement. Remington and Benelli/ Beretta models only come with sling swivel clamp that secures the extension to the barrel for extra support. Provides a convenient front mounting point for carry strap or sling. **SPECS:** Extension - Steel, blued (B) or Parkerized (P), matte finish. Models for 12 ga. and 20 ga. only. Includes extended spring, follower and swivel clamp. Sling Swivel Clamp - Blued or Parkerized steel, front and rear 1" swivel rings with studs. Chart indicates number of ROUNDS (RDS) in addition to factory magazine capacity for each model.

**NORDIC COMPONENTS MXT EXTENDED SHOTGUN MAGAZINE TUBES**

Screw-On Extender Bumps Up Your Shotgun's Mag Capacity

Nordic's strong, lightweight, extruded aluminum tubes increase the capacity of your shotgun's magazine. Each has a machined clamp groove that eliminates clamp slip due to recoil and helps prevent point of impact shifts or damage to the barrel's finish. Reinforced end cap resists heavy impacts, and threads on both ends of the tube body allow the user to flip it to best match the clamp groove location to the shotgun. Installs in minutes using a machined union nut that attaches to the end of the factory tube. Retains your gun's factory follower. Some models may require removal of factory magazine tube crimp.

**Initial Setup:** To expand the capacity of your shotgun's factory magazine tube, you'll need the correct Extension Tube Nut for your gun and the Extension Tube Kit that gives the capacity increase you want. Sold separately, below.

**Later on...The Good News:** If you want to change the capacity of your MXT assembly, you don't have to purchase another complete set - just get the MXT tube that gives you the capacity you need (and possibly a new spring - both sold below).

**SPECS:** CNC machined aluminum, hardcoat anodized, matte black. Benelli fits M1/M2, Super Black Eagle I & II. Benelli Nova fits Nova/Super Nova, Beretta X-trema/X-trema 2, Tx4, A400 and CZ 712. Beretta fits Benelli Nova, Super Nova, Beretta 1301/391 Xtrema/Xtrema 2, A400/A400 Xterme. Mossberg fits 590, 930 and 935. Remington fits 870, 1100, 11-87 and 105 CTI. Stoeger fits Model 2000, Franchi I-12, Affinity, Intensity. Extension for M3000/M3500 fits those models only. Winchester fits SX2/SX2, Browning Gold/Silver, FN SLP. **NOTE:** Tube threads not compatible with Nordic XX, XL and XXL end caps.

**CARLSON'S SHOTGUN MAGAZINE EXTENSION TUBES**

Adds Firepower To Your Favorite Shotgun

Ideal for competition shooting, home defense, and law enforcement, these extension tubes increase the magazine capacity on your Remington, Benelli, CZ, and Beretta shotguns. Constructed of blued steel, extensions come with spring, base clamp, and a high visibility follower. No modification needed, simply remove the magazine

cap and replace it with one of these threaded extension tubes. Benelli M4 7 shot extension tube does not include clamp or follower. Remington extensions require removal of tabs in magazine on newer model shotguns. Extensions available in 12 gauge only. **SPECS:** Steel, blued finish. Includes spring, base clamp, and follower. Magazine round count based on 2 3/4" shells. Fits 12 ga. only.

**FALCON INDUSTRIES ERGO GRIP® 3-RAIL**  
**SHOTGUN FOREND**

Easily Converts Shotgun  
 For Tactical Applications &  
 Accessories

Ultra-strong, lightweight, slide assembly replaces your shotgun's forend with three MIL-STD 1913 Picatinny rails positioned at 3, 6, and 9 o'clock for mounting tactical lights and other accessories. Nine, removable rubber rail covers let you expose the exact parts of the rail needed for accessory attachment, while covering the rest of the rails with a comfortable, no-slip gripping surface that protects your hand when shooting and cycling rounds. **SPECS:** Extruded aluminum, matte black. Rubber rail covers, black. 6 1/4" (15.9cm) long.

#573-000-039 Rem. 870 Forend, 3G73H94. . . . . \$ 86.99

**ERGO GRIPS MOSSBERG 500/590/SHOCKWAVE**  
**M-LOK® RAIL**

Need a Light or Laser on  
 Your Shockwave? Here's  
 the Place To Put 'Em

Ergo's machined aluminum forend brings M-LOK® accessory mounting versatility to the Mossberg Shockwave. It easily replaces the factory forend to give you three M-LOK® accessory mounting slots each in the 3, 6 and 9 o'clock positions, so a light, laser sight, clamp-on sling swivel mount, and any other accessories can be mounted easily. It adds zero additional bulk to the gun and - due to its all-aluminum alloy construction - the bare minimum of extra weight. "All aluminum" means this forend won't flex, bend, break, or otherwise let you down in a critical self-defense emergency. While specifically designed for the Shockwave, this forend will fit any Mossberg 500 or 590 shotgun. Overall length is 5.8" (vs. 6.9" for Ergo's full-size Mossberg 500/590 M-LOK Rail). An excellent option for folks who prefer a shorter, more compact forend and the speed, ease, and convenience of M-LOK® accessory attachment. **SPECS:** Machined 6061 T6 aluminum, with a durable Type III hardcoat anodized finish, matte black. 5.8" OAL.

#573-000-091 Moss 500/590/Shockwave M-LOK Rail, 3G73J94 . . . . . \$ 86.99

**ERGO GRIPS REMINGTON TAC-13**  
**AR-15 BRACE/PISTOL GRIP**  
**ADAPTER**

Give Your TAC-13 AR-15  
 Ergonomics & Handling

Ergo's adapter attaches to the rear of your TAC-13's receiver to serve as a sturdy mounting point for an AR-15 pistol grip and an AR pistol arm brace. It accepts both pistol and M4 carbine receiver extensions, AND both Commercial and Mil-Spec (1.13" O.D.) carbine tubes. Works equally well with an optic or "iron" sights. Machined from solid aluminum for rock-solid strength, with a non-reflective black hardcoat anodized finish. All necessary mounting hardware included, but you'll have to supply your own receiver extension, stock, and pistol grip! **SPECS:** Remington TAC-13 AR-15 Stock Adapter, 3G80M75. . . . . \$ 85.00

#573-000-094 Remington TAC-13 AR-15 Stock Adapter, 3G80M75. . . . . \$ 85.00

**HOGUE REMINGTON/MOSSBERG  
TAMER PISTOL GRIP & FOREND**

**Hand Filling For Maximum Grip & Control**

Comfortable, rubber over-molded pistol grip and forend provide maximum performance and recoil control in all types of shooting scenarios. Advanced Tamer technology features an internal Sorbothane cushion that helps dampen felt recoil in the web of the hand. Pistol grip design includes dual palm swells and equally proportioned finger grooves, allowing both right- and left-handed operators to shoot with confidence. Pebble textured rubber surface provides a firm grip even when wet. Models available for Remington 870, Mossberg 500, 590, and 835. Rem. model includes 1 1/8" wide sling loop molded into pistol grip. **SPECS:** Molded polymer, overmolded rubber, black. **Rem.** - Forend is 7 1/2" (19cm) long, 1 1/4" (4.4cm) wide, 1 1/4" (4.4cm) high. Grip - 6" (15.2cm) long. **Mossberg** - Forend is 7 1/2" (19.7cm) long, 1 1/8" (4.7cm) wide, 1 1/4" high. Grip - 5 1/4" (14.6cm) long.

**ARMSTECH, LLC REMINGTON 870  
TACTICAL STOCK ADAPTER**

**Converts Your Shotgun To A Tactical Workhorse**

Impact-resistant, Tactical Stock Adapter provides a strong, lightweight coupler to attach pistol grips and CAR-15 style butt stocks to the popular, Remington 870 shotgun. 33% fiberglass-reinforced nylon provides superior strength with minimal weight increase; won't warp, crack, or shrink in extreme weather conditions. Tight-tolerance, molding process ensures proper fit and virtually eliminates unsightly mold seams. Slight, 7° angle drops the butt stock for an improved sight path with barrel-mounted sights. Allows 10" to 13" length-of-pull adjustment when used with a collapsible, "shorty" stock. **SPECS:** Fiberglass-reinforced nylon, matte black. 2 1/4" (7cm) long, 1 1/2" (3.8cm) wide, 3" (7.6cm) high. Includes locking ring and grip hardware. 5 oz. (142g) wt. Fits Rem 870, 12 ga.

- #432-000-002 Tactical Stock Adapter, 2C34B84 ..... \$ 40.99

**ADVANCED TECHNOLOGY PUMP SHOTGUN  
TACTICAL SHOTGUN SYSTEM**

**Improves Control & Handling Convenience**

Tough, synthetic stock provides secure handling in all weather conditions. Furnished with adapters and spacers for installation on various Mossberg, Remington, and Winchester pump shotguns. Easy to install, drop-in installation. **SPECS:** Nylon polymer, black. Pistol grip - 2 1/8" (6cm) wide, 3 1/2" (9cm) tall, 1 1/8" (3cm) thick. Approximately 13 1/2" (35cm) L.O.P. Fits Moss. 500/535/590/835/Maverick 88, Rem. 870, Win. 1200/1300. 12 ga. models only.

**PUMP SHOTGUN FOLDING STOCK** - Nylon-resin folding stock quickly flips open/closed for maximum maneuverability and compactness. Pistol grip provides additional control. Latch can be reversed for right- or left-handed shooters. Includes sling swivel. **SPECS:** Nylon polymer, black. Pistol grip - 2 1/8" (6cm) wide, 3 1/2" (9cm) tall, 1 1/8" (3cm) thick. Approximately 13 1/2" (35cm) L.O.P. Fits Moss. 500/535/590/835/Maverick 88, Rem. 870, Win. 1200/1300. 12 ga. models only.

**#019-000-010 Folding Shotgun Stock, 9A64J27 ..... \$ 74.99**

**HEAT SHIELD** - Formed steel with elongated cooling slots protects your hands from burns. Provides a secure, non-slip, grasping surface, plus maximum heat dissipation. Simply slide over barrel and secure with supplied hardware. Black oxide finish matches most shotgun finishes. No gunsmithing required to fit most popular 12 ga. pump guns. **SPECS:** Steel, black oxide, matte finish. 13 1/4" (35cm) long.

- #019-000-004 Heat Shield, 9A22N09 ..... \$ 25.99

**HEAT SHIELD W/GHOST RING SIGHT** - Self-centering rear ghost ring with large, .122" I.D. aperture for fast target acquisition. Formed steel with elongated cooling slots protects your hand from burns and provides maximum heat dissipation. Front blade with side guards protects the blade from damage. Easy installation, simply slide over barrel and secure with supplied hardware. Fits 12/16/20 ga. and .410 pump shotguns. **SPECS:** Shield - Steel, black. 13 1/2" (35cm) long. Sights - Polymer, matte black. Aperture - .122" (3.1mm) ID. Fits 12/16/20 ga. and .410 pump shotguns.

**MESA TACTICAL  
URBINO TACTICAL SHOTGUN STOCK**

**Improves Comfort & Maneuverability With Body Armor**

Pistol grip stock of rugged, fiberglass-reinforced nylon polymer has a short 12 1/2" (31.7cm) length of pull that makes it easy to shoulder and maneuver when you're wearing body armor. The removable, five-position cheek riser helps you position your head for best alignment with an optic while maintaining a solid cheek weld. Pistol grip has ample contact surface with deep horizontal grooves for a secure grasp and excellent weapon control. Shock-absorbing padding on the backstrap helps protect your hand from recoil, while the Limbsaver® recoil pad helps reduce felt recoil. Includes a 1 1/2" slot rear sling loop, plus a stud on the underside for a QD sling swivel. **SPECS:** Injection-molded, glass-filled nylon, black. 12 1/2" (31.7cm) length of pull, 2 1/2" (5.4cm) wide, 7 1/2" (19cm) tall with cheek riser at highest elevation. 1 lb., 10 oz. (748g) wt. Mounting hardware and installation instructions included. **Benelli M1/M2** also fits M3, Super Nova, and Super Black Eagle; will not fit SE II and some older M1 variants. **Benelli M4/M1014** includes forearm.

### MAGPUL

## REM 870/MOSSBERG 500 SERIES SGA™ STOCK & ACCESSORIES

New Versatility For The World's Most Popular Shotguns

Innovative, integrated accessory system lets you apply the "Magpul Method" to make the tried-and-true 12 gauge 870 and Mossberg pump actions into state-of-the-art tactical shotguns exactly fitted to your mission requirements. Major components are made from the same tough, hard polymer Magpul uses for their AR-15 stocks to ensure superb durability under harsh conditions.

**SGA STOCK** - User-configurable stock offers improved ergonomics, including a spacer system that lets you tailor the length of pull to the individual shooter in 1/2" increments from 12 1/2" to 14 1/2". Ergonomically enhanced grip area is similar to a pistol grip and a recoil-absorbing butt pad delivers excellent control and pointability. Accepts optional cheek risers (sold below) to change the comb height. Both sides have a slot for threading on a 1/4" wide sling. **SPECS:** Reinforced, hard-molded polymer, Black, Dark Earth, Stealth Gray, or Orange. **Rem fits Remington 870, 12 gauge only. Moss fits 12 gauge 500, 590 and 590A1. Mounting hardware and instructions included.**

## ARIDUS INDUSTRIES BERETTA 1301 ASA-1301 STOCK ADAPTER

Lets You Upgrade Your Beretta Competition Gun With a Magpul® SGA® Stock

This simple adapter enables you to install the Magpul® SGA® buttstock for the Mossberg® 500/590 on your Beretta 1301 Tactical or 1301 Competition shotguns. So yes, now you can use the best shotgun stock ever designed on one of the best semi-auto shotguns ever built! The point where the stock attaches to the receiver is one of the highest stress points on any shotgun, so any adapter has to be strong enough for the job - and Aridus's is. It's machined from 6061 T6 aluminum and contoured to fit tightly, without unwanted play, and blend smoothly with both receiver and stock. Attachment hardware is made of 4140 steel. Easy to install, and the finished installation looks like the gun came from the factory with the SGA installed. Military-type hardcoat anodized finish on the adapter; Parkerized finish on the steel fastener. The SGA stock easily attaches to the Aridus assembly the same way it does to the Mossberg. Once the SGA stock is installed, your 1301 now has the adjustable LOP, multiple sling attachment points, and unmatched ergonomics that Magpul engineered into it.

- #100-027-575 SGA Stock Adapter, 2A62L70. . . . . \$ 66.00

## MESA TACTICAL REMINGTON 870 TELESCOPING STOCK CONVERSION KITS

Gives A Tactical Shotgun M4 Carbine Handling; Optional Recoil Reduction System

Bolt-on replacement stock gives your shotgun the control and adaptability of a collapsible M4 carbine stock. Telescoping, five position buttstock allows fast length-of-pull adjustment to adapt to body armor and heavy tactical clothing. Aluminum receiver adapter bolts to rear of receiver with included mounting hardware and requires no permanent alterations to your gun. Accepts the included M4 SOPMOD buttstock or any aftermarket stock that fits a mil-spec (1.14" O.D.) buffer tube. Hogue overmolded rubber pistol grip with palm swells and finger grooves bolts solidly to the receiver adapter to reduce recoil shock and give the shooter better control. Includes one push-button sling swivel that fits sockets on either side of the receiver adapter. Models for **Remington 870** and **Mossberg 500**, 12 gauge only. Basic **LEO** (Law Enforcement) model positions the buttstock low enough to allow use of the original shotgun bead or iron sights. Four-position stock offers length of pull adjust from 10 1/2" to 13 1/2". **Recoil Reducing** model combines the low tube position and M4 buttstock with an Enidine hydraulic energy absorber to reduce felt recoil by as much as 70%. Gives you outstanding control to ensure fast, accurate follow-up shots. L.O.P. adjusts from 11 1/2" to 14 1/2" in five, pre-set locking positions. **Stock Adapters** also sold separately; accepts standard AR-15 pistol grips and M4-type carbine receiver extensions.

### PHOENIX TACTICAL

## KICKLITE TACTICAL STOCK

Built-In Recoil Suppression System Reduces Shoulder Battering

Easy-to-install kit turns an ordinary pump shotgun into an easy-to-control tactical/self-defense gun. Adjustable, six-position, M4-style buttstock has a generous rubber recoil pad and built-in spring-loaded recoil suppression system that reduces felt recoil 40-50%. Aids shooters of all sizes, skill levels, and body types to shoot more accurately, with faster follow-up shots. Ergonomic pistol grip has a non-slip surface to further enhance control. Includes sling swivel adapter and five-shot shell carrier that mounts on either side of stock. Drop-in installation: just unbolt factory buttstock and install the KickLite components with the included mounting hardware. Remington, Mossberg, and Winchester models come with a deeply grooved tactical forend.

**SPECS:** Glass-reinforced, injection-molded nylon, black. Length of pull adjustment: 11 1/2" to 15". Includes buttstock, shotshell holder, mounting hardware, and instructions. **Moss** models fit 500, 590, and Maverick 88. **Win** fits 12 gauge Winchester 1200 and 1300. **Saiga** fits 12/20 gauge and .410 bore shotguns, as well as 7.62/.308 rifles, in original factory configuration - i.e., guns that have **not** had the trigger moved forward.

## NEW! SB TACTICAL REMINGTON TAC-13 SBA3 & SBA4 PISTOL BRACES

Provides Extra Comfort, Stability & Control When Shooting Your TAC-13

The comfort, control, and shootability improvements of SB's AR-15 pistol braces is now extended to the TAC-13 self-defense shotgun! These kits contain everything you need to "brace yourself" for easier, more comfortable shooting of your "13. The minimalist **SBA3** provides plenty of support with as little bulk as possible. It offers 5-position length-of-pull adjustability (9.5" to 11.5") for the perfect fit - and it still offers all the enhanced weapon support from the forearm of the original AR-15 pistol brace. It has ambidextrous QD sling swivel sockets, and of course the nylon forearm strap is nicely adjustable. Compact, too - the entire SBA3 is only 6.1" long and weighs slightly under 7 oz. A mil-spec AR-15 carbine receiver extension is included. **SBA4** - If you want your TAC-13 to have even more of an AR-15 feel to it, go with the SBA4 brace, which is shaped and proportioned more like a skeletonized M4 carbine stock, with a more comfortable cheekweld and a balanced feel. 10" to 12" LOP. **Both** models come with all necessary hardware, including receiver adapter, and Ergo flattop SureGrip pistol grip.

SHOTGUN

STOCKS

**REMINGTON 870/11-87 SYNTHETIC SHOTGUN STOCK**

Genuine Factory Replacement Stocks Are All-Weather Tough

The same tough, durable, synthetic stocks that the Remington factory uses on their all-weather, Police, and home defense shotguns. Injection molded from fiberglass-filled, thermoplastic material that's lightweight and stands up to all extreme weather conditions. **Sport** is a classic stock design built for comfort. Includes molded-in checkering on the wrist and forend for an improved gripping surface. Neoprene rubber recoil pad helps reduce felt recoil for better follow-up shots. Includes rear sling swivel stud. **ShurShot™** has an extra-large thumbhole, plus both left- and right-side palm swells and cheek rests for comfortable ambidextrous use. Raised comb provides perfect eye alignment with scopes or iron sights. Advanced Supercell™ recoil pad sets a new standard in recoil reduction with an amazing 54% less felt recoil than an autoloader with standard factory pad. Helps prevent flinching for quick, accurate follow up shots, and ensures all day shooting comfort. Molded-in texture on the wrist and forend allows a non-slip grip. Includes molded-in rear sling swivel stud. Models available for Remington 870 and 11-87, both 12 gauge only.

**SPECS:** Nylon plastic, as-molded finish. **Sport/Police** - Available in Black only. Factory drop at comb and length of pull. Includes buttstock, forend & rear sling swivel stud. **Police stock does not include sling swivel stud.** 1 lb. 5 oz. (595g) wt. **ShurShot** - Available in Black, Mossy Oak Obsession® (870), or Realtree Hardwood APF® (11-87) camo pattern. Factory length of pull. Includes buttstock, forend, and rear sling swivel stud. 1 lb. 6 oz. (624g). Models for Rem 870 and 11-87, both 12 gauge only.

**STRIKE INDUSTRIES MOSSBERG 590/590A1 & REMINGTON 870 VOA HANDGUARD**

Is Discretion the Better Part of Valor? It IS When You Put This Forend on Your Shotgun!

Strike's "Valor of Action" aluminum forend brings the robustness and feel of an AR-15 handguard to the two most popular tactical/competition/self-defense shotguns. Contoured cuts on the fully dehorned surface give you a superb consistent grip that won't shift as you cycle the action. Front and rear hand stops ensure your hand doesn't move until you want it to! Ten (10) M-LOK® slots give you plenty of access-mounting options. Extra overall length gives you a larger grasping surface for

**SB TACTICAL MOSSBERG SHOCKWAVE & REMINGTON TAC-14 SHOTGUN STABILIZING BRACE**

Brings a New Era of Stability to Popular Compact Personal-Defense Shotguns

The BRACE has arrived - for shotguns. All the benefits of SB's famous Brace for AR-15 pistols (and, now, many other rifle-caliber pistols) is also available for the Mossberg 590 Shockwave and Remington TAC-14 personal defense shotguns. Sure, the factory "Bird's Head" handle on these guns looks badass and is functional enough - but these are hard-kicking firearms and sometimes you need some extra support. SB's Stabilizing Brace provides a third point of contact to give you even better control, and a more comfortable shooting experience with these guns. The Brace is made of tough, semi-flexible, elasto-polymer that's darned close to indestructible (you really have to work hard to damage it). It's easy to install, too. The ready-to-assemble kit includes the Pistol Stabilizing Brace itself, a pistol receiver extension, ERGO Flat Top SureGrip, ERGO Mossberg 590 adapter, castle nut, and an adjustable nylon strap. The whole shebang weighs only about 20 oz. The shotgun brace is available in two styles: **SBM4** closely replicates the look and feel of an M4-type AR-15 buttstock; **SBL** provides the same support in a futuristic-looking, minimalist package. Like all of the company's braces, SB Tactical's shotgun braces are ATF-approved, designed by U.S. veterans, and proudly made in the USA.

**CARBON ARMS 6-ROUND PINWHEEL SHOTSHELL HOLDER**

Competition Shell Holder Makes For Super-Quick Reloads Using The "Load-Two" Method

Durable, injection-molded polymer shotshell holder gives competition shooters an upper hand in the often difficult shotgun stages. Optimized for competitors using the "Load-Two" method, the versatile holder positions 6 shells at your preferred position and angle to maximize reloading speed. Tek-Lok system enables attachment to popular competition belts.

**SPECS:** Injection-molded polymer, black. Holds (6) 12 ga. shotshells. Fits belts up to 2 1/4" (5.7cm) wide.

- #100-011-087** 6-Rd Pinwheel Shotshell Holder, 2G70L19... **\$ 77.99**

## ARIDUS INDUSTRIES Q-DC QUICK-DETACH SHOTSHELL CARRIER

Carry 6 Spare Shells on the Gun When You Need Them; Snaps On & Off Gun in an Instant

Carrier detached from Adapter

Aridus re-engineered the classic receiver-mounted spare-shell carrier to make it more effective and more versatile. Of course, the Q-DC "Quick-Detach Carrier" lets you carry 6 spare rounds right on the side of the receiver. The innovation lies in the adapter that attaches to the shotgun's receiver and the detachable carrier unit that snaps into it. When you don't need the carrier, simply detach it from the adapter and go to the range - no laborious process of removing your gun's hammer and trigger pins to get the carrier off. The carrier unit itself has stainless steel retention springs to put a generous bear-hug on the shells so they will not pop off under recoil. You can position the shells brass up or brass down, and you can even leave the carrier loaded without loss of spring tension. For the ultimate in speed and versatility, you can get spare carrier assemblies and swap an empty one for a fully loaded between stages.

The Receiver Adapter is machined aluminum and built strong enough to handle extreme use. Steel latch and torsion spring ensure the carrier stays in place on the adapter. Other features: blind tapped holes that can't be over-tightened and a serial number window to make life easier for law enforcement armorers who need to keep tabs on individual weapons. The carrier is also made of aluminum to provide secure metal-on-metal contact with the adapter; grooves at the rear give both visual and tactile indication of the carrier's orientation for easy mounting to the adapter.

All kits are for 12 gauge shotguns only and include the adapter AND one shell carrier. Remington 870 model will also fit 1100 and 11-87 shotguns; you may have to trim some material from the forend. Mossberg fits 500 and 590 shotguns. Universal model will fit the Beretta 1301, Benelli M2 and M4, Mossberg 930, and many similar shotguns. It mounts to receiver with Very High Bond 3M double-sided tape with adhesive that has an operating temperature of -30° F. to +230° F, so failure due to temperature extremes is a non-issue. Large cutout in adapter allows access to receiver pins so the user can still disassemble the shotgun. Not for use on Remington 870/1100/11-87 or Mossberg 500/590.

**Brownells Gun Tech™ Note:** If your shotgun's forend extends beyond the edge of the receiver when the action is opened, it may interfere with the Q-DC. In most cases, trimming of some material from the forend will solve the problem. The Q-DC is compatible with both Magpul and Surefire forends, and will not interfere with the Magpul single-point sling adapter.

## GG&G MOSSBERG SHOCKWAVE & REMINGTON TAC-14 SIDE-SADDLE SHELL HOLDER

Fast, On-Weapon Access to Spare Rounds for Your Tactical Shotgun

The GG&G Side-Saddle Shell Holder gives you quick access to extra ammo during fast-moving tactical situations. It positions the shells at a 15° angle to match the angle of your hand, making loading the magazine or chamber even faster. With the Side-Saddle Shell Holder, shells can also be positioned with the base up or down to match your reloading style. Holding 5 rounds, the Side-Saddle is available for both the Mossberg Shockwave and the Remington TAC-14. It fits the 12 gauge models of both guns ONLY. It's only 6.5" long and constructed of high-grade 6061 T6 aluminum, so it's strong and lightweight, with cutouts in the non-load-bearing areas to keep weight to a bare minimum. Installation requires no permanent modifications to the gun. Looking for more customization? You can get your Side-Saddle in three configurations: a base model that holds the spare ammo only or with two types of QD sling swivel: a Rectangular loop that accepts a 1/4" nylon webbing sling or an Angled loop for HK-style quick clips and mash hooks.

## RAM SUPERIOR FIREARM SOLUTIONS RAM SHELL CADDY

Keeps 6 Shells At The Ready For Fast Reloads

Compact shell caddy in the "grab-two" style helps you complete super-fast reloads for competition or field shooting. Nylon holders retain six 2 3/4" shells securely during vigorous movement. Durable Tek-Lok belt clip from Blade Tech reliably fits belts up to 2 1/4" wide and adjusts vertically and to ±20 degrees cant angles for a custom fit.

SPECS: Frame - Aluminum, hardcoat anodized, and molded polymer, matte black. Holds six, 2 3/4" 12-gauge shells. 5 1/2" (13.65cm) long, 3" (7.62cm) wide, 2" (5.08cm) thick overall. 8.1 oz. (230g) wt. w/o shells.

- #100-011-677 Ram 12 Gauge Shell Caddy, 3Z48P59... \$ 53.99

## SAFARILAND DOUBLE SHOT SHELL HOLDER

Puts Two Rounds In Easy Reach

Lightweight, polymer shell holder provides instant access to two spare 12 gauge shotshells for rapid reloads during competition or tactical operations. Compact, low-cut profile allows an easy grasp of exposed shells for quick removal without hang-ups. Features a one-piece, wrap around belt clip with extra-long bottom hook for worry-free retention. Molded polymer construction. Fits belts up to 2 1/4" (5.7cm) wide. SPECS: Molded polymer, black, 1 1/2" (4.7cm) long, 1 1/2" (4.4cm) wide, 2 1/2" (6.3cm) high. Fits belts up to 2 1/4" (5.7cm) wide. 12 gauge only.

- #797-000-127 Double ShotShell Holder, 7G8G49... \$ 9.99

## MESA TACTICAL RECEIVER MOUNT SHOTSHELL HOLDER

Sidemount (SM)

Picatinny Rail (PR)

Puts Extra Shotshells Right Where You Need Them For Fast Loading

Rugged and lightweight, aluminum shell holders put extra 12 gauge shotshells on the left side of the receiver for fast tactical reloads. Shells are held in place with a unique, internal Santoprene™ elastomer rib that securely retains even heavy slug shells during vigorous movement or heavy recoil. Available in sidemount (SM) or Picatinny rail (PR) configurations. All necessary installation hardware, tools, and instructions included.

Remington 870/1100/11-87 Sidemount is available in 4-, 6-, and 8-round capacities and uses steel-on-steel, threaded adapters that replace the trigger group pins to anchor the shell holder securely to the receiver. Remington 870 shotguns require a shortened, tactical-style forend to accommodate the 6- and 8-round sidemount units. Remington 1100/11-87 require minor forend alterations to fit the 8-round model. Approx. 1 1/2" (3.8cm) high. Lengths: 4-Rd - 5 1/4"; 6-Rd - 6 1/4" (15.8cm); 8-Rd - 7 1/4".

Remington 870/1100/11-87 Picatinny is a 6-round model that features an integral Picatinny rail for mounting sights, optics, or other accessories. Wraps around the top and mounts to both sides of the receiver using the same type of attaching system as the sidemount model. Fits Remington 1100/11-87 without modification; requires use of shorter than factory length forearm when used with Remington 870. 7" long x 2 1/2" high, 7.6 oz. wt. Remington VersaMax holds 6 rounds and has an integral Picatinny rail. 6 1/2" x 2-12" high.

Mossberg Sidemount is a 6-round unit that attaches in the same manner as the Remington Sidemount. Fits Mossberg 500/590/835. 6 1/2" long x 1 1/2" high, 5.2 oz. wt.

Benelli models all have an integral Picatinny rail and mount to the top of factory drilled/tapped receivers. M1/M2 holds 6 rounds (requires drilling/tapping receiver for M1). 6" long x 2" high, 7.4 oz. wt. M4/M1014 available in 6-Rd (6" long x 2" high, 7.5 oz. wt.) and 8-Rd (7 1/4" long x 2" high, 9.5 oz. wt.). Supernova holds 4 rounds, 8" long x 1 1/4" high, 6.2 oz. wt. SPECS: 6061 T6 aluminum, anodized, matte black. For 12 gauge only. All models include mounting hardware, rubber gasket, and installation instructions. NOTES (for table below): \* Requires use of shorter forend on Rem 870. † Requires minor forend alterations to fit Rem 1100 & 11-87. ‡ Requires drilling & tapping receiver to fit Benelli M1.

## SCATTERGUN TECHNOLOGIES SIDE-SADDLE SHELL HOLDER

Attaches To Receiver; Puts 6 Additional Shells Right At Your Fingertips

Puts 6 additional shots right next to your hand for faster reloads. Balances the extra weight between your hands for no change in

## TACSTAR SLIMLINE SIDESADDLE SHOT SHELL HOLDER

Keeps Shells at the Ready for Fast Reloads or Top-Ups

Rail Mount + Sidesaddle

Slimline Sidesaddle

Here's a simple upgrade that not only increases the versatility of your tactical shotgun, but it gives you a place to hang some extra ammo for quick, easy access. Ultra-rigged, lightweight aluminum mount straddles the shotgun's receiver for a rock solid fit that won't rattle loose under recoil. The Picatinny top rail makes a perfect home for optic accessories, yet the rail is designed to sit low enough to allow continued use of the shotgun's bead sight. Constructed of a proprietary material, the sidesaddle shell holder keeps 6 extra rounds secure and at the ready, yet its low profile won't snag on gear, clothing, or vegetation. Sidesaddle shell holder is available without the Picatinny top rail. Mounts fit 12 ga. shotguns only.

## TACSTAR SIDE SADDLE SHELL HOLDER

Mounts To Receiver; Holds Extra Rounds For Quick Reloads

Lightweight, molded-nylon shell carrier puts additional fire power quickly within your reach. Aluminum mounting plate attaches to the side of the receiver using the existing pin/screw holes—no permanent alterations or gunsmithing required. Four- and six-round models available for a variety of popular law enforcement shotguns. Rem. 870/1100/11-87 ESN has a convenient window in the mounting plate that leaves the weapon's serial number exposed for viewing with the shell holder installed. Designed for armorers and law enforcement agencies who track their firearms by serial number for inventory, maintenance, and record keeping. SPECS: Shell Holder - nylon plastic, black. Mounting Plate - aluminum, black, matte finish. 6 1/2" (17cm) long, 5.3 oz. (152 g) wt. (6-round). Includes mounting screws, pins and instructions. Field-grade forends that extend onto the sides of the receiver must be modified or replaced to provide adequate clearance for 6-shot shell holders.

**VANG COMP SYSTEMS REM 870/1100/11-87  
DETACHABLE SIDE AMMO CARRIER**

**Receiver-Mounted Carrier  
Puts 6 Additional Shells At  
Your Fingertips**

Lightweight shell carrier puts six additional shots within easy reach for fast reloads. The DSAC (Detachable Side Ammo Carrier) features an aluminum

backing plate that secures to the receiver with the included replacement trigger pins and features. A hook-and-loop attachment system enables fast installation and removal of the separate shell carrier. Elastic webbing holds shells tight even when wet. Cut-out in mounting plate allows viewing of receiver serial number. Deluxe model come with two shell carriers. Additional shell carriers available separately.

**SPECS:** Fits Remington 870/1100/11-87, 12 gauge only. Aluminum side plate, anodized, matte black. Stainless steel pins, natural finish. Elastic web shell holder, black. 6 1/2" (17cm) long x 1 1/2" (3.8cm) wide. 3.5 oz. (99g) wt.

**OPSOL MOSSBERG  
500/590/590A1/MAVERICK 88  
MINI-CLIP™ SHELL ADAPTER**

**Lets You Shoot Short, Lighter-Recoiling  
Mini-Shells in Your Mossy AND Fit More  
Round in the Tube**

Looking for an easy, inexpensive way to enhance the capacity and lower the recoil of your 12-gauge shotgun? It's possible with the addition of the OPSol Mini-Clip! This small aftermarket adapter fits easily into the opening located under the receiver of any Mossberg 500, 590 590A1, Shockwave, or Maverick 88 12-gauge shotgun. Once installed, the clip allows for reliable cycling of short, 1 1/4" personal-defense shotshells, such as those from Challenger and Aguila, straight from the magazine. Want to shoot longer shells? The clip comes out just as easily as it went in, taking mere seconds. Another benefit of the Mini-Clip™ is that by enabling the reliable feeding of mini-shells, it allows smaller-statured and recoil-sensitive shooters to shoot the tried-and-true Mossberg 12 gauge platform without the wrestling with full 12 gauge recoil. No need to hunt down a more expensive 20 or 28 gauge gun. The OPSol folks like to say this: with a Mini-Clip™ and 1 1/4" ammo, ANY shooter can stay "in the game" without all the pain.

- #100-026-444 OPSol Mini-Clip Shell Adapter, 9Z12Q79 ..... \$ 15.99

**BIRCHWOOD CASEY  
SAVE-IT SHELL CATCHER**

**Holds Empties For Easy Removal**

Easy-to-install shell catcher grabs empty hulls being ejected from your 12-gauge shotgun and allows you to stow them away in a pocket or bag. Padded, double-sided tape secures catcher to the receiver and stays firmly in place; removes easily when not needed and won't leave gummy residue behind. Fully adjustable for different guns and loads by opening or closing the wire as needed. Locks in the up position for singles, or down for doubles.

**SPECS:** Steel. Fits right-hand 12 gauge semi-auto shotguns. Includes instructions.

- #167-000-023 Save-It Shell Catcher, 5C14J39 ..... \$ 15.99

**T&S SHELL CATCHER**

**Catches Shotgun Empties; Saves  
Them For Reloading**

Spring steel clip stops cases in the ejection port for easy removal. No more bending/stooping to pick up cases or losing them to ranges with "If it hits the ground, it's ours" policies. Snaps easily to side of receiver just below the ejection port; snaps off when you need to cycle more than one round, as when shooting doubles.

**SPECS:** Spring steel, plastic coated, black. All models fit 12 gauge. TS-1100 also fits all 20 gauge Rem 1100 models except Youth LT-20 and Rem 1100 Classic Trap.

**TRIPLE-K DELUXE SNAP CAP  
FOR SHOTGUNS**

**Save Firing Pins - Shoot Better With Safe, Dry-Fire Practice**

The spring-loaded "primers" in these snap caps act much like a live primer and cushion the blow so firing pin and bushing damage won't occur. Bright color and "different" feel to prevent mixing with live rounds or function-testing dummies. (Don't use snap caps as dummies - they don't duplicate loaded round weight/balance).

**SPECS:** Brass base, plastic body.

**BROWNELLS  
SHOTGUN DUMP POUCH**

**For Fast, Easy Reloading  
During Competition**

Heavy duty, 1000 denier Cordura® nylon pouch hangs at thigh level for quick, easy access to your shells when shooting trap, skeet, and clays. Durable, doublestitched partition divides the pouch into two separate compartments, one to hold a box of shells for 25-round competition, the other to store empties. Side mounted pocket is ideal for storing your shooting glasses, extra choke tubes or other gear and includes an overlap-

ping cover with hook-and-loop latch for a tight seal that won't open unexpectedly. Conveniently located elastic shell holder stores up to three extra shells for quick access. Brass coated "D" ring allows attachment of additional accessories like ear muffs or range cloth. Adjustable belt provides a custom fit to any size shooter.

**SPECS:** Pouch - 1000 denier Cordura nylon, brown. 7" (17.8cm) long, 5" (12.7cm) wide, 8" (20cm) high. Pocket - 4 1/2" (10.8cm) long, 1" (2.5cm) wide, 7" (17.8cm) deep. 20 oz. (567g) wt.

**BROWNELLS MOSSBERG 500  
HIGH-CAPACITY SHOTGUN KIT**

**Converts Your Field Gun To A Personal-Defense Workhorse**

High-quality OEM components help you transform a work-a-day Mossberg 500 sporter into a reliable, high-capacity, self-defense shotgun. You get a 12 gauge 20" barrel that accepts 3" magnum shells and features a fixed cylinder choke for maximum pattern coverage at self-defense ranges. Extended magazine tube gives you an authoritative 8-rounds of firepower, while the knurled takedown screw anchors it to the barrel, eliminating the need for an aftermarket barrel clamp. Extended-length magazine spring included to ensure reliable feeding. Choose a simple, brass Front Bead Sight for fast, instinctive sight acquisition or Rifle Sights (white front bead and adjustable U-notch rear) that give rifle-like accuracy when shooting slugs. The best part? ALL of these parts come from the Mossberg factory, so you can be sure of a drop-in fit to your gun!

**SPECS:** Kit fits Mossberg 500, 12 gauge receivers only. Barrel - Hardened carbon steel, matte blued finish. 20" (51cm) long, 12 gauge, 3" magnum chamber, smoothbore, fixed cylinder choke. Magazine Tube - Steel, blued finish, 8-rd capacity.

**FALCON INDUSTRIES ERGO GRIP®  
SURESTOP HANDSTOP**

**Fast, Precise, Tactile Hand Placement  
On Railed Forends**

During competition or a tactical situation, you can't afford to lose time fumbling to position your hand on the forearm, or, worse yet, have it slide off when racking a pump action shotgun. This rubber-coated, ergonomically shaped handstop attaches to any Picatinny rail forend to provide precise, tactile indexing of the support hand, so you keep your eyes on the target while mounting the weapon. Helps keep hand in position during recoil, too, for fast follow-up shots. Dual cross-bolts clamp the stop tightly to the rail for a solid, movement-free installation.

**SPECS:** Synthetic-rubber coated molded polymer, black. Steel cross-bolts, oxide finish, matte black. 1 1/4" long x 1 1/4" wide at base. Extends 1 1/4" (4.5cm) below rail.

- #573-000-052 SureStop Rail Handstop, 3G10C19 ..... \$ 11.99

SHOTGUN SLING MOUNT**

Rem Front Mount      Rem RH Rear Mount      Rem Amb. Rear Mount

**Secure Sling Attachment With Smooth, Unrestricted Movement**

Designed for tactical operations, these mounts place the rear sling attachment point in front of the operator, so you can quickly shoulder your weapon without getting tangled. Allows single point sling attachment, or use with a front sling mount for two-point sling installation. Loop accepts slings up to 1 1/2" wide. **Rear Mount** installs directly behind receiver, in front of buttstock. Precision machined from aluminum billet, then hardcoat anodized matte black. Right hand model for Remington 870, 1100, and 11-87 positions sling on left side of stock. Ambidextrous (Amb.) model for Remington 870, 1100, and 11-87 accepts HK-style clasps and other clip-on sling fasteners. **Rem Front Mount** positions the sling on the right side for shotguns with external retention type magazine caps; a ball-bearing detent locks mount into magazine cap to prevent rotation. **Moss Rear** mounts fit Mossberg 500/590 and are available with a slot that accepts a sling up to 1 1/2" wide, a loop for HK-style clip-on slings, or a socket for a single-point, QD pushbutton sling swivel (swivel included). **SPECS: Rem Rear Mount** - Aluminum, matte black. 1/2" (6.4mm) long, 1 1/2" (4.6cm) wide, 1 1/2" (4.8cm) high. Fits 870/1100/11-87, Right Hand only. **Rem Ambi Rear Mount** - Aluminum, matte black. 1/2" long, 2 1/4" (5.7cm) wide, 1 1/8" high. Fits 12 gauge Rem 870/1100/11-87. Also fits large-frame 20 gauge Rem. 870. **Rem Front Mount** - AS-35 Geneva steel, matte black. 7/8" (2.6mm) long, 2 1/4" (5.6cm) wide, 1 1/2" (3.8cm) high. Fits 870/1100/11-87 with early style external retention magazine caps. Moss - all models fit Mossberg 500/590.
